

Cross-Countrymen Drop 2nd Laurie Elliott Paces U of H

Flashy Laurie Elliott won his second consecutive two-mile race of the season, turning in a 9:11.8 performance to spark the Houston Cougars to a cross-country victory over Coach Ray Putnam's Cadets on the A&M course Saturday.

Elliott's teammate Geoff Walker took second in the run with a 9:16.0 as the Cougars had 22 points to A&M's 35 in the meet. Aggie senior Ilhan Bilgutay took third with a 9:19.0 effort.

Other thinclads finished in this order: Greg Robinson, Houston; E. L. Ener, A&M; Herbie Campbell, A&M; Robert Cooper, Houston; Robert Cozens, Houston; Norman Cooper, Houston.

Earl Myers, A&M; Jim Sebastian, A&M; Bob Gilbreath, A&M; and Larry Clancy, A&M.

The meet was almost a carbon copy of the season-opener held last week in Houston when Elliott and Walker won first and second for the Cougars and took the meet, with Bilgutay finishing third.

Elliott is the much-sought-after brother of Herb Elliott, former world-record holder in the mile. The Elliott Clan hails from Australia.

The Ags are not without foreign talent to spark their team, however, since Bilgutay has come to Aggieland from Istanbul, Turkey. In both these meets against the

108 Finalists In 7 Events To Swim In 'Mural Climax

At present 108 finalists in seven different events including both upperclassman and freshman classes, are participating in the intramural swimming finals to be held Wednesday night at 7:30, Charles E. McCandless, intramural director, announced.

Two events and 36 finalists were added Friday. In the freshman division, 100-foot backstroke, the finalists are Scott, Sqd. 6; Binford, D-1; Fry, Sqd. 4; Bond, Sqd. 10; Penn, E-2; Post, F-2; Aglietti, D-3; Clark, A-1; and Bradley, E-1.

Scott of Sqd. 6 set the best time in the pre-meet with a time of 21.3. The record for the event was set in 1940 by Taylor of B Cav.

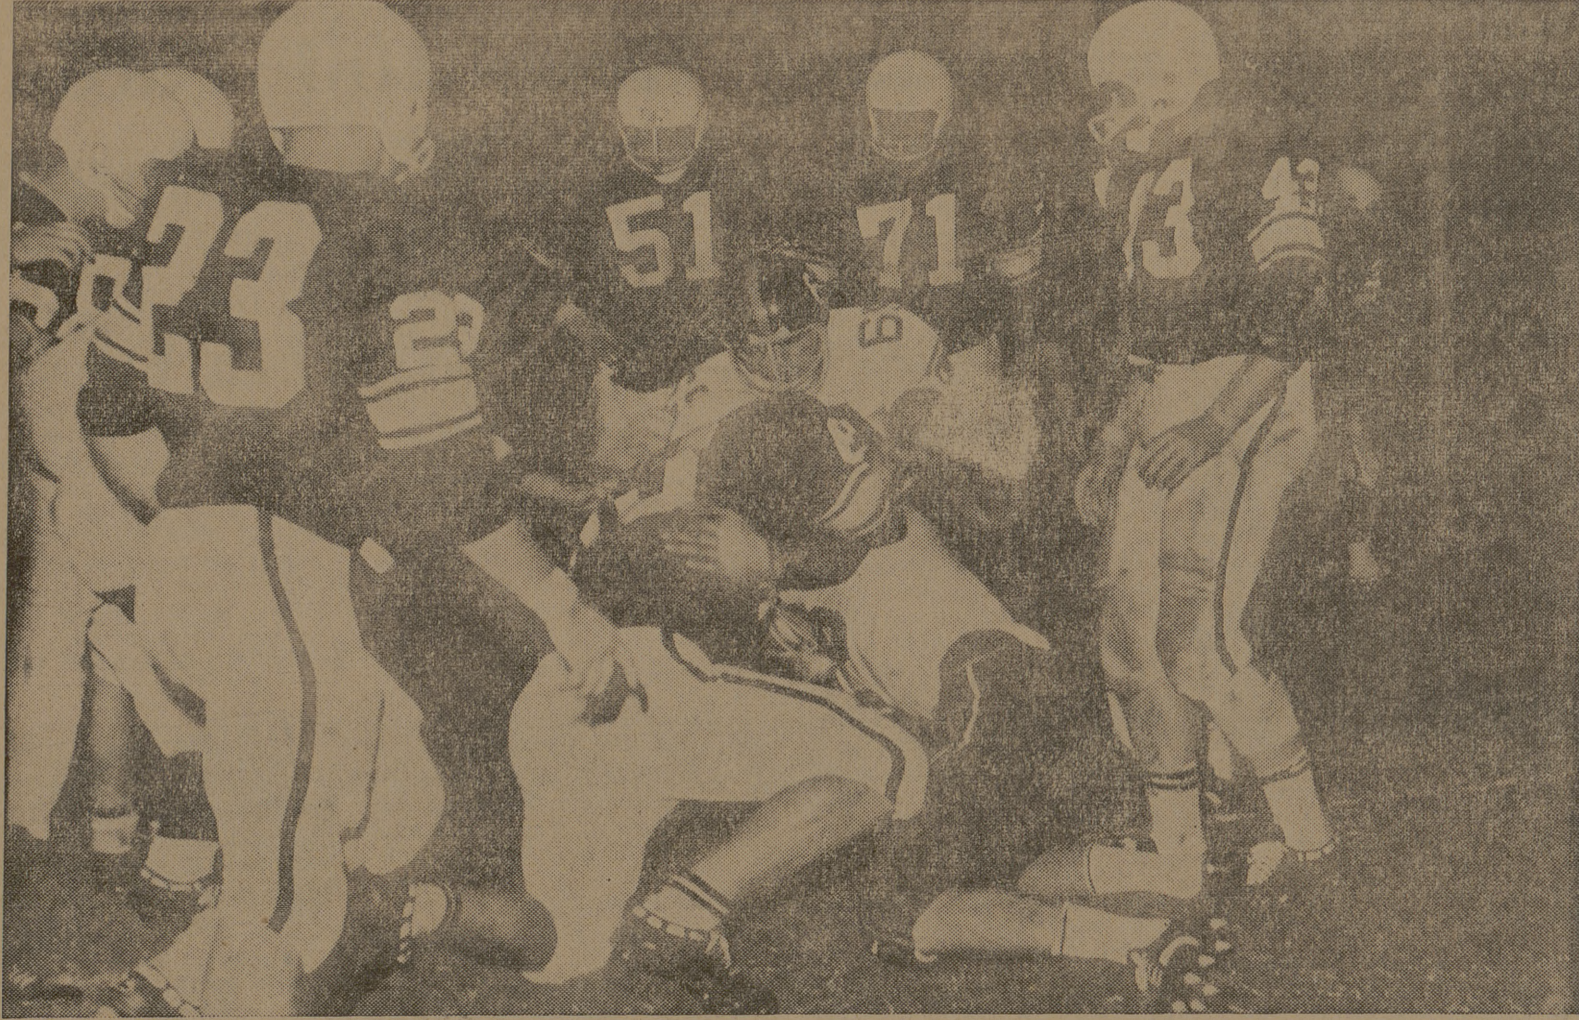

Freshman finalists in the 200-foot breaststroke are Borum, Sqd. 1; Baldwin, E-1; Brewer, E-2; Edson, G-3; Place, Sqd. 7; Prewitt, Sqd. 14; Gager, Sqd. 14; Wilson, Sqd. 11; and Mims, Sqd. 15.

In this event Borum of Sqd. 1 broke the record of 49.6 set in 1961 by Vick of B-3 and McCrady of Sqd. 3 in 1960 with a 48.0. However, the record only was recorded if Borum match or better his time in finals Wednesday.

Murray of Sqd. 13 led the finalists of the Class A and B division in the 100-foot backstroke with a time of 20.0. The best set in 1959 by Murray of B is 19.3.

Other finalists in this event are Klug, Mitchell Hall; Grier, Sqd. 3; Kraybill, Sqd. 15; Pharis, Club; Armstrong, I-3; Borum, Sqd. 3; Taylor, F-2; and Scott, G-3.

In the 200-foot breaststroke event, upperclassman and freshman, Vick of B-3 set the best time of a 50.2. The record of 50.4 set in 1961 by McCandless stands unbroken if Vick can match the time he set in the pre-final meet. Other finalists in this event are Borum, Sqd. 1; Cook, D-1; Lyles, Sqd. 4; Armstrong, Sqd. 1; Pedigo, F-3; Boring, C-1; and Quinn, Sqd. 13.

Tempers Flare

With the score 0-0 early in the fourth quarter Saturday night the night just got too hot for Ags and Red Raiders alike. George Hargett (23), Ray Kubala (51), James Craig (71), Lee Roy Caffey (43) and a host of Aggies look on as teammate Jim Phillips scuffles with two unknown Texas Tech gridgers. The flare-up ended as quickly as it started

and the game dragged on to an even hotter situation in the final seconds when the Raiders kicked a field goal with less than a minute remaining and then sophomore Danny McIlhany ran their kickoff back from the end zone to bring the Cadets out on top.

Dawson Holds In Passing, Haynes Bows Out To Tolar

DALLAS, Tex. (AP) — Len Dawson of Dallas held a tight rein on the passing leadership of the American Football League Sunday although his team got beat but Abner Haynes of Dallas lost out to Charles Tolar of Houston in rushing.

Neither Tolar nor Haynes had a big day carrying the ball but the Houston cruncher came up with 38 yards against Buffalo while Haynes got only 33 against San Diego. Thus Tolar became the leader by 3 yards with his 324 yards on 56 attempts. Haynes

had 321 on 51 tries. Dawson has completed 55 of 89 passes for 834 yards and 11 touchdowns. Second is Frank Tripucka of Denver, who has connected on 99 of 179 for 1,340 yards. Lionel Taylor of Denver leads the pass receivers as usual. He has taken 32 throws for 363 yards. Art Powell of New York is second with 30 for 544 yards. Gene Mingo of Denver continued to set the pace scoring when he racked up 19 points against Oakland. Mingo has 66 points. Gino Cappelletti of Boston, who had a similar day against New York, is second with 50 points. Billy Atkins of New York tops the punters with a 46.1 yards average. Hal Lewis of Oakland leads the punt returners with an 8.5 average. Keith Lincoln of San Diego is the No. 1 kickoff returner with a 37.6 average on eight runs. Marv Maruszak of Buffalo has intercepted the most passes, with six.

Ag Defense In Action
A host of Cadet tacklers meet Tech quarterback Richard Mahan as he tries to turn around left end Saturday night. The Ags are currently third in defense in the conference.

"Tareyton's Dual Filter in duas partes divisa est!"

says Romulus (Alley-Oop) Antonius, agile acrobatic ace of the amphitheater, while enjoying a Tareyton. "Tempus sure does fly when you smoke Tareyton," says Alley-Oop. "Marcus my words, one Tareyton's worth all the Julius in Rome. Because Tareyton brings you *de gustibus* you never thought you'd get from any filter cigarette."

Dual Filter makes the difference

SPACE, MISSILE & JET PROJECTS AT DOUGLAS
have created outstanding career opportunities for **SCIENTISTS and ENGINEERS** B.S. degrees or better

Assignments include the following areas:

- Servo-Mechanisms**—relating to all types of control problems
- Electronic Systems**—relating to all types of guidance, detection, control and communications
- Propulsion**—relating to fluid-mechanics, thermodynamics, dynamics, internal aerodynamics
- Environmental**—relating to air conditioning, pressurization and oxygen systems
- Human Factors**—analysis of environment affecting pilot and space crews, design of cockpit consoles, instrument panels and pilot equipment
- Heat Transfer**—relating to missile and space vehicle structures
- Structures**—relating to cyclic loads, temperature effects, and the investigation of new materials, methods, products, etc.
- Aerodynamics**—relating to wind tunnel, research, stability and control
- Solid State Physics**—relating to metal surfaces and fatigue
- Space vehicle and weapon system studies**—of all types, involving a vast range of scientific and engineering skills

Get full information at **INDIVIDUAL ON CAMPUS INTERVIEWS** with a Douglas representative **Monday & Tuesday—Oct. 15 & 16**

We urge you to make an appointment through your placement office. If you cannot, please write to **S. A. Amestoy, Staff Assistant to VP Engineering**
