

Former Aggie Address Chemists Here

1938 A&M graduate whose professional career has been devoted to research will be the principal speaker for the January meeting of the A&M-Baylor Union section of the American Chemical Society. He is Nugent Chamberlain of Baytown.

The meeting is scheduled at 7:45 Wednesday in Room 231 of the Chemistry Building. Section chairman J. B. Beckham said those who wish to join the speaker in the dining room of the Memorial Student Center at 6:15 p.m.

Chamberlain's entire career, except for service during World War has been with Humble Oil and Refining Co.'s Research and Development Center at Baytown. A research specialist, he concentrates on the analytical applications of clear magnetic resonance spectrometry. He also has conducted research on continuous plant analyses, high temperature short contact reactions and wax crystallization.

Watkins will give a committee report on "Phymatotrichum Root" at the disease report session of the meeting.

Watkins To Give 'Foot Rot' Report

G. M. Watkins, director of agricultural instruction, is scheduled to speak at the 23rd meeting of the Cotton Disease Council Tuesday at the Statler Hilton Hotel in Dallas.

Watkins will give a committee report on "Phymatotrichum Root" at the disease report session of the meeting.

Literacy Workshop Slated for Prospective Teachers

A workshop sponsored by the Brazos Valley Literacy Council will be conducted in the Commissioner's Courtroom at the Brazos County Courthouse in Bryan Friday from 7:30-9:30 p.m. and Saturday from 8:30-11:30 a.m.

The workshop will serve as a training program for prospective teachers of adult illiterates, providing information for others interested in the program and a review of methods for those who have previously attended a workshop. The workshop will be under the direction of the Literacy Council director of training, Mrs. Murray A. Brown.

Anyone who feels that he might become a part of this program, either now or in the future has been encouraged to attend. There is no prerequisite for becoming a teacher other than being literate in English. The cost is that of time and personal interest.

EVERYONE INVITED National Archivist Speaks Wednesday

Dr. Henry P. Beers of the National Archives, Washington, D. C., will come here Wednesday under the sponsorship of the Department of History and Government to give a lecture illustrated by a sound film about the archives at 7:30 p.m. in Room 146 of the Physics Building.

His other works include "Bibliographies in American History; Guide to Materials for Research," published in 1938, and "American Missions in the French Archives, A History of the Procurement of Reproductions," 1957.

Beers, a native of Scranton, Pa., did his undergraduate work at Lafayette College and his graduate studies at the University of Pennsylvania.

He has worked in the War Department, the Navy Department, the War Records section of the National Archives, as assistant editor and foreign relations historian of the Division of Historical Policy Research of the Department of State and in the Civil Affairs Office of the General Services Administration. He is a member of the Society of American Archivists and of the Mississippi Historical Association.

Beers is the author of several works, his latest being a "Guide to Federal Archives Relating to the Civil War," published in 1962 jointly with Kenneth W. Munden, by the National Archives and Records Service, General Services Administration.

TWO GROUPS MEET State Groups Slate Joint Conference

The annual Texas Fertilizer and Limestone Conference began here Monday in the Memorial Student Center.

Included in the conference are business meetings of the Texas Agricultural Limestone Association and the Texas Plant Food Educational Society.

Flake Fisher, A&M agronomist and program chairman, said TPFES members will meet Tuesday afternoon, and the limestone group met Monday afternoon.

Subject matter talks began at 10 a.m. Tuesday with an address of welcome by G. M. Watkins, A&M's director of agricultural instruction. R. C. Potts, Watkins' assistant, is program chairman.

A special feature was a panel discussion on "Co-ordinated Agriculture Increases Fertilizer Use," with W. O. Trogden, head of the Department of Soil and Crop Sciences, as moderator.

Theme of the TPFES this afternoon was "Soil Fertility Short Courses Increase Fertilizer Use." N. D. Morgan of Shreveport, La., TPFES president, is chairman.

A banquet is set for 6 p.m. Tuesday with J. Dave Petitjean of Crowley, La., talking on "Cajun Sales Philosophy." Trogden is master of ceremonies.

The Wednesday program, "Agricultural Control and Analytical Services," will begin at 9 a.m. with Reed McDonald, director of the Texas Feed and Fertilizer Control Service, as chairman.

DPS Director Urges Texans To Have Cars Inspected Early

Col. Homer Garrison Jr., Director of the Texas Department of Public Safety, Monday urged Texas automobile owners to "do their shopping early" this year to reduce the last minute rush for inspection stickers.

All vehicles coming under the provisions of the Texas Vehicle Inspection Act must secure the 1963 inspection sticker by April 15, 1963. After that date, vehicles not displaying the new inspection sticker will be operating in violation of the law and the operators of those vehicles will be subject to arrest, Garrison said.

He reported that approximately one half the inspection period has expired and about one fourth of all vehicles in the state have been inspected.

TEES Economist Gets Austin Post

Bill R. Shelton has resigned as assistant research economist in the industrial economics division of the Texas Engineering Experiment Station.

James R. Bradley, head of the industrial economics division, said Shelton will become assistant executive director of the Texas Industrial Commission in Austin February 1. He has been at A&M since 1955 when he graduated from the University of Texas.

Higher Salaries Offered This Year's Graduates

Technical and non-technical students nearing completion of undergraduate studies are being offered jobs at salaries averaging \$30 a month more than a year ago. A survey of 91 selected colleges, including A&M, showed offers to technical students rose to \$592 monthly, while non-technical offers increased to \$493.

This is a key finding of the latest national survey, according to W. R. Horsley, director of the placement office. He serves as chairman of the Salary Survey Committee of the College Placement Council, national headquarters of the eight regional placement associations of the United States and Canada.

New Nighttime English Class Set For Spring

A section of English 103 designed for students with sophomore or higher academic classification who desire intensive work in certain aspects of writing will be offered each Monday night during the spring semester.

Students lacking the necessary sophomore standing may be admitted with the consent of the head of the Department of English, Dr. J. Q. Anderson.

This is a regular section of English 103, carrying three semester hours of credit. Emphasis will be placed, however, on individual work by students wanting to attain greater proficiency in such specific areas as spelling, grammatical construction, grammatical form, punctuation, clearness of meaning and naturalness of expression.

Educators To Plan Summer Meeting

A planning session for the School Administrators and Supervisors Conference set on campus in June will be held in Austin Wednesday.

The session will involve approximately 50 persons who will be in Austin for the Texas Education Agency-sponsored School Administrators Advisory Conference on Education, Dr. Paul Hensarling, head of the Department of Education and Psychology, said.

Hensarling and Dr. Grady P. Parker plan to attend the meeting, scheduled Wednesday through Friday.

The June conference here attracted approximately 500 persons in 1962.

Polish Scientist To Discuss Fat Research

A past president of the International Society for Fat Research will lecture here Tuesday afternoon.

He is Dr. Henryk Niewiadomski, deputy chancellor and head of the Department of Fat Technology in the Technical University at Gdansk, Poland. He also is an advisor to the Institute of the State Fat Industry.

Niewiadomski's trip to this country is sponsored by the Ford Foundation as part of the Polish Exchange Program. Purpose of his visit is to acquaint him with the theoretical and practical progress in fat technology in the United States.

The Graduate Lecture, "Student Specialization in Fat Technology at the Technical University," is scheduled at 4 p.m. Tuesday in Room 114 of the Herman Heep Building. The public has been cordially invited, Dean Wayne C. Hall of the graduate school, said.

Niewiadomski was born in Poland and educated at the University of Lwow, receiving the Master of Science degree in chemistry in 1927 and the Doctor of Science degree in food technology in 1936. Between 1927 and 1946 he was employed as a chemist in various industries. Since 1947 he has been at the Technical University.

As recipient of the award for the TFX, General Dynamics/Fort Worth continues to pioneer technological development in the Southwest. The TFX is a bi-service (Air Force and Navy) aircraft with many unique engineering characteristics. Its development will afford excellent engineering opportunities to qualified engineers and scientists. To take advantage of these opportunities, contact your Placement Director to determine when a GD/FW representative will be on campus, or write Mr. J. B. Ellis, Industrial Relations Administrator-Engineering, General Dynamics/Fort Worth, P. O. Box 748, Fort Worth, Texas. An equal opportunity employer.
