"What responsibilities will you start with at W. E.?"

Exciting ones. With plenty of room for your professional development. Western Electric's business depends on new ideas. And new engineers take responsible, immediate part in projects that implement the entire art of telephony — including electronic telephone offices, computer-controlled production techniques and microwave transmission. On many of these exciting advances in communications, Western's engineers work closely with engineers from our research team-mate, Bell Telephone Laboratories. For Western Electric to maintain the Bell System's ultra-high quality standards, extraordinary manufacturing, process and testing techniques are required. Opportunities for fast-moving careers exist now for electrical, mechanical and industrial engineers, and also for physical science, liberal arts and business majors.

For more detailed information, get your copy of the Western Electric career opportunities booklet from your Placement Officer. Or write College Relations Coordinator, Western Electric Company, Room 6306, 222 Broadway, New York 38, New York. And be sure to arrange for a personal interview when the Bell System recruiting team comes to visit your campus this year — or during your senior year.

Western Electric MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM
An equal opportunity employer

Principal manufacturing locations in 13 cities • Operating centers in many of these same cities plus 36 others throughout the U.S. Engineering Research Center, Princeton, N. J. • Teletype Corp., Skokie, Ill. • Little Rock, Ark. • Gen. Hq., 195 Broadway, N.Y. 7, N.Y.

Meeting Rooms

Available Now

Applications for meeting rooms in the Memorial Student Center during the spring semester will be accepted beginning Friday, Mrs. Ann Keel, social director of the MSC, announced Tuesday.

Applications may be made at the MSC Social and Educational Department.

Top Officials To Give Program For A&M Club

Chancellor M. T. Harrington and President Earl Rudder will lead off the program of the year's first meeting of the Brazos County A&M Club Wednesday at 7 p.m. at the Aggie Clubhouse.

The system head will install new club officers.

Rudder is scheduled to present a "frank analysis of the problems facing A&M in the years ahead," according to program chairman Joe Sorrells.

Outgoing club president U. M. Alexander Jr. has urged all of the 1,200 former students in the Brazos County area to attend this first meeting of the year.

"In addition to the outstanding program, we're planning a big barbecue with all the trimmings," Alexander said.

Livestock, Wool Judging Teams Compete In Denver

Ten members of the Junior Livestock and Wool Judging teams are in Denver, Colo., competing in the National Western Collegiate Livestock and Wool Judging Contests, which end Tuesday.

Livestock team members are Jimmy C. Griffith, Steve Hammack, Joe A. Sagebiel, Jerry J. Simon, Chester A. Smith, Ronald D. Patterson and Robert T. White. Wool team members are Billy H. Reagor, Ronald E. Rugh and Clifford Spaeth.

To Hold Interviews
Coast Guard Commander W. C. Mitchell will be on campus Thursday to interview students interested in applying for the Coast Guard's Officer Candidate School program. Cmdr. Mitchell, who will be accompanied by two other officers, will interview students in the MSC between 10 a. m. and 2:30 p. m.

Youthful Elders Begin Two-Year Missionary Effort

Elder Dean Gillen, 19, has arrived here at the beginning of a two-year missionary program to work with the Bryan Church of Latter Day Saints.

Gillen will assist Elder David Brown, 21, who is serving in his seventh city since entering the missionary program 19 months ago.

Gillen, a native of Murray, Utah, is serving in his first missionary position. He has attended the University of Utah and served six months in the U. S. Army. Brown is a native of Salt Lake City, Utah.

The Bryan church is located at 101 N. Coulter Dr. Services are held at 10 a. m. and 6:30 p. m. on Sundays and at 7:30 p. m. Wednesdays.

NEW COURSES ADDED

Three Departments Broaden Programs

Several new courses will be offered to A&M students for the spring semester and an additional faculty member will join the Institute of Statistics.

Eugene Dayhoff, who holds two degrees from A&M, will be the new staff member and an assistant professor. He has completed course work at Iowa State University for a doctorate in statistics.

Dayhoff received the Bachelor of Science degree from A&M in 1955 and the master's degree in 1956.

Dr. R. J. Freund said Statistics 605, statistical analysis, will be offered for the first time in the spring semester to reduce the course load in the fall semester.

Statistics 406 and 606 will also be offered this spring.

Two elective courses in engineering graphics will be offered this spring to assist students in preparing scientific and engineering reports, according to W. E. Street, head of the Department of Engineering Graphics.

EG 209, nomography, will cover the selection, design and construction of charts and graphs, application of graphical mathematics to scientific and engineering problems and fundamentals of construction of nomographs.

EG 403, graphical computation

devices, will cover theory and methods of graphical devices, including nomographs, useful in the solution of scientific and engineering problems.

"Introduction to Electron Microscopy Practice," a three-hour credit course, will again be offered this spring to graduate and senior students.

Deadline Nears For Civilians

Civilian students have until 5 p. m. Wednesday to reserve the rooms they are currently living in for the spring semester, housing office manager Harry Boyer reminded Monday.

Following the deadline, rooms will be issued on a first-come, first-served basis, Boyer added.
