

# 400 Expected To Graduate Saturday

# The Battalion

Volume 60

COLLEGE STATION, TEXAS THURSDAY, JANUARY 17, 1963

Number 56

## Dr. Goodrich Will Address New Grads

Approximately 400 undergraduate and graduate students are scheduled to receive degrees during commencement exercises Saturday at 10 a. m. in G. Rollie White Coliseum.

Principal speaker at the graduation ceremony will be Dr. Robert E. Goodrich Jr., pastor of the First Methodist Church of Dallas.

THE EXERCISES WILL begin with an invocation by Kirk Blackard, corps chaplain.

Greeting the graduating students, their families and their friends will be Eugene B. Darby, a member of the A&M Board of Directors, followed by Chancellor M. T. Harrington.

President Earl Rudder will then introduce Goodrich as the main speaker.

GOODRICH, A GRADUATE of Birmingham-Southern College at Birmingham, Ala., received his master's degree from the Southern Methodist University School of Theology. He also holds an honorary doctor of divinity degree from Centenary College.

The speaker is well known over the radio and television waves. He has delivered five series of sermons for the Methodist series of the Protestant Hour, a radio program carried by 408 radio stations in North America and by the Armed Forces Overseas Network.

THE MINISTER ENTERED the field of television in 1950, creating the weekly dramatic show, "The Pastor Calls," which ran for nine years on KRLD-TV in Dallas.

Goodrich is currently broadcasting his sermons each Sunday in Dallas. Every fourth Sunday's services are televised by WFAA.

He has been pastor of the Dallas First Methodist Church since 1946 and was a Wilson lecturer at Centenary College in 1960 and Finch lecturer at Thomasville, N. C., in 1959.

FOLLOWING THE speech by the Dallas minister, Rudder will begin the conferring of degrees. He will be assisted by Deans Wayne C. Hall, Frank W. R. Hubert, Fred J. Benson and Director G. M. Watkins, who will present the graduates.

Concluding the ceremony will be the singing of "The Spirit of Argyleland." Robert L. Boone, A&M music director, will lead the singing.

The Benediction will be given by Donald Neumann, civilian chaplain.

DR. R. E. GOODRICH

MAJ. GEN. J. H. FOSTER

## 62 Graduates Will Receive Bars Saturday

Sixty-two senior cadets who will graduate Saturday morning are also slated to receive the gold bars of a second lieutenant and a commission in one of the armed forces.

The commissioning exercise is scheduled at 1:30 p. m. Saturday in G. Rollie White Coliseum with Air Force Maj. Gen. John F. Foster as the main speaker.

ELEVEN CADETS are slated to receive commissions in the Air Force while 50 senior ROTC cadets have applied for commissions in the Army. One student will also be commissioned in the regular Marine Corps.

Gen. Foster, president of the Reserve Officer's Association of the United States, began his service career in 1931 when he completed flight training and was commis-

sioned a second lieutenant in the Army Air Corps Reserve.

He saw service during World War II with the Second Air Force and later in the combat operations section of the Mediterranean Allied Air Force.

RETURNING TO San Antonio after the war, Gen. Foster remained active in the Air Reserve program. He organized and commanded for ten years the 433rd Troop Carrier Wing and earned the rank of brigadier general in 1954.

His present assignment is aide to the commander of the Twelfth Air Force in Waco. Gen. Foster, who was promoted to the rank of major general in 1961, is a member of the Reserve Forces Policy Board of the Department of Defense.

### Smiles Under Sabers

White-Clad Ross Volunteers provide a saber arch for a smiling Gov. and Mrs. John Connally just prior to the inaugural ceremonies in Austin Tuesday. As the governor's of-

ficial honor guard the Ross Volunteers took part in the traditional and colorful festivities, including the inaugural parade. The A&M Band also marched in the parade.

## Large Crowd Due To Hear Paul Harvey

Early ticket sales indicate a large area representation at the annual Bryan - College Station Chamber of Commerce membership banquet Jan. 28, Gene Sutphen, chamber president, said Wednesday.

"The response has been unusual since special invitations went out to Brazos Valley residents to join us," he continued.

Paul Harvey, prize-winning radio newscaster, will speak at the banquet in Sbis Hall. More than 1,500 persons are expected.

### FOR LAW, PURYEAR

## Student Janitor Jobs To Increase In Spring

An expanded program of making dormitory janitorial jobs available to students was outlined Wednesday.

The success of the program hinges upon the cooperation of students residing in dormitories, Dean of Students James P. Hannigan and Walter H. Parsons Jr., head of the Department of Buildings and Utilities, said.

PARSONS ALSO emphasized that the use of students will not affect the number of full-time janitors. The new Plant Sciences and Architecture buildings shortly will create the need for additional janitorial service.

Law and Puryear Halls will be served by student janitors starting early in the spring semester.

"Later, I hope Walton and Hart Halls can be added," Parsons said, that the location of showers in these halls creates a problem."

TWO STUDENTS worked during the fall semester as janitors for three floors of Dormitory 13, each student working 18 hours

weekly. The experiment proved satisfactory, as student residents cooperated, Parsons said.

The Student Senate last year suggested the possible use of students as janitors, Hannigan said. Students long have served as dining hall waiters.

The dean of students residing in dorms where student janitors work need to be especially careful to avoid sweeping dirt and trash into the halls and to refrain from destructive pranks.

HANNIGAN NOTED recent reports from at least one dormitory of "excessive water damage." He also said some students burn trash in a wastebasket, on the "highly dangerous assumption" that a masonry building is fireproof.

The possibility that savings resulting from the use of student janitors can be used to provide more things such as bulletin boards in individual rooms and door closers on the ramps was cited by the dean.

PARSONS SAID students residing in the vicinity of Puryear and Law Halls and interested in the possibility of working as janitors should contact the Placement Office immediately. More applicants are needed than immediate openings because of possible turnover and other reasons, he said.

Increments of work in Law and Puryear Halls readily lend themselves to the use of varying numbers of student janitors, Parsons said. Work assignments easily divided to be acceptable to a varying number of young men is a key to a successful student labor program. The dormitories with long hallways do not easily lend themselves to student labor, he explained.

The two full-time janitors in Law and Puryear Halls could be replaced by as many as 10 students, part-time janitors, Parsons pointed out. The number of daily hours a student janitor works will vary depending upon the amount of free time each student has for this purpose.

## No ROTC Changes Due In Next Year

No change is being contemplated in college and university ROTC programs during the next fiscal year, a Pentagon official told the Associated Press Wednesday.

The official added, however, that elimination of all ROTC units

from high schools is contemplated in the budget recommendations President Kennedy submitted to Congress today.

Even though no college changes are planned during the next year, the Pentagon spokesman added that the Defense Department is contemplating a cutback in the senior ROTC program sometime in the future so that such training would be available only to college juniors and seniors.

There is no request for money to maintain the ROTC program in high schools during the fiscal year starting next July 1, the official added, whereas during the current year \$5 million was appropriated. Some 60,000 youths are enrolled now in such courses.

The Budget Bureau is requesting approximately the same amount as last year for maintaining the Reserve Officer Training Corps in colleges and universities, so that at least during the new fiscal year no change is contemplated in the senior ROTC program.

## A&M Researcher Dies In Florida Of Asphyxiation

The body of a researcher with the Department of Oceanography and Meteorology was found Tuesday in his Panama City, Fla. home.

Investigators said John Allison Lyons Jr., 48, died of accidental asphyxiation. No inquest was planned.

Dr. Dale Leipper, head of the Department of Oceanography and Meteorology, said last night that Lyons had only been in Florida about a month at the time of his death.

Leipper said that the dead man had been hired in California and sent directly to Florida, where he worked under a contract with the Navy. Leipper said Lyons had only been on the A&M campus for brief periods.

An Associated Press report said: Lyons was working under contract with the Navy Mines Defense Laboratory at Panama City.

Officers said fellow employees requested a check after Lyons failed to report for work Monday or Tuesday. The body was found on a couch in the living room with a gas heater burning nearby.

Police said he apparently had been dead since late Saturday night.

## Here Is Your Final Exam Schedule

Here is the official schedule of final examinations for the fall semester:

Date	Time	Class
Jan. 19	1-4 p. m.	TWF3, TThF3, TF3
Jan. 21	8-11 a. m.	MWF8
Jan. 21	1-4 p. m.	TTh8F1
Jan. 22	8-11 a. m.	MWF9
Jan. 22	1-4 p. m.	MWTh1
Jan. 23	8-11 a. m.	MWF10
Jan. 23	1-4 p. m.	TF1
Jan. 24	8-11 a. m.	M3Th10
Jan. 24	1-4 p. m.	MWTh2
Jan. 25	8-11 a. m.	MWF11
Jan. 25	1-4 p. m.	M4Th11
Jan. 26	8-11 a. m.	TTh9F2
Jan. 26	1-4 p. m.	TF2

## Brubeck To Visit

The world famous Dave Brubeck Quartet will present a two-hour program of the Brubeck flavor of modern jazz on campus Feb. 4, the first day of classes of the spring semester.

The program, featuring Brubeck at the piano, is sponsored by Town Hall and will be given in G. Rollie White Coliseum.

## Wire Review

By The Associated Press WORLD NEWS

BERLIN—Soviet Premier Khrushchev warned the balky Communist Chinese to get into line with the rest of the Red world and accept Moscow's blueprint for expansion if they want to remain in the Soviet camp.

In a highly emotional speech Wednesday before a gathering of Communist leaders from 70 countries, the Soviet leader delivered a sizzling rebuttal of Peking charges that he knuckled under in fear of the nuclear might of the United States.

Declaring that his policies averted war and saved communism in Cuba, Khrushchev outlined the horrors of a nuclear conflict between the United States and the Soviet Union. He declared that the United States could loose a storm of 40,000 atomic and nuclear warheads capable of obliterating whole nations.

U.S. NEWS

WASHINGTON—Sen. John L. McClellan, D-Ark., introduced bills Wednesday to outlaw strikes against defense facilities and to give the government a new weapon to deal with transport strikes such as the current East Coast-Gulf Coast dock workers' strike.

The defense facilities measure, McClellan told the Senate in a

speech, would prohibit strikes or other work stoppages at missile sites and other defense facilities.

★ ★ ★

NEW YORK—In a rare test, a court ruled Wednesday that occupying a seat in a U.N. delegation does not in itself entitle a person to diplomatic immunity under U.S. law.

The decision came in the case of a member of the Cuban U.N. mission, Robert Santiesteban Casanova, 28, charged with conspiracy to commit espionage.

TEXAS NEWS

AUSTIN—Texas lawmakers cheered and applauded Wednesday as Gov. John Connally told them what laws he wants passed for the next two years.

Immediately after his speech, key senators and representatives indicated they strongly favored much of the vast legislative program outlined by Connally.

The new governor threw his weight behind several of what will be the most controversial bills of the session—controlling loan sharks, election law reform, eliminating inequities in the sales tax.

He also told the lawmakers it is urgent that they give him \$50,000 as an emergency appropriation to begin a committee study aimed at improving the field of higher education in Texas.

## Dr. F. R. Duke To Hold Welch Chemistry Chair

DR. F. R. DUKE

Dr. Frederick R. Duke, one of the world's foremost authorities on oxidation and fused salt technology, has been named to fill the Robert A. Welch Foundation chair of chemistry here.

Duke, author of more than 100 scholarly papers on analytical and physical chemistry, is scheduled to come to the college in September from Iowa State University.

THE WELCH RESEARCH chair was endowed through a \$650,000 grant from the estate of Robert Alonzo Welch, Houston philanthropist, who sponsored more than \$8.6 million of fundamental chemical research in Texas.

The chemist was born Mar. 17, 1917, in Unityville, S. Dak., and attended Dakota Wesleyan University. He received a B.A. degree from the University of South Dakota in 1937 and a Ph.D. from

the University of Illinois in 1940.

After one year of postdoctorate study at the University of Illinois, he became a research chemist for DuPont Chemical Co. In 1942 he joined the faculty of Princeton University and in 1945 was named an assistant professor of chemistry at Michigan State University.

DUKE MOVED to Iowa State University in 1948 and was named a professor there in 1954.

He has served as consultant to many firms including the Manhattan District on uranium analysis in 1942-45.

The new Welch professor is a member of many learned societies, including the American Chemical Society, the American Electrochemical Society, Sigma Xi, Alpha Chi Sigma, Phi Lambda Upsilon and the Iowa Academy of Science.
