

**Baby, It's Cold Outside**

Pretty Patsy Williams painfully poses by the fountain in front of Sbis Hall, braving low temperatures and high winds to provide a warm contrast for foot-long icicles hanging from the fountain. Patsy is a secretary in the College Information office.

**PRIOR TO BANQUET S PEECH**

**Reception To Honor Harvey**

Paul Harvey, noted news commentator, will be honored at a reception Monday afternoon at the Triangle Restaurant prior to his speech at the annual Bryan-College Station Chamber of Commerce banquet that night.

Harvey, who is due to arrive just before the 1:30 p.m. reception, is also to make a tour of the twin communities and the A&M campus that afternoon. Gene Sutphen, president of the Chamber of Commerce, said Wednesday that almost 1,200

tickets had been sold for the event. Tickets will be on sale at the main desk of the Memorial Student Center until 5 p.m. today.

Sutphen said a capacity crowd of 1,600 is expected for the banquet, to be held in Sbis Hall at 7:30 p.m. Joe Vincent, past director of the C. of C., will be master of ceremonies.

At the meeting, Ford D. Albritton Jr., president of Albritton Engineering Corp., will be installed as chamber president.

Other new officers to be installed include Freddie Wolters, superintendent of the college farms, as agricultural vice president.

Three of the new chamber directors are from A&M. They include Dorsey E. McCrory, assistant to the president; James P. Hannigan, dean of students, and Jim Lindsey, director of information and publications.

Harvey was voted top commentator of the year in a poll of 600 critics across the nation in 1962. He has been awarded six

honorary degrees and holds four gold medals from Valley Forge's Freedoms Foundation.

Twenty-nine of his broadcasts have been entered in the Congressional record—an all-time high. He has authored three books in addition to writing a three-times-a-week newspaper column.

While in the Brazos Valley area, Harvey will make his daily newscast for the American Broadcasting Co. from radio station KORA in Bryan.

**State Shivers As Cold Wave Still Lingers**

By The Associated Press  
Texas' cold wave crashed through the zero mark Wednesday and Thursday, bringing temperatures as low as 10 below in far Northwest Texas.

A hard freeze was felt everywhere in the state Thursday morning, with conditions particularly bad in the Lower Rio Grande Valley where crop damage was expected to be especially heavy.

THE DRY norther turned killer when it took the life of John Dillon, 65, of Pike, near Dallas, from exposure.

The norther stormed into the Panhandle Tuesday and by dawn Wednesday reached the Gulf of

Mexico coast in Southeast Texas. The Weather Bureau said the powerful winds, which made outdoor travel or work extremely uncomfortable, would slacken during the day Thursday.

Dillon's death came apparently after his car ran into a ditch and he tried to walk home or to shelter about the time the norther hit. He started his journey during Tuesday's mild temperatures and was lightly clad.

THE WEATHER Bureau said a general, slow warmup could be expected toward the end of the week. This will be only a breather, however, for more frigid air is expected at the beginning of next week.

Severe as was Texas' cold, the Midwest and South were in worse shape.

A combination of Arctic cold and impassable roads forced the closing of thousands of schools throughout the Midwest, while heavy snow fell in Ohio and Western Pennsylvania.

The South was expected to undergo the cold wave, with considerable snow, freezing rain and sleet.

**Here's Spring Semester Registration Schedule**

Cards for spring semester registration will be issued to returning students at the News Stand in front of Sbis Dining Hall according to the following schedule:

- Friday, Feb. 1
- 1-3 p. m.—All whose surnames begin with P, Q, R and S.
- 3-4:30 p. m.—All whose surnames begin with C, D, E and F.
- Saturday, Feb. 2
- 8-10 a. m.—All whose surnames begin with G, H, I, J and K.
- 10-11:30 a. m.—All whose surnames begin with A and B.
- 1-3 p. m.—All whose surnames begin with T, U, V, W, X, Y and Z.
- 3-4 p. m.—All whose surnames begin with L, M, N and O.

**Speeches, Exhibits On Agenda**

A review of America's space achievements and future projects will be given by three prominent speakers during the Great Issues Committee's Space Fiesta here Feb. 6-8. The event is designed to show the public the importance of space explorations, according to Bob Wimbish, chairman of the student committee.

In addition to the speakers, a dozen firms will send technical exhibits and representatives to explain their workings. The displays will remain in the Memorial Student Center Feb. 4-22.

FEATURED IN THE exhibits will be a wide assortment of space activities, ranging from a pressurized space suit and a space communications center to the Manned Spacecraft Center to the 990 Astrojet airliner.

The speakers will be: Dr. Robert R. Gilruth, director of the National Aeronautics and Space Administration's Manned Spacecraft Center in Houston.

Dr. Herbert Trotter Jr., chairman of the Board of General Telephone and Electronics Laboratories Inc., New York, N. Y.

Gifford K. Johnson, president of Ling-Temco-Vought, Inc., Dallas. Lt. Col. Paul L. Maret, a charter member of the U. S. Air Force Ballistic Missile Division, will begin the three-day program.

He will narrate two films dealing with the Air Force's role in the aerospace program. The films will be shown twice daily Feb. 4-8.

TROTTER, A MEMBER of numerous advisory groups for the Defense Department and industrial firms in addition to his position with the General Telephone and Electronics, will speak at 8 p.m. Feb. 6 in the MSC Ballroom.

Johnson, who became president of Ling-Temco-Vought in 1961, will discuss "Space: Greatest Adventure—Severest Challenge" at 8 p.m. Feb. 7. He previously was president of Chance Vought.

Gilruth, head of the nation's space center presently engaged in conducting Projects Mercury, Gemini and Apollo, will present a "Progress Report on Our Manned Spacecraft Center."

**Former Students Cut Loan Days**

Student loans from the Association of Former Students may be arranged only on Mondays and Thursdays next semester, according to AFS executive secretary J. B. (Dick) Hervey.

Hervey said that in the past, three days a week had been set aside for loans.

Payments on outstanding loans may be made at any time, however, Hervey added.

NEW GOLD BARS ... at Saturday afternoon ceremonies

**364 Receive Sheepskins In Saturday Graduation Rites**

Three hundred sixty-four students received degrees on one of three levels at January commencement exercises Saturday in G. Rolie White Coliseum.

Lately Brubeck has recorded "The Real Ambassadors," in which he works with Louis Armstrong, Carmen McRae and Lambert, Hendricks and Ross.

Altogether Brubeck has published 21 record albums, and a large number of pop singles.

**New Buildup In Red Cuba Stirs Solons**

WASHINGTON (AP)—The Cuban issue erupted with renewed force in the Senate Wednesday over reports of a new around-the-clock Soviet military buildup on Prime Minister Fidel Castro's island. Sen. Wayne Morse, D-Ore., ordered an immediate investigation.

Morse said he has asked the State Department for a quick briefing for his Senate Latin American Affairs subcommittee. His staff said it has been tentatively set for 10 a.m. Friday. Witnesses were to be announced Thursday.

Sen. Kenneth B. Keating, R-N.Y., who was one of the first to sound the alarm last year over reports of Soviet offensive missiles in Cuba, also told a reporter he has "confirmed by official government sources" that a new intensive buildup is under way.

He said it involves tanks, guns, amphibious vehicles, large amounts of ammunition, planes, torpedo boats and other Soviet weapons pouring into the island.

A flurry was touched off by a New York Times News Service report that the Soviet Union is building and improving "highly sophisticated ground and air defenses."

**Brubeck To Bring His Jazz Quartet To Campus Feb. 4**

The Dave Brubeck Quartet will present a two-hour program of modern jazz, Brubeck style, on Feb. 4, the first day of classes in the spring semester.

Sponsored by Town Hall, the program will be given in G. Rolie White Coliseum. Tickets will sell for \$2.50, with no seats being reserved. Students will be admitted with student activity cards.

Featured in the group is Brubeck at the piano; however, each member of the quartet has also won recognition. Appearing with Brubeck will be Paul Desmond, the foursome's alto saxophone player, who was recently selected by readers of Down Beat magazine as tops in his field.

Also honored by Down Beat was the group's drummer, Joe Morello, a winner of many honors in his field. The fourth, and newest, member of the group is bass player Gene Wright. Even before he joined the Brubeck Quartet in 1958, Wright had gained recognition as an accomplished bass player.

In 1951 San Francisco's jazz impresario Jimmy Lyons introduced an unknown trio to audiences at the city's jazz mecca, the Blackhawk Club.

Two years later, this Brubeck group had expanded into a quartet and had begun to win popularity

**Wire Review**

By The Associated Press  
WORLD NEWS

PARIS—France and West Germany agreed Wednesday to patch temporarily their split on British membership in the European Economic Community by submitting the issue to the Common Market Commission in Brussels for study. This is the gist of a procedural record reached by President Charles de Gaulle and Chancellor Konrad Adenauer in talks which led to their signing Tuesday of a treaty for diplomatic, defense and cultural cooperation between their two nations.

U.S. NEWS  
NEW YORK—White House press secretary Pierre Salinger arrived quietly in New York Wednesday to see if he could do anything about the city's 47-day newspaper blackout.

Salinger's arrival coincided with the renewal for the first time in a week of joint negotiations in the dispute. He took no direct part in them.

WASHINGTON—U.S. authorities pacted the new Franch-German pact Wednesday with some apprehension it might further split Western ranks.

President Kennedy was expected to give at his news conference Thursday the first major U.S. reaction to the historic accord concluded by France's President Charles de Gaulle and West Germany's Chancellor Konrad Adenauer.

NEW YORK—A record 32-day dock strike of East and Gulf Coast ports neared an end Wednesday, with the first of 610 idle ships expected to begin moving within 48 hours.

Waterfront peace moved a big step nearer during the day as New Orleans shipowners fell in line with the government-outlined 37-cent-an-hour contract pattern.

TEXAS NEWS  
SAN ANTONIO—Air Force doctors think they may have solved one of the problems of space flight with a simple bit of advice: exercise. But exercise the right way. Long space flights might make an astronaut's muscles go soft because, in weightlessness, it doesn't take any effort to move. But isometric exercises can keep the muscles firm, Col. Earl W. Brannon said Wednesday. Brannon is chairman of the Department of Orthopedic Surgery at the Lackland Air Force Base Hospital.

AUSTIN—Gov. John Connally's top priority money need waited Wednesday while legislators took a closer look at his "new look" staff reorganization plans.

However, Thursday's prospects for the \$197,000 emergency appropriation package brightened during the afternoon.

The Senate finance committee recommended approval of the House-passed bill, thus clearing the way for floor debate Thursday if most of the senators agree:
