

Engineering Mechanics School Scheduled Here This Summer

A summer institute in engineering mechanics will be held here June 3-Aug. 2.

J. H. Cadess, professor of mechanical engineering and institute director, said the nine-week session objective is to help teachers of engineering mechanics improve their instruction in the subject.

The institute is sponsored by the National Science Foundation.

Cadess said three specific courses will cover statics, dynamics and associated mathematics. Instruction will include both the conventional media and the medium of vector analysis for solution of problems.

Features of the institute will include seminar programs designed to give participants information about important engineering and research work. Lectures, tours and conferences are to be included," he said.

William B. Stiles, co-author of the Higdon and Stiles text, "Engineering Mechanics," will be guest lecturer for two weeks of the institute.

More detailed information on the session can be obtained by writing to Cadess.

AGGIELAND PORTRAIT SCHEDULE

Corps Juniors and Sophomores

All juniors and sophomores in the corps will have their portraits made for the AGGIELAND '63 according to the following schedule. Portraits will be made in Class A winter uniforms.

Portraits will be made at the Aggieldand Studio between the hours of 8 a. m. and 5 p. m. on the days scheduled.

Feb. 18-19 A, B, C, D-1
Feb. 19-20 E, F, G-1
Feb. 20-21 A, B, C, D-2
Feb. 21-22 E, F, G-2
Feb. 25-26 A, B, C, D-3
Feb. 26-27 E, F, G, H, I-3
Feb. 27-28 Maroon-White Band

Feb. 28-March 1 Sqdns. 1-4
March 4-5 Sqdns. 5-8
March 5-6 Sqdns. 9-12
March 6-7 Sqdns. 13-16

ATTENTION CORP SENIORS After Friday Feb. 22 absolutely no Aggieldand pictures will be made. If your picture is not made by then it will not appear in the Aggieldand.

OFFICIAL NOTICES
Official notices must be brought, mailed or telephoned so as to arrive in the Office of Student Publications (Ground Floor YMCA, VI 6-6415, hours 8-12, 1-5, daily Monday through Friday) at or before the deadline of 1 p. m. of the day preceding publication — Director of Student Publications.

DEGREE FILING DEADLINE SET FOR FEBRUARY 28, 1963
Applications for degree (baccalaureate and advanced) are now being accepted in the Registrar's Office from all students who will complete their requirements for graduation by May 25, 1963. Advanced degree candidates must file application with both the Registrar's and the Graduate Dean's Office.

H. L. Heaton
Director of Admissions and Registrar 6519

NOTICE—PRE-VETERINARY MEDICINE STUDENTS
Pre-veterinary medicine students who expect to qualify as applicants for admission to the professional curriculum of the School of Veterinary Medicine in September 1963 may secure application forms in the Registrar's Office beginning Monday, February 25, 1963. May 1, 1963 is the deadline for filing applications and transcripts with the Registrar.
H. L. Heaton, Director of Admissions and Registrar 6318

May graduates may begin ordering their graduation invitations starting February 1st thru February 28th, from 9-4, Monday-Friday, at the Cashier's Window, Memorial Student Center. 56117

'Quality Quest' Theme Of NSA Annual Meet

"Quest for Quality" will be the theme of the fifth annual seminar of the Bryan-College Station chapter of the National Secretaries Association to begin Saturday in the Memorial Student Center.

Speakers from A&M and other schools will be present and programs on new business equipment will be given between the speeches.

The first address, "Communication—The Indispensable Element," will be given by Dr. John Abbot, professor of English, at 9:30 a.m. Frank M. Busch, professor of business administration at Sam Houston State Teachers College, speaker on "Quality Control and the Secretary," will follow at 10:45.

Two addresses will be given in the afternoon.

James R. Genrty, left, in traction at Baylor University Medical Center in Dallas, made a long range cigarette holder from a coathanger and a wooden spoon for a fellow patient, Merle T. Becker, whose hands are paralyzed. (AP Wirephoto)

High Wind Conditions Delay Flight of Research Balloon

Postponement of an 80,000-foot balloon flight to study Mars disappointed observers, including A&M staff members, Thursday as bad wind conditions again forced cancellation of the flight.

Surface winds rose to 20 miles an hour and were growing stronger at the launching site near Palestine when the flight was reset for Friday.

SCIENTISTS with the Stratoscope II, a 600-foot balloon as large as a skyscraper, will be trying to determine if life exists on the red planet. They will be looking for traces of water vapor or carbon dioxide which would give some indication of plant life.

The balloon will be inflated with helium and will carry a three-ton load, including a 36-inch telescope.

625 Papers Get Invites To Conference

New procedures in printing and photography will be emphasized at the 14th annual Newspaper Mechanical Conference to be held here March 1-2.

Representatives from weekly and daily newspapers over Texas will attend the conference sponsored by the Texas Press Association and the Department of Journalism.

Harry Ritter, conference director and journalism instructor, said invitations had been sent to 625 Texas newspapers.

AMONG THE speakers will be Art Uhlmann, Houston Chronicle chief photographer; John Hoffman of New York City, director of Research Institute of the American Newspaper Publishers Association; Phil McMullan, Garland News publisher, and Willard Barr, operator of a job printing firm in Fort Worth.

The conference will start with a "photo shooting session," followed with a two-hour panel on better newspaper photography. Uhlmann, a prize-winning photographer, and representatives from photo equipment and supply firms will head the panel.

The photo part of the conference will continue with a printing session, Ritter said.

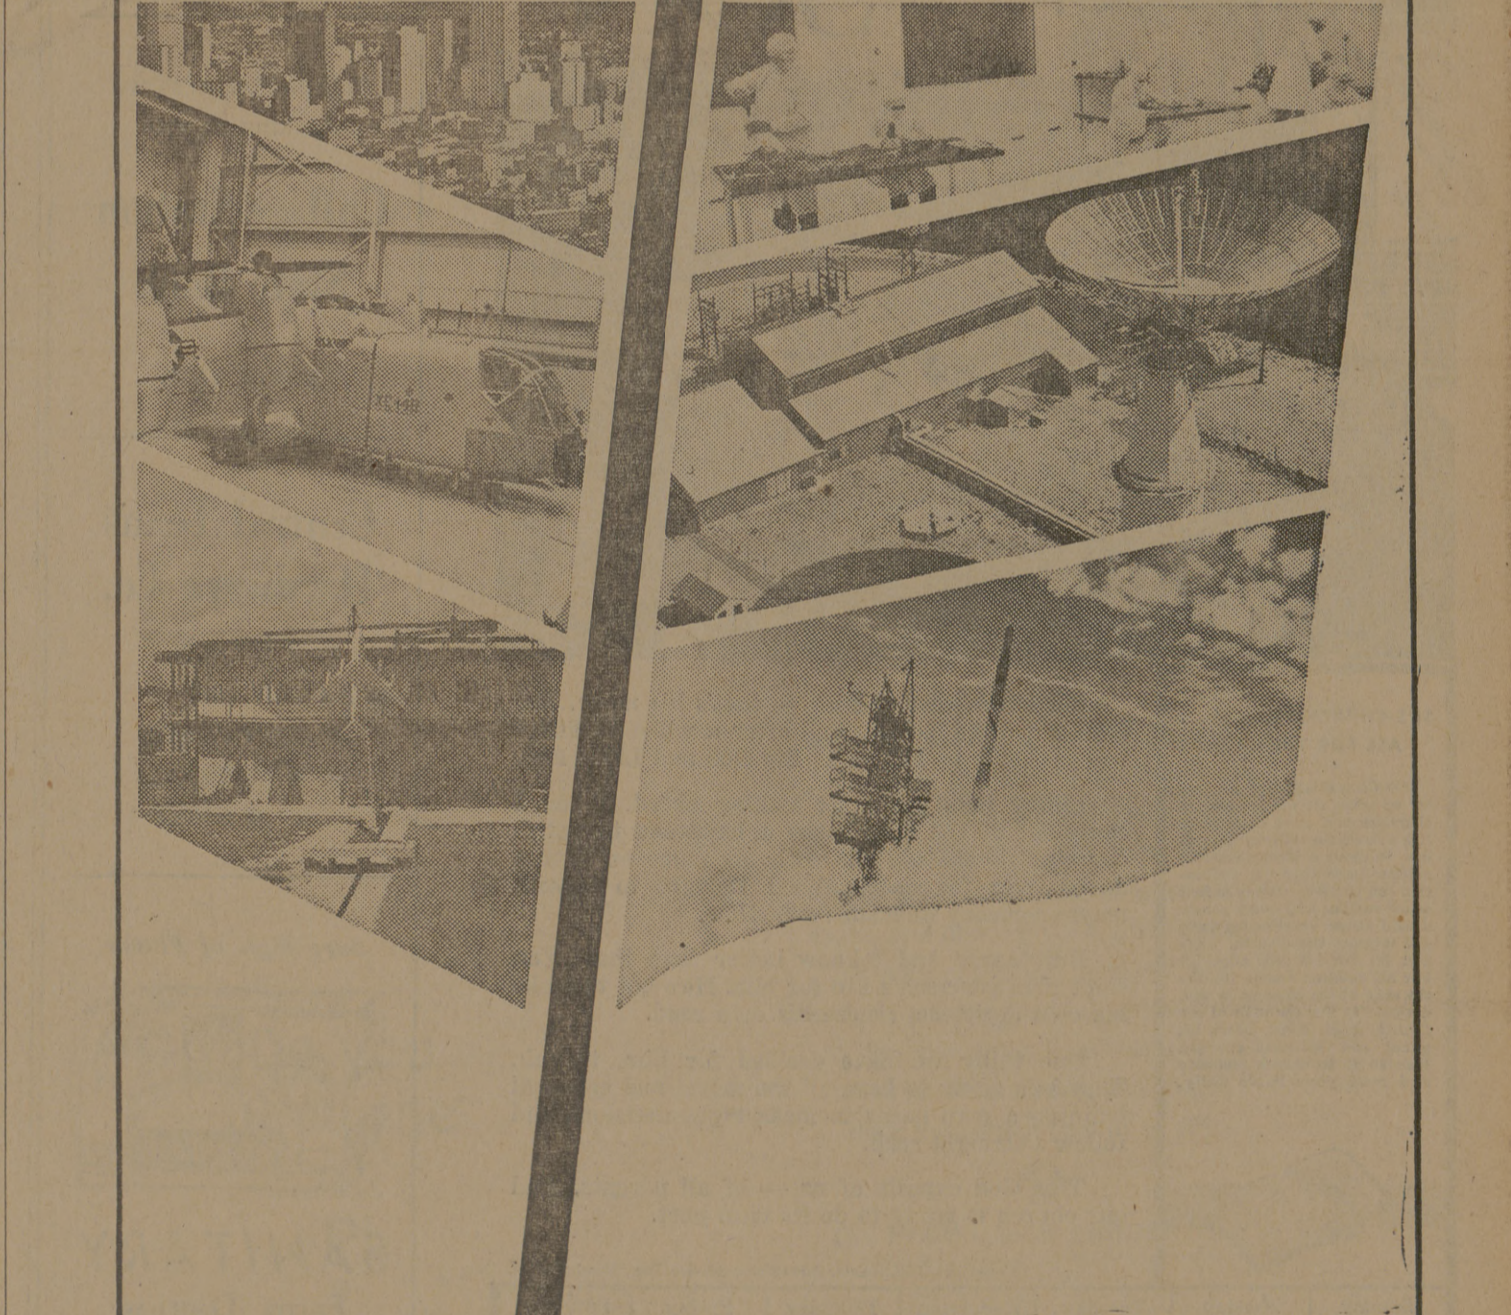

MECHANICAL PHASE of the conference will begin with a dinner in the Memorial Student Center. Frank Tucker, head of the A&M Press, will moderate a panel entitled "What's New?"

Participating in the discussion will be 20 manufacturers and suppliers, Ritter commented.

Hoffman will be among the Saturday speakers. He will discuss results of a recent study on competitive costs of offset and letter-research institute's techniques for improving newspaper methods.

Editor McMullan will discuss his Garland paper's change to offset production. McMullan's facilities have been a model for newspapers changing to offset printing.

Several manufacturers and suppliers will have displays of latest equipment and supplies.

TARGET OF OPPORTUNITIES | LING TEMCO VOUGHT
Opportunity for professional advancement, on-the-job orientation and engineering challenge... you'll find this and more with Ling-Temco-Vought. From the first you'll work with experienced technical personnel in an engineering climate that encourages imagination and spontaneity. And because LTV is one of the nation's most active participants in almost every phase of the challenging aerospace, communications and military electronics fields, you can determine the type of promising position which will contribute most to your professional growth. ■ Get first-hand information on LTV's projects and products by picking up our brochure at your Placement Office. Then talk to our representative. Ask him about the company's extensive resources, education assistance and liberal company benefits. Ask too, about Dallas—a modern city noted for its warm, sunny climate. Then review LTV's ground-floor growth opportunities for graduates holding degrees in Aeronautical, Mechanical, Industrial, Electrical and Civil Engineering or Math, Physics and Metallurgy. ■ Schedule an appointment with our representative or write: College Relations Office, Ling-Temco-Vought, Inc., P. O. Box 5907, Dallas 22, Texas. An equal opportunity employer.
