

Students Prepare For Model U.N.

The United Nations Club will have five students discuss the merits of Nationalist China in a new of the international scene Friday night at 7:30 in the YMCA building.

The group is preparing to represent the Republic of China at the Model U.N., which will assemble at the University of Texas on March 28-30. Purpose of the Model U.N. is to deepen understanding of the purposes and policies of the United Nations through intensive study and discussion of specific international problems which concern the world community, according to Dr. Martin Kyre, who coaches the group.

The delegation from A&M consists of Dan Davis, College Station; William C. Kerley, Dallas; Timothy J. Mosman, Muenster; Alvin C. Simper, Shiner; and John E. Lamb, Caldwell, Idaho.

Kyre and Dr. Ramon Arango, both of the Department of History and Government, are advisors to the group.

Weiliang Yin, Consul General of the Republic of China, has expressed interest in visiting the campus in mid-March to hear the presentation by the delegation and help in any way to further the effectiveness of the group.

The delegation is slated to make at least two public appearances other than the one before the U.N. Club. They are on March 7 before the American Association of University Women and on March 13 on "Town Talk" of KBTX-TV of Bryan.

The five students will be among students from colleges and universities in several states acting as delegates to the model General Assembly session. Attendance at the meeting a year ago totaled 350.

Secretary Goes To Assist Syrian College Project

Mrs. Anna B. Beaty, secretary to the director of the Texas Agricultural Experiment Station since 1952, is resigning effective today. She is going to Syria to become a member of the project which is developing a land-grant type program at the University of Aleppo. She will be an employee of the Ford Foundation, sponsor of the project.

Mrs. Beaty will serve as a program specialist and as secretary to Dr. R. D. Lewis, recently retired experiment station director and leader of the Syrian project. Dr. B. H. Nelson and W. M. Oliver, both from A&M, are among the specialists working on the project. Mrs. Beaty plans to be in Syria for approximately two years.

Prior to her assignment with the experiment station, Mrs. Beaty served as a secretary in the Texas Agricultural Extension Service.

Physicist Talks in Graduate Lecture Series

"Physics Progress during the Past Decade" will be reviewed Tuesday by Dr. Henry S. Valk in the Graduate Lecture Series. The University of Nebraska faculty member is scheduled to speak at 4:10 p.m. Tuesday in the Physics Building, Room 46.

Interested persons have been invited to attend, Dean Wayne C. Hall of the graduate school said in making the announcement.

Valk is in the Brace laboratory of physics at the University of Nebraska. A native of Washington, D. C., he received both his B.S. and M.S. degrees from George Washington University and in 1957 took a Ph.D. in physics at Washington University in St. Louis.

Petroleum Field Assists Students

Twenty students have received fellowship and scholarship grants for the spring semester in the Department of Petroleum Engineering.

Robert L. Whiting, department head, said the grants are in addition to 18 others announced last fall.

RECIPIENTS OF the grants were:

W. D. Von Gonten of Corsicana received the Marathon Oil Co. Fellowship of \$1,500 for six months.

S. M. Hasan of Pakistan, Ramon Ruyero of Bolivia, Stephen G. Scott of Colorado City and Richard W. Snyder of Glassport, Penn., won research assistantships of \$2,400 for 12 months.

Walter W. Whatley of McAllen, senior student, took the R. C. Baker Foundation Scholarship of \$750.

William D. Edman of Houston;

Henry M. Hoff Jr., College Station; John F. Imle Jr., San Antonio; and Cordell F. Wiespape of Brenham, senior students, received \$100 scholarships each.

ERNEST MONTGOMERY III of Marshall won the Texaco Scholarship of \$200.

Frederick P. Dwight, El Paso; Shehraiir Javaherian, Iran; James H. Lyon, Oklahoma City, Okla.; and Adam Praismar Jr., Realitos, Junior students, took \$100 scholarships each.

Curtis Paul Cook, Floresville, sophomore student, won a \$100 scholarship.

And Henry T. Arrington, Shreveport, La.; Robert D. Baker, El Paso; Rodney D. Erskine, Groesbeck; and Frederick G. Wedell, Birmingham, Ala., freshman students, received \$100 scholarships each.

Do you need me at JPL ?

If you have an advanced degree, let's talk some more.

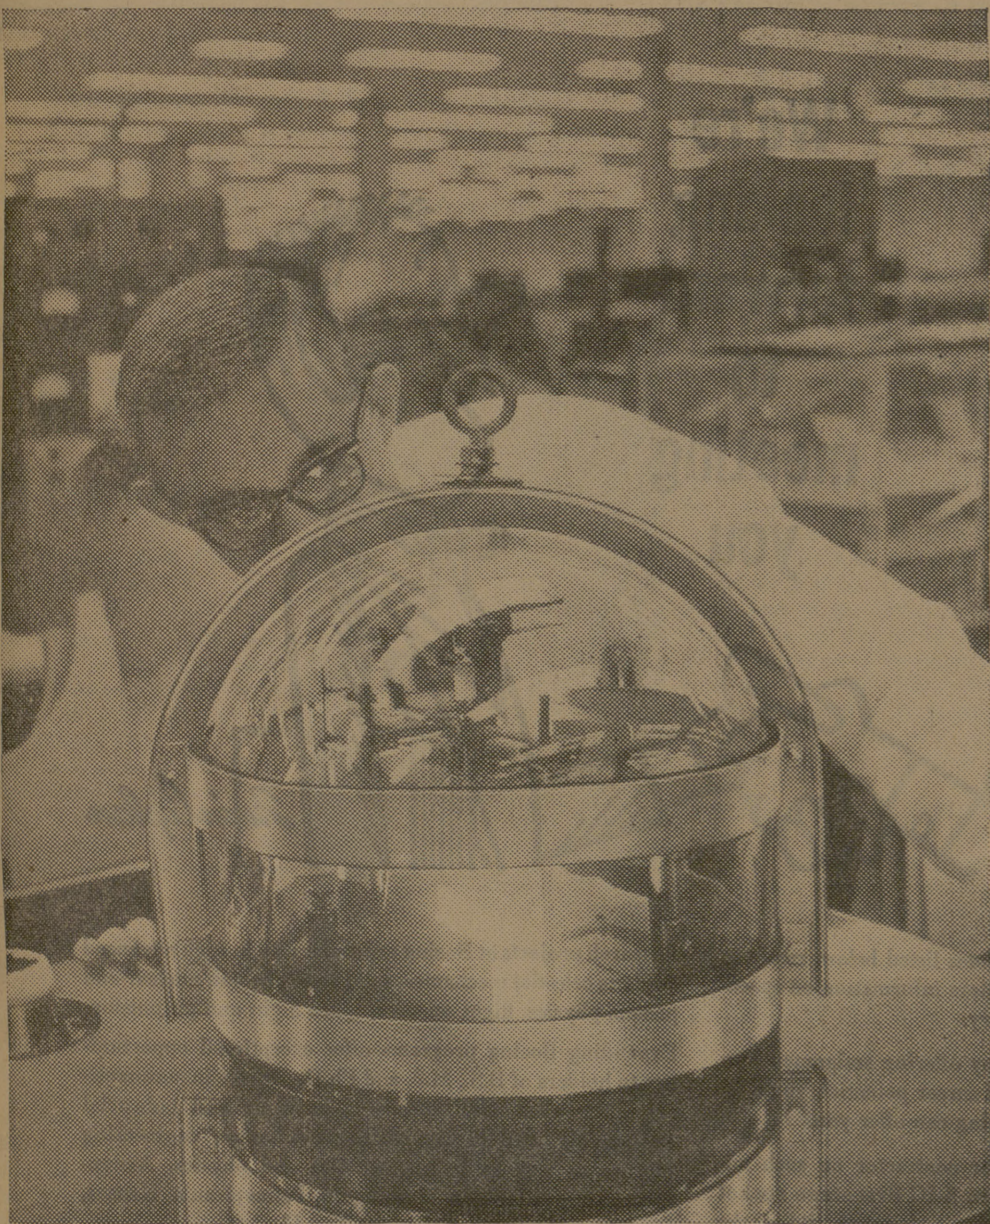

You'll be part of a 3500-person facility responsible for R&D on America's lunar, planetary, and interplanetary explorations. If you come to Caltech's Jet Propulsion Laboratory in Pasadena, California, you'll find the finest technical facilities in the world—like the library with 125,000 technical documents, the most sophisticated computers, space simulators, acres of laboratory space, and about three support people for every one of you. And you'll be working with the finest scientific minds in the country. If you want to think hard for a living, you should think hard about coming to JPL.

"Will I find exciting, rewarding challenges at W. E.?"

They happen to be our specialty. Consider just a few of our project areas in Western Electric's role of developing manufacturing techniques for Bell System communications: miniaturization, electronic switching, computer-programmed production lines, microwave radio relay, television telephones, optical masers, data transmission. Working closely with our research team-mate, Bell Laboratories, W. E. engineers are even now creating and implementing communications progress planned for the 1970's—and beyond. You will start participating right away in unique, creative challenges. Oppor-

tunities for rewarding careers are open now for electrical, mechanical, industrial and chemical engineers, and also for physical science, liberal arts and business majors. For detailed information, get your copy of the Western Electric career opportunities booklet from your Placement Officer. Or write College Relations Coordinator, Western Electric Company, Room 6306, 222 Broadway, N.Y. 38, N.Y. And be sure to arrange for a personal interview when the Bell System recruiting team comes to visit your campus this year—or during your senior year.
