Name-Change Bill Presented To House

The much-discussed bill to change A&M's name to Texas A&M University was formally presented to the House Wednesday by local representative David Haines, '51.

First stop for the legislation, requested by the A&M System Board of Directors, will be the House state affairs committee. Haines predicted that the measure will probably come to a vote "in three or four weeks."

Before the bill is brought to the floor, a committee hearing will have to be scheduled. Then after passing the House, the legislation must go to the Senate, where a similar procedure of committee hearing and readings will be followed.

Cagers Drop Year's Finale

The Aggie basketball squad fell into a second-place tie with Rice after dropping the season's last game to the Owls, 73-70, Tuesday night.

The loss left both the Cadets and Rice with 9-5 SWC records.

In addition, Rice's Kendall Rhine caught and tied Aggie guard Bennie Lenox in the race for conference scoring honors. Both stars, who were top-heavy picks for all-conference teams during the week, finished league play with 352 points.

During the Houston game, Lenox broke Carroll Broussard's conference scoring record and tied his mark for field goals in a conference season.

Bagley Converted To Library Annex

First floor classrooms in Bagley Hall were converted Tuesday into a study annex of Cushing Memorial Library.

Former classrooms in Bagley are now open from 8 a.m.-11 p.m. on weekdays, 8 a.m.-4 p.m. on Saturdays and 2-11 p.m. on Sundays for studying. Later in the year volumes in the Texas Engineers Library will be moved to Bagley so construction on the huge Cushing addition can begin.

"The library could not take care of all students desiring study hall facilities, as well as those seeking library materials and assistance, so it became imperative

that study rooms be made available elsewhere," Library Director Robert A. Houze said.

Group To Track New Satellite

The college has been designated as one of 54 institutions to serve as data receiving stations for the "S-66" satellite to be launched this month by the National Aeronautics and Space Administration.

A research group headed by Dr. John P. German, a professor of electrical engineering, will handle details here. Other members of the group will be Glenn Gaustad and Wayne F. Wilson, graduate research assistants who are using the study in connection with thesis projects.

The data will be collected through special antennas mounted on top of Bolton Hall and receiving and recording equipment within the building. The Data Processing Center will also contribute on the project.

YOU BOUGHT A NEW KITE CHARLIE BROWN? THAT'S CRUEL!  
YOU'RE GOING TO TAKE THAT SWEET INNOCENT KITE OUT, AND TANGLE IT AROUND SOME TREE? OH, HOW CRUEL!  
OR WORSE YET, YOU'RE GOING TO TANGLE IT UP IN SOME TELEPHONE WIRES WHERE IT WILL HANG ALL SUMMER, AND BE BUFFETED BY THE ELEMENTS! HOW CRUEL! OH, HOW INHUMAN!  
I'D LIKE TO RETURN A KITE, PLEASE!

more body in the blend  
more flavor in the smoke  
more taste through the filter

It's the rich-flavor leaf that does it! Among L&M's choice tobaccos there's more longer-aged, extra-cured leaf than even in some unfiltered cigarettes. And L&M's filter is the modern filter—all white, inside and outside—so only pure white touches your lips. L&M's the filter cigarette for people who really like to smoke.

When a man says "no" to life insurance, one of three things will happen . . .  
1. He will buy it later and pay a higher rate for it because he will be older.  
2. He will never buy, and his family (or his old age) may pay for it in sacrifice.  
3. He will wait too long, and find money alone will not buy life insurance for him.  
Would you be sorry today . . . if you had bought more life insurance 10 years ago. Don't delay, see
