Silver Taps Honors Grad, Last Rites Set

Funeral services for Lt. Col William G. Lucey of 907 Mitchell in Bryan, who died unexpectedly Monday morning, will be held in the Hillier Funeral Chapel Wednesday at 10 a. m.

LT. COL. W. G. LUCEY

Silver Taps Ceremony was conducted Tuesday night in honor of the retired Army officer, Class of '37, who was a graduate student in the Department of Education.

A Rosary prayer service is scheduled for Tuesday night in the Hillier Chapel.

BURIAL for the World War II and Korean War veteran will be in the Ft. Sam Houston cemetery in San Antonio, Thursday at 3 p. m.

Col. Lucey served in Okinawa, the Philippines, and Korea during World War II, and commanded the 58th Field Artillery Battalion, 3rd Division, during the Korean War.

He received many awards during his 19-year tenure in the Army, including the Distinguished Service Medal and the Bronze Star with Oak Leaf Cluster.

SURVIVING him are his wife, Mrs. Sylvia Lucey of Bryan, two daughters, Patricia Ann and Marjory Mary, and two sons, William Jr. and John Christopher, all of Bryan. William Lucey Jr. is a Freshman at A&M.

Other survivors include his mother, Mrs. Nellie E. Lucey of Fort Worth and a sister, Mrs. Mary Margaret Poindexter of Shreveport, La.

Wire Review

By The Associated Press WORLD NEWS

MOSCOW — Kremlin officials, Premier Khrushchev, gave an airport sendoff in Moscow Monday on his tour of the Soviet Union.

At his first stop, Volgograd — formerly Stalingrad, Castro got a home from thousands, the Tass news agency reported.

EDMONTON, Alta. — A Trans-Canada airliner with 71 aboard struck violent air currents in rain showers over the Rocky Mountains on Monday and plunged 800 feet in a split-second nightmare. One passenger was killed and 25 injured.

The dead man was L. M. Schmidt, an elderly passenger from Cudworth, Sask.

An airline spokesman said all but four of the injured were released from the hospital after a medical checkup.

BIRMINGHAM, Ala. — Hundreds of Negroes skipped school Monday and followed Negro comedian Dick Gregory to jail in a series of marches protesting racial segregation.

An estimated 1,000 were arrested. A jailer, who made the estimate, said 90 per cent were teenagers.

With the latest mass demonstration, total arrests in the past five days of racial unrest soared near 400. Most of the Negroes have been taken to jail, filling the local jails.

WASHINGTON — Gov. Rockefeller's political fate now is in his hands, some believe, because much depends on the image he projects before the 1964 elections. Gov. Romney of Michigan could be the big gain if the divorce-marriage issues hurt Rockefeller, reports indicate.

JEFFERSON CITY, Mo. — A program to enroll Roman Catholic high school students in public schools is spreading across Missouri. The legislative committee will take another look at bill it killed which would have provided bus transportation for private school students.

WILLIS, Tex. — A U. S. mail truck was boldly hijacked in downtown Willis Monday night by robbers who tied up the driver and escaped with 15 to 20 mail sacks.

An all points pickup was issued for the arrest of three bandits shortly after the driver, B. A. Astrey, reported the robbery to the Montgomery County sheriff's office.

Smith To Introduce Bill In House Halting Co-eds

Affairs Committee To Get Resolution

Rep. Will Smith from Beaumont told The Battalion Monday night that he will attempt to introduce a bill in the House of Representatives Tuesday morning opposing the decision made by the A&M Board of Directors to admit co-eds on a limited basis.

In a special telephone interview, Smith stated that "the bill leaves A&M just about in the position it was a month ago."

The representative from Beaumont was optimistic about the success of the bill following its introduction. "I believe that if I can get it in, I will be able to get it passed," he said. SMITH pointed out however, "It takes a four-fifths vote at this late date to introduce a bill, and that will be hard."

Even if the bill cannot be introduced, the legislator indicated that a House resolution requesting the Board of Directors to reconsider their actions will be heard by the House State Affairs Committee Monday night.

House Resolution No. 80 asks that at least one state institution be maintained for men only and another for women only.

"I think that I can put 1000 people who are in opposition to co-education in the gallery for the committee meeting," Smith stated. "I could get 150 supporters from Beaumont just by picking up the phone," he added.

ANOTHER resolution which would request the A&M Board of Directors to hold up any further actions to admit co-eds will probably be introduced by Wednesday, Smith indicated. The second resolution is in the process of being worded.

When asked whether or not he thought the Supreme Court ruling of 1960, which gave the Board complete authority over the co-ed question, would hold up now, Smith stated:

"There is no question that they have the authority. However, they have the authority only until it is changed by the legislature."

"Those of us who are supporting this resolution and bill hold nothing against the Board of Directors and President Rudder," the legislator pointed out. "We are simply trying to represent the many thousands who do not agree with the Board and President Rudder," he said.

HOUSE Representatives from the upper Gulf Coast, Houston and Dallas are receiving a lot of mail in opposition to the Board's decision, reported Smith.

He stressed the fact that Monday night's committee meeting would be open and indicated that the committee would hear anyone who wants to be heard.

Rudder Names First Director For Cyclotron Institute

Dr. George J. Igo, senior staff member of the Lawrence Radiation Laboratory, University of California in Berkeley, was named Tuesday as director of the Cyclotron Institute at A&M.

President Earl Rudder said in the appointment that "Dr. Igo is eminently qualified to head A&M's Cyclotron Institute which, when completed, will be the largest and most powerful in the Southwest."

Igo received his Bachelor's degree from Harvard and his Ph.D. in physics from Berkeley. He was a physics instructor at Stanford and a guest professor of nuclear physics at the University of Heidelberg, Germany.

He has published 40 scholarly papers and is a member of Sigma Xi and the American Physical Society.

The 88-inch variable energy cyclotron proposed for institute will be fourth to be constructed on a

Business Division Names New Head

Dr. John E. Pearson of North Texas State University has been named head of the Division of Business Administration effective June 1, Frank W. R. Hubert, dean of the School of Arts and Sciences, announced Monday.

Pearson holds two degrees from NTSU where he has been a faculty member since 1957. He is now a professor and is chairman of the Division of Business Services there.

DR. T. W. LELAND retired as head of the Division of Business Administration at A&M in August, 1961. Dr. Robert M. Stevenson has been serving as acting head.

Pearson has participated in two post-doctoral programs, after receiving his Ph.D. in economics from Indiana University in 1956. He will take part in a research workshop in marketing at the University of California at Berkeley, July 22 to Aug. 30.

Pearson taught as an assistant professor at New Mexico State University from 1954-57. He also taught one summer at Indiana

University's South Bend campus and held a teaching fellowship at Indiana from 1948 to 1951.

He is the co-author of "Basic Mathematics for Business Analysis" and has written several articles on business.

STUDIES in population densities and housing are among his research projects. Others include circular autocorrelation as a research tool, product quality measures and the changing market objectives in industrial production.

DR. JOHN E. PEARSON

5,000 Observe Parachute Meet

An estimated 5,000 people attended the first annual parachute meet sponsored by the A&M Parachute Club Saturday and Sunday.

Charles Long placed third in the advanced style. He represented the Ft. Hood parachute team. Houston Parachute Center won the team jump of three men who exit the aircraft at the same time with a ten second free fall for accuracy. The Amarillo Skydivers placed second and the Ft. Sill Club placed third.

Wallace won the over-all individual trophy. The best over-all club honors went to the Houston Parachute Club with the Dallas club placing second.

Ft. Sam Houston's team won the best over-all club sportsmanship trophy.

The meet was sponsored through the local Jaycees with the proceeds going to charity.

Duke U. Biologist Will Be Featured At Sigma Xi Meet

Dr. A. W. Naylor, a Duke University scientist, will be the featured speaker at the 13th annual initiation and awards banquet of Sigma Xi Society here Wednesday.

The event will be held at 7 p. m. in the Memorial Student Center Ballroom, Dr. R. J. Baldauf, president of the A&M chapter, announced.

A professor of biology, Naylor will discuss the "themes and philosophies of biologists in this day of new horizons in science."

AT THE SAME time, the chapter will initiate 50 local scientists into the organization, Baldauf commented. The new initiates will increase local membership to more than 300.

"The sole purpose of Sigma Xi is the encouragement of original investigation in science, pure and applied," Baldauf said.

The banquet speaker received his formal education at the University of Chicago. He has had considerable experience in both teaching and research at Northwestern University, University of Washington, Yale, University of Bristol, England, Oak Ridge and other institutions.

NAYLOR IS a Fellow of the American Association for the Advancement of Science and of the National Research Council. He has served several years as an officer in the American Society of Plant Physiologists.

Currently a consultant to the National Science Foundation and the Oak Ridge Institute of Nuclear Studies, he has contributed over 60 research reports in journals and technical books in the United States and foreign countries.

Consolidated One-Act Play Wins First In Class AA

One-Act players from A&M Consolidated High School in College Station took 1st place honors in Class AA competitions in Austin this week, their second state win an as many years.

Miss Nancy Inglis, daughter of Mr. and Mrs. Jask Inglis of College Station, was named best actress of the meet and given a \$500 drama scholarship. She also was named winner of the Samuel French award, given to the outstanding player of the competition.

A second Consolidated student, Rick Owen, son of Mr. and Mrs. Richard Owen, College Station, was named to the all-star cast.

Other players from here included Joe Jaros, Karen Stuverud and Jack Coffey.

The Consolidated Players presented scenes from "Anastasia" which won the district competitions held at A&M two months ago.

IN ALL FAITHS CHAPEL

Jewish Scholar Lectures On Communist Theories

Rabbi Robert I. Kahn, Jewish scholar and theologian from Houston delivered a lecture entitled "What We Must Know About Communism," in the All Faiths Chapel Monday night.

RABBI KAHN explained that to understand the Communist philosophy one must understand the theories of Karl Marx, the founder of the modern socialist school of thought.

The Rabbi said that once an equality of wage levels is attained the socialist state has reached a point at which all men will possess the same things. There will be no more greed, no more need of government, or police. They will in fact have reached a real Utopia of "cooperation without coercion."

TO ACCOMPLISH their aims the communists are willing to put to an end all forms of opposition by the quickest means available. In their creed the end justifies the means, said Rabbi Kahn.

Starting with these basic premises of Marx, communism has made significant inroads to several countries. "Remember that a box car full of revolutionaries from Germany were able to penetrate to the Russian interior and oust the Czar. This has been their basic method for installing communism; conquest by force followed by a puppet regime," said the Rabbi.

The success of communism in some countries has depended upon two basic needs said the Rabbi. "The exploitation of hunger and the hunger for an idea or an ideology that will satisfy needs." "COMMUNISM promises an end to what may seem to be a mystery."

Rabbi Kahn said that when an intelligent and educated man converts to communism it is usually because they are "hungry for an ideal." In absence of channels for improvement it is a wonder that they seek to satisfy an outlet for their idealistic minds?"

Rabbi Kahn said that basically there were three reasons for failure of communism.

Marx said that communism

Great Issues Plans Committee Meeting

The Great Issues Committee will hold its spring organizational meeting Tuesday at 7:30 p. m. in Rooms 2C-2D of the Memorial Student Center. Speakers and programs for next year will be discussed. All students interested in working on the committee next year have been invited to attend.

Third, Marx failed to comprehend religion. Rabbi Kahn said that Marx did not understand that religion can sometimes change to suit the society.
