

# Campus Landmark To Be Demolished

Science Hall, built on the A&M campus in the 1890s and the site of studies for thousands of Aggies through the years, will be demolished shortly.

**WANTED PROTECTION**  
PEORIA, Ill. (AP) — Sam Rose is pretty touchy about the subject of buglar alarms after thieves stole his alarm system the other night.

A panist, Rose works late hours. When he got home in the wee hours of the morning, he found the front door kicked in and his new alarm system gone.

A contract for the demolition job, which will clear the valuable central campus site for future use, is in the process of being awarded to Hobbs Demolishing Co. of Austin, Howard Badgett, College manager of Physical Plant, said Wednesday.

The Austin firm's bid of \$2,101 and the demolition work including the right to salvage old brick and other materials from the building was the best bid received. Approx-

imately 60,000 of the salvaged brick will be retained by A&M for use in building a new residence for President Earl Rudder. The president's home was practically destroyed by fire earlier this year.

Science Hall has stood vacant since occupancy of the ultramodern Plant Sciences Building. The Biological Sciences Building adjacent to old Science Hall was occupied several years ago.

**Nitches Inspect Retirement Gift**  
Charles Nitch and his wife look at the ice chest given him last week when he retired after 27 years with the Building and Utilities and Stores Departments at A&M.

## Veteran Stores Supervisor Ends 27 Years Of Service

Charles Nitch, a lifetime resident of Bryan and a 27-year employe of A&M, retired last week. He had served since 1942 as stores supervisor for what now is the Department of Stores. Until this year the operation was part of the Buildings and Utilities Department, and Nitch originally was a clerical employe in that department.

Mr. and Mrs. Nitch were honor guests at an informal coffee Wednesday afternoon and fellow employes presented Nitch with an ice chest.

Appreciation for Nitch's years of service was expressed by Wesley E. Donaldson, Jr., director of purchasing.

The stores operation which Nitch has supervised is a combination hardware store, source of janitorial supplies and supplier of equipment necessary in keeping laboratories in good repair. Between 12,000 and 14,000 items are stocked.

Nitch has supervised a staff of three persons.

The Nitches will continue to reside in Bryan at 704 East Twentieth.

He is an active member of St. Andrews Episcopal Church and has served as a vestryman.

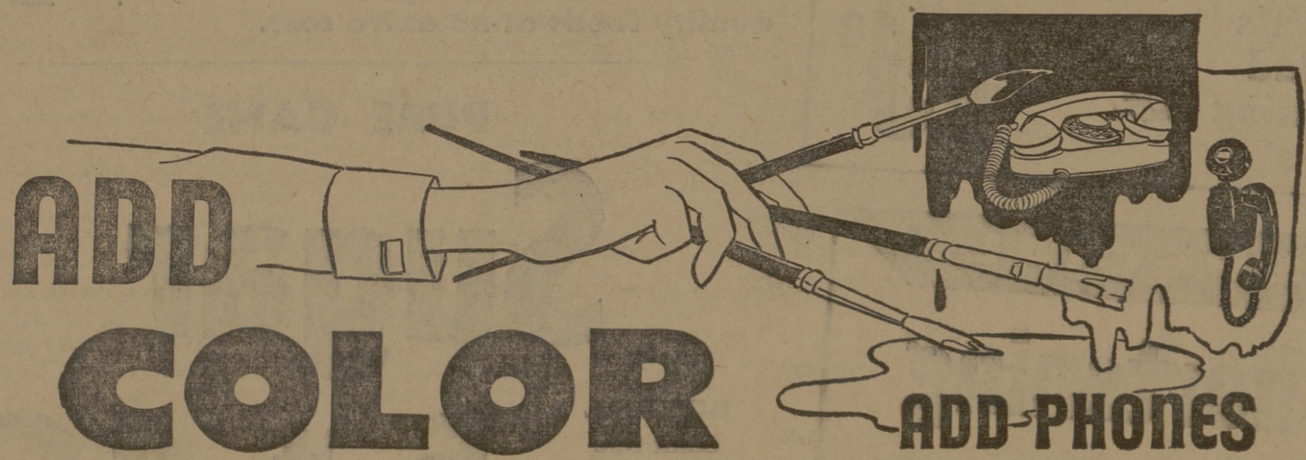

## TAES Editor Retires After 11 Years Here

Tad Moses, agricultural editor at A&M since September 1952, will retire on August 31. He was first employed at A&M in 1943 as assistant director of information. In 1945 he was named editor for the Texas Agricultural Experiment Station. When the editorial offices of the Station and the Agricultural Extension Service were combined in 1952, he was named to the position of agricultural editor.

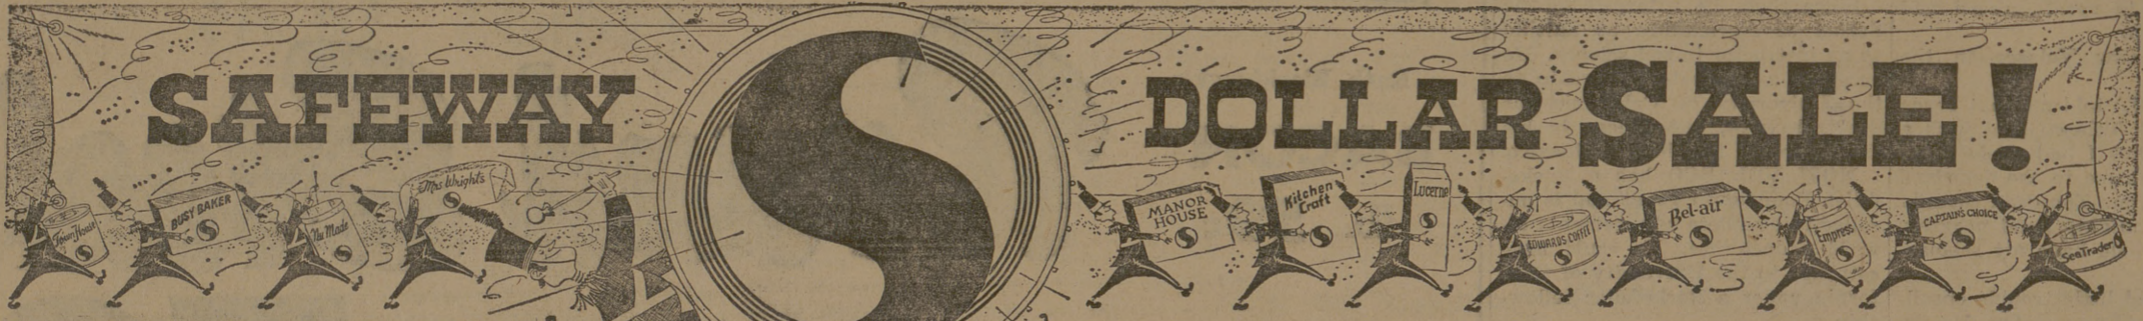

He has long been associated with the livestock industry of Texas, having served as chief clerk for the Livestock Sanitary Commission from 1919-22 and as assistant secretary, Texas and Southwestern Cattle Raisers Association and editor of their magazine, "The Cattleman," from 1922-43.

Moses is a native of Burnett county. He attended A&M 2 years but left college to join the Army. He received a 2nd Lt. commission after attending officers' training school at Ft. Sheridan, Illinois. He was discharged in 1919.

At the 1963 meeting of the American Association of Agricultural Editors, he was made a life member of the Association, the first such honor extended by the group, "for his many contributions to college editing." Members from the Southern Region presented him with a "Scroll of Acclaim."
