

AMONG THE PROFS

# Vet School Chief Plans Two Trips

Dr. A. A. Price, dean of the A&M University College of Veterinary Medicine, will make two trips this month for the National Institutes of Health.

He is currently in Brazil and Argentina making projects site visits. He will remain there until Sunday.

On Sept. 25-29, he will serve in Washington, D. C., as a member of the NIH Tropical Medicine and Parasitology Study Section.

# Rum Caused Navy Problems

Rum created major problems for the Royal Navy in manning ships in North American waters in 1763-1775, Dr. Neil R. Stout of the A&M University history faculty writes in an article published in a recent issue of "The American Neptune: A Quarterly Journal of Maritime History."

"Death, illness and desertion," in the Royal Navy, writes Stout, "could often be traced to a common cause—rum."

The A&M assistant professor of history also writes another reason for desertion was American merchants seeking to evade the revenue laws, "deliberately enticed men away from the king's ship."

The Navy resorted to impressment of seamen as a means of maintaining sufficient crewmen to man vessels scattered from Nova Scotia to Florida. This was always a touchy question with the American colonial and the royal naval commanders and officials sought to avoid its usage in order to curtail offense.

"Thus impressment did not become as great an issue of the American Revolution as it might have," Stout concludes.

Dr. L. C. Grumbles, Dr. C. F. Hall, Dr. A. I. Flowers and Dr. C. F. Meinecke will attend a conference Friday at the Poultry Diagnostic Laboratory in Center.

They will co-ordinate activities for the coming year with Dr. R. L. Clifford and Dr. J. E. Teague of Stephenville, and Dr. S. E. Glass of Gonzales.

\*\*\*

Charles A. Rodenberger, associate professor in the A&M University Department of Aerospace Engineering, addressed the Victoria Chapter of the Texas Society of Professional Engineers last week in Victoria.

The engineer spoke on "Professionalism and Unionism in Industry."

\*\*\*

Dr. Ralph A. Zingaro, associate professor in the Department of Chemistry, will leave soon for a year's study at the Oak Ridge National Laboratories in Tennessee.

The scientist will work with the chemical technology division on separation of fission fragments of solvent extraction.

Zingaro's special field of research is metallo-organic chemistry.

# Lambert Named Institute Prof

Floyd A. Lambert, a retired Air Force colonel, has returned to A&M University as an instructor in the newly established Institute of Electronic Science.

The announcement was made by

On Sept. 25-29, he will serve in Washington, D. C., as a member of the NIH Tropical Medicine and Parasitology Study Section.

Dr. L. C. Grumbles, Dr. C. F. Hall, Dr. A. I. Flowers and Dr. C. F. Meinecke will attend a conference Friday at the Poultry Diagnostic Laboratory in Center.

They will co-ordinate activities for the coming year with Dr. R. L. Clifford and Dr. J. E. Teague of Stephenville, and Dr. S. E. Glass of Gonzales.

Charles A. Rodenberger, associate professor in the A&M University Department of Aerospace Engineering, addressed the Victoria Chapter of the Texas Society of Professional Engineers last week in Victoria.

Dr. Ralph A. Zingaro, associate professor in the Department of Chemistry, will leave soon for a year's study at the Oak Ridge National Laboratories in Tennessee.

The scientist will work with the chemical technology division on separation of fission fragments of solvent extraction.

Zingaro's special field of research is metallo-organic chemistry.

replace retired Roy W. Snyder as staff positions and the filling of a new position have been announced by Director John E. Hutchison, Texas Agricultural Extension Service.

Frank Orts, a former county extension agent and a member of the Department of Animal Husbandry since 1958—specializing in meats work—has been named to

L. K. Jonas, coordinator of the two-year school for electronic technicians.

A 1938 graduate of A&M, Lambert will be one of two instructors to direct the institute's first school, scheduled to begin Monday at the Research and Development Annex.

The other is Matthew A. Nowak, formerly an assistant professor and assistant research physicist with the Division of Architecture.

Lambert retired from active duty this summer after 22 years as an electronics officer in military communications and electronics. He served as a manager or staff planner at all command levels including eight years at Department of Army and Air Force level.

Jonas, in making the announcement, said Lambert has extensive experience in electronics and has contributed many original new concepts and ideas to the field.

Lambert planned and implemented many multimillion dollar military projects. He served as a technical advisor for over 30 long range and 28 short range radar stations.

# New York Times Available At MSC

J. Wayne Stark, director of the Memorial Student Center, has announced that five copies of the current city edition of the New York Times will be available daily in the MSC from 8:30 a.m.

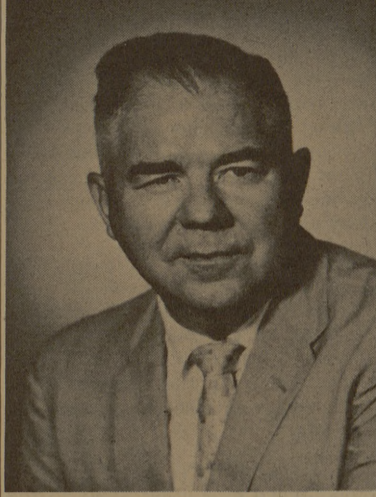

Stark announced that through the co-operation of the circulation manager of the Times, the Martin News Agency in Dallas, Continental Airlines and College Station Post Office, interested persons may purchase a copy at the main desk in the MSC. Because of weight considerations, only the weekday copies of the Times will be available for the present.

# Pari-Mutuel Bets Subject Of Talk

The Texas Racing Association's efforts to get pari-mutuel betting legalized in the state will be the subject of a talk Thursday at the Brazos Valley Press Club in Bryan.

The speaker is Bob Gray of Cypress, Texas Racing Association president, editor of the "Texas and Southwestern Horseman" magazine and former Houston area newsman.

Bill Wilson, program chairman, said the talk will start at 7:30 p.m. The club is in the Kraft Building.

# Extension Service Announces Three Staff Positions Filled

Replacements for two vacant staff positions and the filling of a new position have been announced by Director John E. Hutchison, Texas Agricultural Extension Service.

Frank Orts, a former county extension agent and a member of the Department of Animal Husbandry since 1958—specializing in meats work—has been named to

replace retired Roy W. Snyder as staff positions and the filling of a new position have been announced by Director John E. Hutchison, Texas Agricultural Extension Service.

Wendell Horne has been named plant pathologist and succeeds Dr. Harlan Smith who resigned several months ago to become a member of the Federal Extension Service. His special attention will be devoted to educational programs dealing with the diseases of crops and ornamentals. He is a native of Sulphur Springs and holds both B.S. and M. Ed. degrees from East Texas State College.

Kenneth Wolf, a native of Johnson City and a retired Major in the Air Force, has been named economist-agribusiness.

# Applegate Begins In Plant Sciences

The Department of Plant Sciences has a new associate professor—Dr. Howard C. Applegate, formerly of Arizona State University.

Dr. David Rosberg, head of the Department of Plant Sciences, said Applegate will teach plant growth and development and conduct research in his special interest field, air pollution.

The scientist will expand A&M's current air pollution study program and will further develop a graduate training program in air pollution, Rosberg said.

Applegate received his BS de-

gree in horticulture and botany in 1950 and the MS degree in 1952 from Colorado State University. His doctorate in physiology and biochemistry came in 1956 at Michigan State University. "Effect of Halogenated Benzoic Acids on Selected Plant Species" was his thesis title.

Experiments by the National Aeronautics and Space Administration show that 100 pounds of stony meteorite, when boiled at intense heat, yield three to four pounds of life-giving oxygen.
