

## Battalion Church News

**A&M METHODIST**  
The A&M Methodist Church will hold World-Wide Communion Services Sunday evening with the Rev. Byron L. Lovejoy officiating. Special services will be held at this time.

During the week, the church will also hold a morning training session for workers in the youth and children's division. On Oct. 9 the United Church Women's Committee will hold a newcomer's coffee at 9:30 a.m. This is sponsored for newcomers in the community so that they will have a chance to get acquainted with the other members of the church.

**A&M PRESBYTERIAN**  
The adults of the A&M Presbyterian Church will begin studies of a new Covenant Life Curriculum Sunday at the regular Sunday School hour.

Rev. H. Bruce Fisher, said that the study will cover the Bible, the church, and life under the Lordship of Jesus Christ. Rev. Fisher said the plan, which is the first change in educational material since 1875, will attempt to increase home and family education in addition to church and school.

The new program that includes only adults will include the youth and children by 1964.

**UNITARIAN FELLOWSHIP**  
The Unitarian Fellowship of Brazos County will meet on Sunday evening, at 8 p.m. at the Hillel Foundation Building.

The speaker will be Margaret Kaye, Unitarian - Universalist Service Committee representative, who will speak to the group on "Unitarianism in Action." In conjunction with her talk she will show the film "A Village Is Waiting."

Mrs. Kaye was born and educated in Germany. She now makes her home in Houston where she is a member of the First Unitarian Church in that city and chairman of the Re-

**Roman Catholics**  
Putting Emphasis  
On Bible Research

VATICAN CITY (AP) — New Roman Catholic emphasis on Biblical research, long a favorite domain of Protestant scholars, emerged Wednesday at the Vatican Ecumenical Council.

Most of the day's 17 speakers in St. Peter's Basilica dwelt on word meaning and symbols from both Old and New Testaments as they suggested changes in the schema topic "de ecclesia" - concerning the church.

They delved in areas that touch upon exegesis - a theological specialty in which Biblical scholars investigate and interpret scriptural meanings.

"De ecclesia" re-examines what Christ intended in founding a church, what its structure really is and who belongs to it. A draft of the schema was approved in principle by the council Tuesday.

The 2,300 council fathers heard views on the first of the schema's four chapters, "The mystery of the church."

Bushmen of the Kalahari waste-land in southern Africa use an arrow poison so potent that one drop can kill a man if it enters the bloodstream. The primitive tribesmen get the poison from the pupa of a beetle.

ligious Education Committee for the church. She is one of eight national vice-chairmen of the Unitarian - Universalist Service Committee and is their representative for the Southern area.

### FIRST CHRISTIAN

The Rev. Jimmy Hays, pastor of the First Christian Church of Bryan, will speak on the meaning and significance of Holy Communion at the regular morning worship 10:30 Sunday morning. Word Wide Communion Sunday will be observed at the First Christian Church.

Loyalty Month.

On Oct. 18, the church will hold its monthly fellowship supper. The program will be "The Church Reaching Out." The public has been invited and reservations can be made by calling 8 and 10 a.m.

ing the church office, TA 3-5431. Oct. 20 will be layman's day. The men of the church will conduct the regular 10:30 worship program.

### CHURCH OF CHRIST

The A&M Church of Christ is sponsoring a study class which will survey world religions. This class will meet each Wednesday night in the Bible Chair Building at 301 College Main.

The class contains about 40 members and meets for one hour each week, from 7:15 to 8:15 p.m. The topic of study for next week is Confucianism.

Worship services this year will be held twice on Sunday instead of once as in previous years, said Billy Earl Williams, Bible Chair director. Times for the services are 8 and 10 a.m.

## Gemini Booster Operational Soon

BALTIMORE (AP) — The Martin Co. announced Wednesday that the first operational booster in the Gemini two-man space flight program would be ready in a month. The first vehicle was to have been ready in time for a November flight test at Cape Canaveral, Fla., NASA said.

But because of delays in perfecting the booster, the first unmanned flight has been postponed twice, NASA said. The test is now set for the first part of next year.

Under the Gemini program, NASA plans to launch two astronauts into orbit for periods of up to two weeks. Experiments are planned for so-called docking and rendezvous maneuvers in space.

The Gemini program is the next step before attempting to send a man to the moon.

## Peach, Plum Farmers Give Special Heed To Irrigation

OF THE THREE, the sprinkler usually is best if the orchard is already established. It is adaptable to rolling land. If the farmer is starting from scratch and the land is relatively flat, then he might consider the furrow or flooding systems.

Wells, he said, are most dependable but are sometimes expensive to drill, maintain and operate. Reservoirs are good if they are already available. Building a reservoir just to irrigate an orchard is likely to be too costly.

Streams are often like reservoirs,

Kees pointed out. They are low just when needed the most.

What about cost? The specialist said this factor is hard to pin down because conditions vary so much from farm to farm. Generally, total cost to develop a sprinkler system will run from \$75 to \$125 per acre.

ON A UNIT volume basis, which Kees said is a more accurate comparison method, total cost of a sprinkler system will range from \$1.75 to \$2.25 per acre inch of water applied.
