

8 College Bowl Finalists Aired On 'Town Talk'

The eight finalists for A&M University's College Bowl team appeared on the KBTX-TV, Channel 3, "Town Talk" program Tuesday at 11:30 a. m.

Their participation was part of an elimination series designed to choose A&M's five representatives to the College Bowl program to be held in New York Nov. 10.

TEAM COACH, Dr. Harry P. Kroitor of the Department of English, said Tuesday three of the finalists have already been chosen to preliminary positions on the team. One more team member and an alternate will be chosen Thursday night.

Already selected to the team are Calvin C. Simper, history; John A. Schmidt, electrical engineering, and Lawrence

Kelminson, finance.

THE OTHER FINALISTS are William J. Darling, math; Jerry H. Jessup, English; Bobby L. Limmer, preparatory medicine; Alan C. Love, English, and John A. McClure, history.

Two more eliminating sessions remain as the final selections near. They are scheduled for Tuesday and Thursday nights at 7:15 in Room 113, Nagle. These sessions are open to the public, Kroitor announced.

According to Kroitor, "The boys look awfully good."

The team will oppose either Brooklyn Polytechnical College or Ripon College in the television playoff.

The eight-man group has already held a counseling session with faculty members of the Department of Architecture. Before their advance to New York, the team will hold similar meetings with specialists in the fields of English, history and music.

Combined Band Keeps Overall Marching Lead

The Maroon and White Bands gathered a total of 86 points Saturday in the graded pass-by in Kyle Field for the Baylor game to maintain their hold on first place in the marching competition in the Corps of Cadets.

Squadron 13 finished second in the pass-by with 79 points. Tied for third were Squadron 17 and Squadron 7 with 78 points. In fifth position with 76 points was Squadron 9. Close behind Sqd. 9 and tied for sixth were Squadron 10 and Squadron 11 with 75 points. Company F-1 finished in a tie with Company F-2 for eighth with 73 points. Tenth was Squadron 11 with 72 points.

Outfits are graded on 10 aspects of marching. The points they receive from each grader are added to give the point totals. There is a possible score of 100.

After three graded pass-bys the Maroon and White Band is in first place for the year. Second is Company F-1, third is Squadron 7, fourth is Squadron 13 and fifth is Squadron 9.

Tied for sixth are Company G-3 and Squadron 10. Eighth is Company G-1, ninth is Squadron 1 and tenth is Squadron 4.

Four of the top ten outfits for this year were in the top ten outfits in the final results for last year.

Last year the Maroon and White Band finished in first place. Squadron 13 finished fifth. Company G-1 was seventh. Squadron 4 was ninth.

YMCA Meet Set Tonight

Freshmen who attended the YMCA Camp earlier this year will hold their bi-monthly meeting Tuesday at 6 p. m. at the YMCA Building with Dr. John Merrill as guest speaker.

The event will last one hour and will include a supper.

Skydivers Take Top Honors

Members of the A&M Parachute Club gained a first place in the team event in a parachute meet held at Arlington's Municipal Airport over the weekend. Jumpers in the 30-second delay baton pass event were John Olden, Don Deveney and Skip Heard.

Texas Area College Science Students Invited To Confab

Seventy-six outstanding science students from colleges throughout Texas have been selected to attend the Collegiate Science Research Conference at A&M University Dec. 16-17.

The conference, sponsored by the Texas Academy of Science, is one of three conducted at major state colleges and universities for students interested in graduate work.

Dr. Charles LaMotte, A&M biology professor and chairman of the statewide program, said only college without doctoral programs in the sciences are eligible to send students.

Students chosen will hear lectures by university scientists and will visit various research facilities on the campus.

Other research conferences will be held at the University of Texas Nov. 11-12 and at North Texas State University Nov. 25-26, Dr. LaMotte said.

Dr. Cleveland Aids Traffic Study For Houston Area

Through the research of Dr. Donald E. Cleveland, the Texas Transportation Institute of A&M University, participated in a study of public transit in the metropolitan Houston area.

Cleveland was among the researchers working on the public transit study which concerned itself with supplying the best service possible to the Houston metropolitan area which has experienced a 50 per cent population increase in the last decade.

This study of public transit in Houston is part of a comprehensive study of urban transportation. It is one of a number of reports in the Houston Metropolitan Area Transportation Study begun in 1959 by the City of Houston, Harris County and the Texas Highway

Department with the cooperation of the Bureau of Public Roads and the cities of West University Place and South Houston.

WITH TRAFFIC demands increasing both in central areas and on the fringes, a transit system provides a means by which many

Student Injured In Sleep Saturday

Edward Dean Dyer, 20, received a linear fracture of the skull when he rolled from his top bunk in Hart Hall during sleep early Saturday morning.

Students in Hart took Dyer to the University Hospital about 2:30 Saturday morning. He was unconscious.

Dyer is presently showing satisfactory progress and should be released from the hospital within 10 days, said the attending physician.

Dyer, son of Mr. and Mrs. Edd Dyer of Beaumont, is a junior management major and a member of A&M's tennis team.

Data Processing Given New IBM

The Data Processing Center has recently received an additional IBM 1401 and a Calcomp Plotter, a new device for drawing plots.

The new 1401 has a 1403 printer, capable of printing on paper and then reading the information back to the 1401. The 1401 then prints the information on an IBM card. The 1401 in general is used in business and especially in writing checks because of its high speed output, said R. E. Hill, research-assistant at the Data Processing Center.

The Calcomp Plotter is a plotting device, Hill said, that may be used by a programmer to produce the same graph automatically. This computer can perform five routines of the IBM 709.

Manning To Speak To Parents Club

The A&M Consolidated Mother's and Dad's Club will have a meeting Tuesday, at 7:30 p. m. in the High School Auditorium. The speaker will be Ashford Manning, assistant warden of the Diagnostic Center at the Department of Corrections in Huntsville.

Manning is in charge of receiving all incoming inmates and supervises their activities for the first 30 days. Prior to this assignment, he was vocational counselor at the Ferguson Unit where he interviewed and counseled all first offenders 17 to 20 years of age.

A homeroom contest will be held and the children who accompany their parents will be invited to view movies in the school cafeteria. The meeting will adjourn at 8:45 p. m.

Cadets Act As TV Music Men

Faculty Sets Religion Talk

The third program of the Faculty Interfaith Fellowship series planned "toward a better understanding of the religious community" is scheduled at 7 a. m. Wednesday in All Faiths Chapel.

"The Sacramental" will be the topic with one representative each of Christianity, Islam and Judaism to speak briefly. Discussion completes the program. Speaking Wednesday will be Dr. Bruno J. Zwolinski of the chemistry department, Christianity; Dr. A. Ahmed, a graduate student in biochemistry and nutrition, Islam; and Sol Klein, physics, Judaism.

Six topics are being considered in as many weeks in the Faculty Interfaith Fellowship series.

Play 'Sir Galahad' At Beauty Pageant

"We were treated like small kids last year and there is no reason for us to expect any less this year."

With these words, Bob Boone, Director of the Singing Cadets, prophesied a wonderful weekend for the 59 members of A&M University's singing organization as they prepare to leave for Dallas and the Miss Teenage America Pageant this weekend.

THE CADETS SCHEDULE lists departure as 5 p. m. Wednesday, rehearsals on Thursday and Friday morning, the Pageant Friday night, a concert Saturday night at Texas Woman's University and a dance afterward. They will return to campus Sunday at 3 p. m.

The Pageant itself will be held Friday at 9 p. m. in the Dallas Memorial Auditorium, at which time the Singing Cadets, who have been appointed as official pageant glee club will be seen over nationwide CBS network television, said Boone.

THE CADETS WILL sing the opening number, "Miss Teenage America," "Beyond the Blue Horizon," a special number, and provide the background music as well as act as escorts for the finalists in the pageant.

Bud Collier will be the MC for the pageant with guest stars Alan Ludden from "Password" and Bobby Rydell. Mickey Mantle and Harry Ransom, Chancellor of the University of Texas will be two of the judges.

THIS IS A FINE opportunity to get the university name before the public because each state will be watching to see how their candidate does in the competition. We have been promised more time on camera this year," continued Boone, "and we will probably sing from the stage instead of the pit as we did last year."

Following the pageant the cadets will attend the Coronation Ball at the Holiday Inn.

Saturday night the cadets will present a concert at 7:30 followed by a reception and a dance at 9, featuring Louis Pastor's Orchestra.

Accommodations have been made for the Singing Cadets at the Marriott Motor Hotel in Dallas and at the Forest Park Motor Hotel while they are in Denton.

Tomasek, Fine Slated To Speak At Disease Meet

Herbert F. Tomasek, chairman, Executive Committee of the National Agricultural Chemicals Association, Kansas City, Mo., and Sam D. Fine, director, Food and Drug Administration, Dallas, will be the principal speakers at the 1963 Texas Insect and Plant Disease Control Conference.

The conference will begin on the A&M campus Nov. 12, and will last until Nov. 13. Registration will begin at 8 a. m. in Serpentine Lounge of the Memorial Student Center. Dr. W. N. Williamson, assistant director, Texas Agricultural Extension Service, will then welcome the group to the campus.

The purpose of the conference, said Dr. J. C. Gaines, head of the Department of Entomology, is to pass on to the individual the latest practices for controlling the insects and diseases of plants.

The program will consist of speeches from the two principal speakers and talks by faculty and staff members of the A&M University system.

Joining in sponsoring this conference are the Department of Entomology and the Department of Plant and Soil Sciences.

Dr. David Rosberg, Dr. J. C. Gaines, and Dr. V. E. Schember will act as chairmen of the conference.

Everyone who is interested in controlling the insects and diseases of plants has been invited to attend, said Gaines.

Research Trustees Eye Funds, Chiefs

Research activities valued at \$3,000,000 were reviewed and two new officers elected as the A&M Research Foundation Board of Trustees met here.

Industrialist Raleigh Hortensine of Wyatt Metal and Boiler Works of Dallas and Houston was elected chairman. A veteran member and officer of the board, he was elected to succeed Howard Tellepsen of Tellepsen Construction Co., Houston, who has served several years.

A&M PRESIDENT Earl Rudder was reelected as president of the Foundation which is the contracting agency for research activities involving A&M faculty and staff.

Mrs. Judy Davis, who has been associated with the Foundation since its organization in 1946, was elected secretary-treasurer. The late Charles A. Roeber, A&M business manager, had filled the post.

MRS. DAVIS WILL continue to serve as business manager of the Foundation, a post she has held since early in the 1950s, Dean of Engineering Fred J. Benson said Friday.

Dean Benson serves as vice president and director of the Foundation and Carter Sparger as vice director. Both were reelected at

the annual meeting Thursday with 10 board members present.

Research contracted through the Foundation by industry and governmental agencies is principally in arts and sciences and engineering.

English Profs Plan Papers For Meet

Three A&M University English professors will read papers at the South-Central Modern Language Association's annual meeting to be held in Memphis, Tenn., Nov. 1-2. Reading papers will be Dr. Carroll D. Laverty, Dr. Roy E. Cain and Dr. John Q. Anderson, head of the English department.

Also attending will be Dr. Lee J. Martin and Dr. Harrison E. Hierth.

Professor Laverty's paper is entitled "Astronomical Lore in the Works of Edgar Allan Poe."

Dr. Cain in his paper deals with The Faculty of Sympathy in David Hume and Adam Smith: An Important Influence upon the Romantic Theory of the Imagination.

"Grim Barnett, Badman of the Big Bend—Ballad Making in the Twentieth Century" is the title of Dr. Anderson's paper.

WORLD NEWS
LUECHOW, Germany — Two brothers escaped across the mined and barricaded East German frontier Monday night, but only after one of them lost a leg to a land mine.

West German border patrolmen said the two, 18 and 20 years old, crawled over the last death strip toward the last barbed wire and concrete barricade separating them from West German territory.

★★★
JOHANNESBURG, South Africa — All 63 miners trapped 5,000 feet down in a gold mine near Carletonville reached the surface safely Monday.

The last group of 50 white and African miners was brought up late Monday night. Thirteen others had been freed earlier from the cage in which they were trapped for 12 hours underground after a mishap to the winding mechanism.

By The Associated Press
NEW YORK — A mid-Manhattan restaurant Monday began serving free champagne instead of water because of the city's water shortage.

To the glasses bearing the sparkling beverage, the Assembly Steak House attached notes to its customers saying:

"With apologies of the management, during the water shortage, champagne will serve as a substitute. Please bear with us."

★★★
WASHINGTON — Old Tom Connolly of Texas, one of the most colorful, powerful and razor-tongued senators of them all, died Monday at the age of 86.

The former chairman of the Foreign Relations Committee, who had lived quietly in Washington since he quit the Senate in 1953, had been ailing for years. His wife was at his bedside when he died.
