

B&U Reorganizes To Aid Supervising

A reorganization of the operations division of the Department of Building and Utilities with the primary aim of concentrating supervisory assignments was announced recently by Walter H. Parsons Jr., superintendent. The changes became effective last week.

D. T. Whitt who joined the department in May as office manager will fill the post of assistant superintendent for operations.

M. D. Williams, a veteran department employe and assistant superintendent, was designated transportation and sanitary services chief.

THE CUSTODIAL services responsibilities of the operations branch will receive additional supervision through this change, Parsons said.

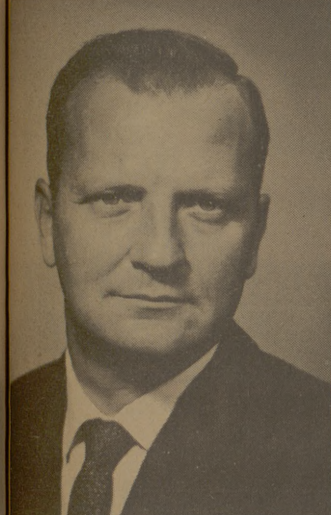

Whitt will direct the 175 custodial services employes responsible for the cleanliness of 2,000,000 square feet of floor space plus the public areas of 25 dormitories.

Parsons said changes effective last week are part of overall revisions designed to improve services.

A machine accounting process utilizing Data Processing Center facilities in keeping work data was introduced by Whitt.

EACH CUSTODIAL foreman receives a handbook, plus special training, to help him do a better job.

"The custodial branch also is to be reorganized, so that we will have all of the floor maintenance technicians—those who run the waxing machines—on one crew instead of the present plan of assigning two of these men to each crew," Parsons said.

MARITIME ACADEMY CADETS AT NEW HOME
They lacked food and quarters but they had girls.

IMPROVISION NECESSARY

TMA Occupies New Home At Galveston's Ft. Crockett

By JIM BLANDE
Special Writer

It hasn't taken long for the Texas Maritime Academy to make an acquaintance or two in the short five weeks of its life here in Galveston.

With the opening of its doors at Fort Crockett, the renovated World War II coastal defense emplacement, the TMA had the problems of all new institutions, among them, getting shipments of equipment here in time to start classes. A two week stay at the University of Texas Medical Branch was necessary by the lack of beds and a stove with which to cook for the twenty-one resident cadets of the academy. The fact that we had maid service and plush "cookie-pusher" type rooms more than made up for the fact that we were forced to live among some of the sweet young coeds of our rival institution.

Being only sophomores academically, the first class has had to bear a great responsibility for the

cadets who follow us. We were given the duty of inaugurating the traditions to follow in later years for the young sea-faring cadets of the future.

The task of governing and disciplining our subordinates also fell on the shoulders of our young class. The Corps of Midshipmen of the Texas Maritime Academy is to be organized much like the Corps of Cadets of A&M University. Jack H. Smith of Galveston, a sea-farer for most of his life, was the selection of the head of the Naval Science Department for Corps Commander. To head up the outfit in the absence of the Commander, D. S. Miller of Dallas was named to the Executive Officer post. Section commands were awarded to Donnie B. Bilancich, Kemah; Mackay T. Conrad, Everglades, Florida; and William W. Radican of Texarkana.

Although the academic curriculum requires a great deal of study and preparation, our social lives aren't suffering. Many of the cadets have found dating "teasips" to their liking while others prefer the "tall, cool one" at the end of a hectic week of classes. Others, fortunate enough to do so, hop in the old joy wagon and head for home after the weekly Friday

afternoon drill session; Mass Exodus Supreme!

The first home football game sent out the call for our return to the home A&M campus for all of its colorful spirit and enthusiasm: a town hall presentation, midnight yell practice and the spirited game as the climax.

With the formal opening of the Academy only a few short weeks off—Nov. 23—there is much excitement in the air as the cadets try to put the finishing touches to their "home" before the dignitaries of A&M University, and the many other distinguished guests arrive for the ribbon-cutting ceremonies. Governor John Connally has also been invited for the occasion.

Yes, the Texas Maritime Academy has come a long way since the bleak days of last February and March as its future hung desperately in the hands of the Senate Budget Committee. The undying spirit and determination of the superintendent, Captain Bennett M. Dodson, has carried us through these moments when all seemed lost . . . ! Now we of the Texas Maritime Academy, shall try to assimilate some of this spirit as we steer the "Good Ship Maritime" on her Journey into Posterity.

Lecture Series Hosts Pathologist

Dr. Carl F. Tesser of Houston, authority on the pathology of radiation injury, will lecture at A&M University Thursday.

"Skin Manifestations of Radiation Effect" is the subject of Dr. Tesser's Graduate Lecture scheduled at 3:45 p.m. in Room 113 of the Biological Sciences Building. He is chief of the section of experimental pathology, the University of Texas M. D. Anderson Hospital and Tumor Institute.

Dr. Tesser served with the Army in the Asiatic-Pacific Theater during World War II, and following the war he was assigned to the Bikini, Crossroads and other nuclear operations. He was director of the Atomic Bomb Casualty Commission and chief of the Radiation Pathology Branch of the Armed Forces Institute of Pathology.

In 1960-62 he was chief of the 406th Medical General Laboratory stationed in Japan and then served in the division of Nuclear Medicine of Walter Reed Army Institute of Research before assuming his present post at Houston.

He received his bachelor's degree with highest honors from the University of Pittsburgh in 1933 and his M.D. in 1935. He served as a resident in pathology before entering the Army.

OFFICIAL NOTICE
Official notices must be brought or mailed so as to arrive in the Office of Student Publications (Ground Floor YMCA, VI 6-6415, hours 8-12, 1-5, daily Monday through Friday) at or before the deadline of 1 p. m. of the day preceding publication—Director of Student Publications.

Those undergraduate students who have 95 semester hours of credit may purchase the A&M ring. The hours passing at the time of the preliminary grade report on November 11, 1963, may be used in satisfying the 95 hour requirement. Those students qualifying under this regulation may leave their names with the ring clerk in the registrar's office in order that she may check their records to determine their eligibility to order the rings. Orders for the rings will be taken between November 18 through November 27 and December 9 through January 7. These rings will be returned for delivery on or about February 14, 1963. The ring clerk is on duty from 8:00 a. m. to 12:00 noon, Monday through Friday of each week.

BE AN AD EXPERT

(show Madison Avenue how it's done)
Write the "perfect" ad for one of these 3 products and win a matched set of five Kaywoodie pipes.

EVERYONE ENTERING WINS A PACKAGE OF KAYWOODIE TOBACCO
In addition 5 major prizes awarded on your campus

Copy points on KAYWOODIE PIPES
Kaywoodie Super Grain pipe illustrated \$7.95—others from \$5.95 to \$2,500.

Pipes are today's symbol of the dominant masculine male. They provide all the pleasure of smoking, without inhaling. Kaywoodie is the world's best known pipe. Each bowl is painstakingly carved from rare grained, imported briar. That's why Kaywoodie always smokes cool and sweet. Inside the pipe is Kaywoodie's unique aluminum invention, a permanent filter that screens tars and irritants; condenses moisture; assures a mild, dry, smoke. (Now let's see how much imagination you have)

Ideas on NEW KAYWOODIE TOBACCO
Facts about NEW KAYWOODIE BUTANE LIGHTER

Imported from Switzerland, it's an exclusive formula of rich, rare Cavendish Tobacco blended to perfection for flavor and mildness (underline mildness). Important: it's all tobacco, no "filters" are used. That's why it burns slowly, evenly, and is easier to keep lit. In special "pocket-pak" only 50c. (Try your creativity on this one and see what you come up with)

HERE'S ALL YOU DO—Write any size ad, large or small. You don't have to draw, just describe whatever you want illustrated. The contest ends December 31, 1963. Decision of the judges is final. A two-pipe set will be awarded to the best ad on your campus. 4 runners-up will receive a Kaywoodie pipe or lighter. These ads will then compete against the winners from other colleges for a grand prize of a \$100 matched grain, five-pipe set. Everyone who enters receives a package of Kaywoodie Tobacco. This contest is subject to all federal, state and local laws and regulations. All entries become the property of Kaywoodie Pipes, Inc. Send entries to Kaywoodie, New York 22, Dept. CU.
