

Football Photo Finish Doesn't Count

Willenborg Gets Wade's Pass Opens questionable play (Story on page 4). **Starts Descent To Right Knee** Play could mean the ball game. **Right Knee Hits Ground** Willenborg in end zone. **Both Knees On Ground** Willenborg still in end zone. **Down—Knees In End Zone** Official ruled "out of bounds."

President Rudder Lauds Students

As President of Texas A&M University, I would like to express my appreciation to the student body for its exhibition of true Aggie Spirit in the recent days of crisis.

Upon hearing the tragic news of President Kennedy's death, student leaders, meeting with members of the staff of the University, chose to sacrifice the traditional Thanksgiving bonfire as an expression of deep sorrow. This feeling permeated the entire student body and will be long remembered as a tribute to the President of the United States.

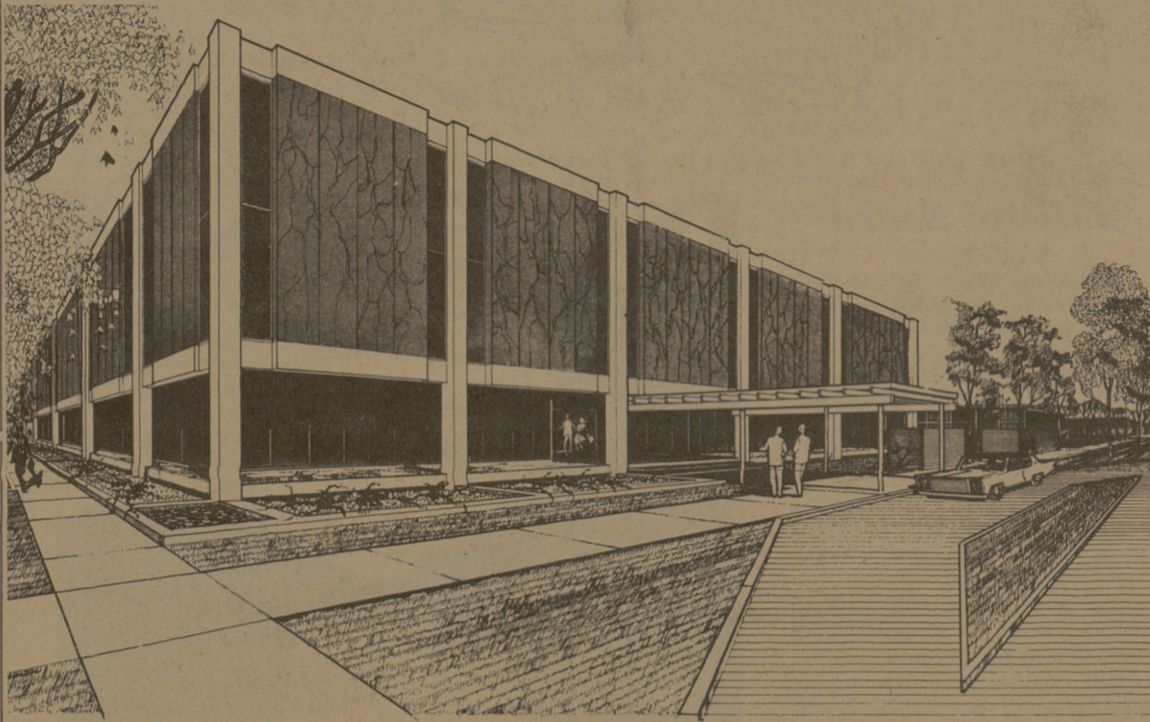

On November 25 the student body once more paid tribute to this fallen leader by conducting an impressive memorial service.

Then on Thanksgiving Day the eyes of the nation watched the inspired and magnificent Aggies come within inches of upsetting the number one football team in the nation. The famous Aggie Band performed superbly at half-time. Again, the student body reflected credit on itself and the institution by its demonstration of true Aggie Spirit.

We have received many congratulatory messages regarding the student body's conduct. The faculty, staff and I join these friends in commending you.

Volume 60 COLLEGE STATION, TEXAS WEDNESDAY, DECEMBER 4, 1963 Number 173

NEW BUILDING TO BE COMPLETED BY 1965 Will feature a Community Room for approximately 150 people.

\$850,000 PROJECT

Officials Set March 1 To Start Bank Building

Plans for a \$850,000 bank building designed "with the community in mind" has been revealed by the First State Bank and Trust of Bryan.

"This new building should be an asset to this bank and the community both," said Henry Clay, bank president, in making the announcement.

THE NEW two story building will face Texas Avenue on a block bounded by that street and Houston, 25th and 26th Streets. There will be parking facilities available for at least 75 cars on the same block, the officials said.

The building will contain a total of 26,000 sq. ft. with 5,000 of this set aside for future expansion.

ONE OF THE features listed as important to the community is a Community Room, which will be on the second floor of the building. Officials said that the room will accommodate approximately 150 people or as many as three groups of 50 people each. The Community Room, which will be available for public meetings free of charge, will have its own entrance and service elevator.

THE GROUND FLOOR will house 16 teller cages and 16 loan officers. Also, as part of the plan, there will be three drive-in windows and room for a fourth on the same block, but away from the main building.

Construction on the building is scheduled to begin about March 1, 1964. The bank officials said they hope to be in the new facility by January 1, 1965.

Jack Ruby's Trial Set For February

DALLAS (AP) — Night club owner Jack Ruby's trial on charges of murdering John F. Kennedy's accused assassin now is set for Feb. 3.

Judge Joe B. Brown reset the trial, originally scheduled for Monday, by agreement with Dist. Atty. Henry Wade and defense attorney Tom Howard who said they had not completed their cases.

Ruby shot Lee Harvey Oswald, the accused assassin, in view of a nationwide television audience Nov. 24 as Oswald was being transferred from one jail to another.

THE JUSTICE DEPARTMENT in Washington said an anonymous tip had been given the FBI Dallas office that an attempt would be made on Oswald's life, and this tip was passed directly to Police Chief Jesse Curry. The police chief has said numerous warnings of this type had been sounded, and therefore he had ordered an armored car to be used, but Oswald never reached it.

An FBI investigation into the assassination and its subsequent events neared completion. Washington sources said it will picture Oswald as a gunman who operated alone and who had no connection with Ruby.

Texas Atty. Gen. Waggoner Carr has put his staff to work in drawing the groundwork for the state investigation of the deaths of Kennedy, Oswald and patrolman J. D. Tippit. Oswald had been charged with slaying Tippit soon after Kennedy was assassinated.

CARR SAID HIS investigation will supplement that of a special presidential investigating committee and the FBI.

Carr plans to hold a court of inquiry, a legal means to obtain sworn testimony without taking a case to trial.

Houston Foundation Awards University 4 Graduate Grants

A&M University has been notified of four grants-in-aid totaling \$150,000 from the Robert A. Welch Foundation in Houston.

Dr. Wayne C. Hall, dean of graduate studies at A&M, said the funds are part of \$1,343,000 for grants-in-aid approved by the Welch Foundation to support fundamental chemical research at various Texas colleges and universities.

Two of the A&M grants are new and two are renewals, Hall said.

One of the new grants is \$45,000 for a three-year period to Dr. Carl M. Lyman, head of the Department of Biochemistry and Nutrition, to support research on "Chemical Reactions of Proteins."

The other is \$45,000 for three years to Dr. J. A. McIntyre, professor in the Department of Physics Department. His research is titled "Resonance Fluorescence Studies of Energy Levels of the Atomic Nucleus."

A renewal grant of \$45,000 goes to Dr. J. M. Prescott of the Department of Biochemistry and Nutrition for a three-year period. Prescott's project is titled "Chemistry of the Metabolism of Protein and Amino Acids."

Another renewal grant, this one for \$15,000, will go to a Department of Chemistry associate professor, Dr. Ralph Zingaro. The scientist's research concerns "Studies in the Chemistry of the Metalloids."

Peace Corps Gives Quizzes Saturday

The next area Peace Corps examinations will be held Saturday at 8:30 in the Bryan Post Office. Volunteers who do not have examination numbers may be admitted by a filled out questionnaire.

Questionnaires may be obtained from the post office, county agents, or placement office and Daniel Russell 316-17 Agriculture Building. Need for volunteers continues great for people with almost any skills, but especially teachers, farmers, nurses, carpenters, and engineers.

High school education and 18 years of age are minimum requirements. There is no upper age maximum. Seventy per cent of the returning Peace Corps volunteers are re-entering college to finish their education or take graduate work.

Sons Of Slain Policeman Awarded A&M Scholarships

DALLAS (AP)—The two sons of slain patrolman J. D. Tippit have been awarded scholarships at Texas A&M. The announcement was made Tuesday as donations for the welfare of the Tippit family appeared to be heading well beyond the \$100,000 mark.

The scholarships for Curtis and Allen Tippit will be sponsored by the Dallas A&M Club and the Texas A&M Association of Former Students.

"The only thing they will have to do to obtain the scholarships is to meet the entrance requirements," an alumni official said. "As I understand it, one of the boys is 15 years old and the other is quite a bit younger."

Meanwhile, contributions coming into the Dallas Police Station reached a total of \$44,084 and the counting was still going on. Money sent to other places totaled about \$55,000.

Lt. Verne Hipskind, supervising the money counting, said some contributions have come in for the Oswald family. He said one contribution was for \$100, but most of the donations have been less than \$5.

A Houston minister said his church members gave \$1,000 for the Oswald family at services Sunday.

Money for the Oswalds is being turned over to Secret Service men, who give it to the family.

SCONA Group Has Named 24 A&M Delegates

By MIKE REYNOLDS
Battalion Staff Writer

Twenty-four A&M University students have been selected to represent the university at the Student Council on National Affairs, which will be held here Dec. 11-14.

A&M delegates were chosen by two faculty and student committees, headed by Clark C. Munroe, director of personnel at A&M and Howard L. Furr, civil engineering professor.

Delegates selected by Munroe's committee included Paul A. Dresser, Larry N. Garrett, Irvin Toole, Neil Lynn Keltner, Larry Allen Maddox, Raymond Douglas Freeman, Gerald Marrow, Thomas Laird, and John Sidney Ballard, II.

International delegates selected by Munroe's committee are Muhammad Osman Farruk, Peter P. Rogulsky, Pu Ning Sun and Lamae Milad El-Zik.

FURR'S COMMITTEE selected Robert A. Miller, Kenneth A. Radde, Robert L. Cates, Lawrence Kelminson, Jerry H. Jessup, Ralph H. Mitchell, Calvin C. Simper and Jack L. Gibbs.

Arvind P. Kudchadker, Fernando E. Quinonez, Andres Olivares and Hans Peter Boy were selected as international delegates by Furr's committee.

In addition to the Aggies, about 130 student leaders from colleges and universities in the United States, Mexico and Canada will serve as delegates.

THE STUDENTS will participate in roundtable discussions and will hear five prominent authorities on government spending and taxes, R. Russell Huddleston, conference chairman reported.

Speakers for SCONA include Max Freedman, a Canadian newspaperman; Edwin P. Neilan, United States Chamber of Commerce president; Phillip S. Hughes, a Bureau of the Budget official; Herbert J. Miller, former director of the Tax Foundation in Washington; and C. Lowell Harris, Columbia University economics professor.

The purpose of SCONA IX is to study the impact of world problems on the nation that has emerged as the leader of the Free World.

It makes no attempt at solving these problems, but seeks to grasp their complexity.

In so doing, SCONA has the long-range effect of promoting an enlightened, responsible citizenship through the medium of free discussion. The conference was started with the idea that the seniors in attendance will be the future leaders of the United States.

Research Psychologist Dr. Harry F. Harlow of the University of Wisconsin will present the second of the University Lectures, Wednesday at 8 p. m. in the Chemistry Lecture Room. Topic of his speech is, "The Effects of Early Experience on Heterosexual and Maternal Behavior." Harlow is a former president of the American Psychological Association.

Pinky, Spouse Will Observe Anniversary

Mr. and Mrs. P. L. (Pinky) Downs Jr., will observe their 47th wedding anniversary Saturday in a quiet way at their home, 301 East Dexter Street.

"Our home is always open to Aggies and other friends," said Downs, official greeter of A&M University and a member of the University Information Department staff. "We plan to spend our anniversary at home."

Although no special event is planned during the day, Mr. and Mrs. Downs will attend the Air Force Ball Saturday evening. They are among special guests of the ROTC.

Both Mr. and Mrs. Downs were born in Temple where they were married in 1916. They have one daughter, Grey Downs, who resides with her parents.

A member of the Class of 1906, Downs has been connected with A&M for decades. He served from 1923 to 1933 on the Board of Directors of the A&M College System.

"My wife and I are happy that we have been able to offer help to Aggies down through the years," Downs commented.

Research Ship Is Dedicated At Galveston

GALVESTON (AP) — The research vessel Alaminos, the only university-operated oceanographic vessel in the Gulf of Mexico capable of all ocean research work, was dedicated Tuesday.

The ship will be operated by A&M's department of oceanography and meteorology.

Xmas Seal Drive Chairman Requests Student Donations

Mrs. A. V. Moore, chairman of the Brazos County Christmas Seal Campaign, today urged all A&M students who have not contributed to this year's drive to send a gift regardless of size for the Christmas Seals they received through the mail a few days ago.

"The A&M students have always enthusiastically supported the Christmas Seal Campaign in past years, but this year receipts have been slow in coming in," Mrs. Moore said.

"We are counting on the students taking time from their many activities to send their usual donations for the Christmas Seals," she said.

"Many have sent in gifts with regrets that they were unable to send larger contributions," the chairman noted.

"We know many Aggies are unable to make large contributions, but if every one would send as much as 50 cents or a dollar, it would help our campaign tremendously," she said.

Mrs. Moore pointed out that two employees on the A&M campus had recently been diagnosed as having tuberculosis.

The Brazos County TB Association needs more funds according to Mrs. Moore to continue its work in the field of detection and prevention.

Auditions Continue For Talent Show

Auditions for the annual Aggie Talent Show will continue each night through Friday at the Music Hall at 7:30. Michael Ilse, talent committee chairman, announced.

Ilse said any individual or group on the A&M campus should fill out applications before 5 p.m. Wednesday at the Student Program Office.

The Aggie Talent Show will be presented Dec. 14. The winner will represent the university in the Intercollegiate Talent Show in the spring.
