

# Letter In 'Time' Observes Russian Milk Distribution

The March 6 edition of Time Magazine has printed a letter to the editor describing the distribution of milk in Russia in the early 20's written by Melvin Rotsch, a professor in the College of Architecture.

Rotsch said his letter was written to remark upon the "progress" Russia has made in the last 30 years in such common place things as milk distribution, after seeing a photograph in Time of a peasant rolling a wheel barrow full of milk bottles through the streets.

A former A&M faculty member now teaching at the University of Alabama will be in Texas this weekend to attend a meeting of a Southern Regional Education Board committee.

Dr. J. E. Roche, who was on the business administration faculty at A&M from 1957 to 1963, will represent the University of Alabama at a meeting of the SREB committee on statistics at the University of Texas on March 13 and 14.

Dr. Roche is a professor of statistics at Alabama.

Mrs. Roche will accompany her husband to Texas. Their plans also call for a stop in College Station.

Dr. I. W. Rupel and Dr. M. A. Brown of the Department of Dairy

## Meteorology Series Continues Tuesday

The second in a series of talks concerning practical applications of meteorology to other disciplines will be held at 7:45 p.m. Tuesday when Dr. Donald Huss of the Department of Range and Forestry speaks on "Microclimate as Related to Range Condition."

The meeting will be held in Room 306 of Goodwin Hall and is sponsored by the College Station Chapter of the American Meteorological Association.

Science will attend a Technical Research Committee meeting March 23-24 in Raleigh, N. C.

Rupel heads the department. Brown is an associate professor. The dairy scientists will represent the Texas Agricultural Experiment Station and discuss general methods of improving dairy cattle in the South.

Dr. F. R. Duke of A&M University leaves Saturday to attend an international colloquium in Nice, France, by invitation of the Secretary of the Air Force.

Duke fills the Robert A. Welch Foundation Chair of Chemistry here. He is one of the world's foremost authorities on oxidation and fused salt technology.

The A&M professor expects to return March 20 from the Sixth Advisory Group for Aeronautical Research and Development Combustion and Propulsion Colloquium.

The Departments of Plant Sciences and Range and Forestry have added two new researchers to their staff.

They are Dr. Frank S. Davis, plant physiologist with both departments, and Rodney W. Boyve, research agronomist with the Department of Range and Forestry. Both men are connected with the Agriculture Research Service of the U. S. Department of Agriculture.

H. D. Smith, chief of firemen training at A&M, will serve on four committees during the International Fire Department Instructors Conference in Memphis, March 23-27.

Smith and Tom Robinson, also a member of the A&M Firemen Training School faculty, will attend the conference.

A member of the International Society of Fire Service Instructors' board of directors, Smith also is

on the society's training committee.

Dr. Donald R. Clark of the College of Veterinary Medicine has a special interest in a new history book just off the press.

The volume deals with Texana and is titled "The Texas Heritage of the Fishers and the Clarks." Veteran Congressman O. C. Fisher of San Angelo is the author.

Fisher is a first cousin of Clark's father. The "C" in the congressman's name stands for Clark.

Dr. J. H. Quisenberry, head of the Department of Poultry Science will participate in two national conferences in March.

On March 11 he will be in Washington, D. C. for the sixth annual Fisheries Symposium. He will present a paper titled "Response to Fish Meal in Laying Hen Diets." Quisenberry will also attend the Maryland Nutrition Conference in March 12-13.

Dr. A. A. Price, dean of the College of Veterinary Medicine, will be at Michigan State University March 12-14 making a project site visit for the National Institute of Health.

The dean is a member of the Institute's study committee, a group which visits proposed research project sites and makes recommendations for grants from the NIH.

## Grad Wives Meet

The Association of Graduate Student Wives will meet Tuesday, at 8 p. m. in the Gay Room of the YMCA Building.

Wendell R. Horsley, Director of the Placement Office, will be the guest speaker. "How to Help Hubby Succeed in the Business World," will be his topic.

A social hour and refreshment will follow.

# Aussie Census Official Here For Studies

Australian census official John Carroll is on the A&M University campus for three months of study and work in the field of sample theory.

Carroll works with Dr. H. O. Hartley, internationally-known statistician and director of the A&M Institute of Statistics.

In Canberra, Carroll is supervisor of the sampling branch of the Commonwealth Bureau of Census and Statistics.

He came to the United States last September and worked in Washington with the U. S. Bureau of the Census before coming here. Carroll will return to Washington in April.

"The Bureau's approach is, of course, pretty much the practical, while here I learn more of the theory," Carroll said.

The Australian government "is only just breaking into the agricultural surveys in such fields as farm costs" and Carroll has special interest in this area of work.

# Peace Corps Applicants To Get Summer Training

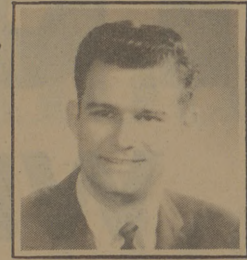

The Peace Corps this summer plans an experimental "Senior Year" program through which college juniors will receive special training to complete undergraduate studies, Dan Russell, chairman of the University Peace Corps Advisory Council, announces.

Jim Gibson, deputy director for recruiting, and a recruiting team will visit the A&M campus between March 19-29.

Russell said the "Senior Year Program" announced by Peace Corps Director Sargent Shriver will involve 500 to 700 students who have submitted applications.

The students, depending upon the number who qualify, may be assigned to these programs: Secondary school teachers for Africa, community-development workers for Spanish-speaking Latin America, teachers of English as a foreign language and applicants studying such difficult languages as Thai.

# DEVELOPMENT OF MANAGEMENT IS OUR MOST IMPORTANT FUNCTION

At the 1963 stockholders' meeting, Arjay R. Miller, President of Ford Motor Company, emphasized the Company's far-sighted recruitment program and its accent on developing management talent:

"Obviously, our long-run future will be determined by the development of our management. Here, every one of us—at all levels of supervision—recognizes this as his most important function. Since 1946, the Company has recruited widely varied talent—talent that can be blended to give us the required combination of tight administration and creative scope.

"Under a carefully conceived management development program, we try to recruit the best personnel available, both in training and experience. Once we get them, we have a program for giving them varied opportunities and increasing responsibility. This program is in force in all parts of the Company—in manufacturing, finance, styling, engineering and marketing.

"The program is paying off. We have developed a real depth of management talent in the Company, and we are dedicated to seeing it continued and reinforced. Because of this, I feel not only very fortunate in being associated with this management group, but also very confident of its long-run success. We know our goals and how to achieve them."

Arjay R. Miller, President of Ford Motor Company, and Henry Ford II, Chairman of the Board, at 1963 Annual Stockholders' Meeting.

An equal opportunity employer
