

Fish Footballers Defeated In Wild Opener With TCU

TOUCHDOWN BOUND

... Fish Harris sprints for Fish score after receiving a pass.

By LANI PRESSWOOD
Assistant Sports Editor

FORT WORTH—The Aggie Fish dropped their opener, 40-21, to TCU's Wogs Wednesday night in a harum-scarum football thriller that kept a crowd of 20,000 roaring right up to the final gun.

The contest saw nine touchdowns scored and over 600 yards gained from scrimmage. The scoreboard in Amon Carter Stadium was lit up in every quarter as both teams moved up and down the field with reckless abandon.

TCU methodically drove 52, 48, 68, and 74 yards for TD's and cashed in on a pair of fumble recoveries for their point total.

The Fish scored on a 37-yard sustained drive engineered by quarterback Gary Kempf, a pass interception, and a spectacular 58-yard pass play from Gene Harvey to Rusty Harris. Three other drives ended in futility at the 17, 21, and 4-yard lines.

Freshmen Can Score

FORT WORTH—The 20,000 fans who witnessed the Fish-TCU Wog tilt here Wednesday night saw something they rarely observe—a touchdown duel.

These supporters have watched their respective varsity favorites accumulate only 27 points in six outings this year, so Wednesday night offered them a change in routine.

TCU's upperclassmen have tallied nine points in three games, while the varsity Aggies have notched 18 in three contests.

A TCU supporter, noting the difference, said, "We've had such a drought, it certainly is good to win one, even if it is the Wogs. I mean football, basketball, track, everything."

And the fans—highly partisan to the Wogs—did whoop it up while the scoreboard was kept busy ringing up touchdowns after touchdowns.

When it was all over, the Amon Carter lights flashed 40 points for the Wogs, 21 for the Fish. And the scorekeepers left the stadium thanking Him that the scoreboard didn't break when the home score exceeded 7.

Austrian Confab Invites Staffers

A paper by six men affiliated with A&M will be presented at the "Symposium on Radiochemical Methods of Analysis" in Salzburg, Austria, Oct. 19-22.

Lloyd E. Fite, associate head and chief engineer of the Activation Analysis Research Laboratory, will make an oral presentation of the paper on development of the Mark II Automated Activation Analysis System and a special computer program at A&M.

The paper is by Dr. Richard E. Wainerdi, associate dean of engineering and head of the Activation Analysis Research Laboratory; Fite; Dr. Derek Gibbons, senior scientific officer of the United Kingdom Atomic Energy Authority in Wantage, Berkshire, England; W. Wayne Wilkins, research assistant; Dan Drew, associate head of the Data Processing Center, and Pedro Jimenez, assistant research chemist.

A number of Texas high school teachers study each summer here under the program. The fellowships may be held at several universities.

"These fellowships are for secondary school teachers who have had at least three years of teaching experience in science or mathematics and who wish to improve their competence as teachers by further graduate level work in science subject matter study during the summer," Loyd said. Work must be at the graduate level but

A&M's first half offense was spearheaded by Kempf. The 180-pound signal-caller displayed poise, quickness, and a fine passing arm. His rollout for 11 yards produced the game's first touchdown.

The key to Wog success in both halves was the blocking up front. Time and time again Purple backs rambled through gaping holes.

Coach Dick Johnson's Fish struck early in the second half. The Wogs held an 18-7 lead and their ace quarterback P. D. Shabay tried to pass deep in his own territory. Giant Fish tackle Howard Van Loon crashed through to deflect the ball and end Mac Smith intercepted it 23 yards from the goal line. He raced into the end zone untouched.

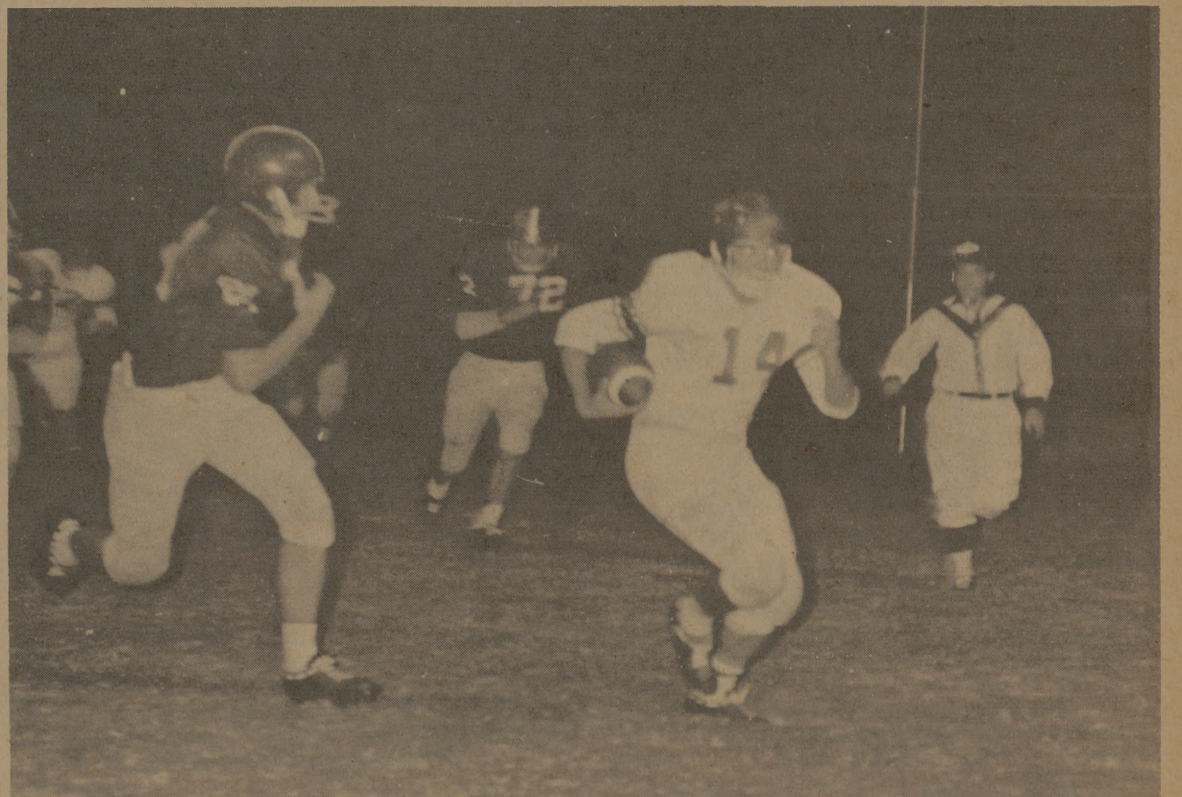

The game's most explosive play occurred with 6:45 left in the third quarter. Fish quarterback Gene Harvey fired a sideline pass to speedster Rusty Harris who shook off two Wogs and streaked in to paydirt.

Penalties and mistakes at crucial moments plagued the Fish all night. The game was wide open and a break or two could have easily reversed the outcome.

Center E. A. Gresham and Shabay were the mainstays for the Wogs.

Several Fish were highly impressive. Quarterbacks Kempf and Harvey both moved the ball club well. Harris was the fastest man on the field.

On defense, Van Loon, guard Jerry Brasuel, and linebacker Robert Cortez, all provided yeoman service.

IT'S BECOMING A HABIT

C-S United Chest Still Behind Goal

With two days left to achieve the \$19,000 goal, the College Station United Chest fund campaign had raised \$14,620 Wednesday.

The receipts represented 77 percent of the goal and meant that \$4,380 must be pledged or contributed Thursday and Friday to achieve success in the 10-day drive.

R. L. Hunt Jr., campaign director, urged that the volunteer workers "put on the steam" the remaining days.

"We'll make it," he assured, "but we must work every moment available through Friday."

Chest leaders appealed to community residents to "rise to the occasion and meet our obligations to the 15 agencies serving our people."

A big boost toward the \$19,000 goal came from all federal agencies which exceeded last year's contributions. Eight Texas A&M departments also surpassed their 1963 gifts.

The Agricultural Stabilization and Conservation Service set the standard for giving with all of its 86 employees contributing. This is the largest single unit reporting 100 percent participation.

The community of College Station continues to fall behind the University in support of the United Chest which backs 15 agencies. However, 100 percent units were reported from both the campus and community. All employees of the Fidelity Union Life Insurance Company and the Aggeland Studio gave one day's pay to the campaign.

Pre-Game Fete Planned In LA

A&M supporters attending the A&M-USC game Oct. 10 have been invited to a dinner in Los Angeles from 5-7 p.m. that day.

The dinner will be held in Roger Young Auditorium, 936 W. Washington Blvd. Tickets to the event are \$4.50.

Reservations may be made by calling or writing John C. Gregson, '59, at 1827 Beacon, Anaheim, Calif., area code 714, telephone number 772-2669, or Harvey Lynn, '42, 3218 Colby, Los Angeles, area code 213, EX 1-8563.

Graduate Council Plans Banquet

The graduate students are planning a banquet Friday as part of the expanding program of the Graduate Student Council, president Herb Ernest announced.

The banquet is one of several activities of the less than year-old council organized as an advisory group and to plan social events. Ernst said it is hoped the banquet will become an annual event.

University officials and graduate faculty will join graduate students and their wives for the 7:30 p.m. banquet in the Memorial Student Center. The humorous and inspirational Houston minister, the Rev. W. P. Deatherage, will be the speaker. He is pastor of the Second Christian Church, Houston.

Banquet tickets for \$3 each may be obtained by mailing a check to the Graduate Student Council, MSC, Box 209, O'Brien said.

Junior College Press Association Officers left to right, Mary Streetman, secretary-treasurer; Linda Tipton, parliamentarian, and Larna Gregory, president, from the Victoria college, and Bruce Robertson, vice president from Texarkana Junior College.

Barry's Voting Record Slammed By Humphrey

By The Associated Press
clared Wednesday night that Sen. Barry Goldwater's record in Congress shows he is "neither a Republican nor a conservative."

This record, Humphrey said at an outdoor rally in Ashtabula, Ohio, has found the Republican presidential nominee voting against his party's position on every one of 25 major issues adopted in the GOP platform in 1960.

Goldwater "is a radical, not a conservative and he'd rather be right than Republican, at least as far as the 1960 platform defined the policies of the party," Humphrey said.

"Radical Goldwaterism does not equate with responsible Republicanism. The Goldwaterites have, in short, kidnapped the conservative tradition but are using it to mask a radical assault upon the very fabric of the American community."

Goldwater hammered hard Wednesday for morality in government and law and order in the streets, pledging personal leadership in a war on crime.

The Republican presidential candidate stressed these twin themes as he stumped for votes in New Jersey, lashing out also at the growing concentration of power in Washington.

He rapped President Lyndon B. Johnson for slogans saying: "We have heard of and seen many wars in the time of the present administration. But have we yet heard of the only needed war—the war against crime?"

President Johnson said Wednesday he is going to ask for improvements in the Social Security law and "maybe sooner than you think."

The President dropped this remark to a crowd at Peoria, Ill. Later he told reporters who asked about it, "I meant just what I said."

"After Jan. 3?" a reporter inquired. "I didn't say that," the President replied.

Johnson said he considers improvement of the Social Security

program a matter of highest priority.

He declared in the corn belt earlier in the day that there are those in the land whose policies would wreck and bankrupt the Social Security system and one farmer out of every five.

Johnson hammered away on bread basket and pocketbook issues, on peace, prosperity and responsibility—and on Republican presidential nominee Barry Goldwater, but not by name.

Dr. Jan Stecki, Polish theoretical chemist, will speak at 4 p.m. Thursday to the Department of Chemistry's Faculty Colloquium in 231 Chemistry Building. The visiting scientist who returns to Warsaw Oct. 15 will be heard instead of the scheduled lecture by Dr. Angela Kust, a postdoctoral fellow, C. Kinney Hancock, colloquium chairman, announced.

Dr. Stecki's topic is "Molecular Approach to Ionic Solvation."

A member of the National Academy of Sciences, Warsaw, he has been on the Rice University campus during an extended visit to this country.

The program with Dr. Kust will be held later, Dr. Hancock said.

A member of the National Academy of Sciences, Warsaw, he has been on the Rice University campus during an extended visit to this country.

The program with Dr. Kust will be held later, Dr. Hancock said.

NSF Summer Fellowships Open For Graduate Study

The National Science Foundation again will offer summer fellowships for secondary school teachers of science and mathematics providing for up to three summers of individual study at the graduate level, C. M. Loyd, campus NSF coordinator, announced.

A number of Texas high school teachers study each summer here under the program. The fellowships may be held at several universities.

"These fellowships are for secondary school teachers who have had at least three years of teaching experience in science or mathematics and who wish to improve their competence as teachers by further graduate level work in science subject matter study during the summer," Loyd said. Work must be at the graduate level but

need not lead to an advanced degree.

The basic stipend is \$85 for each week of tenure, plus allowances for fees, travel and dependents.

Application materials may be obtained by writing to the NSF Secondary School Teacher Fellowships, American Association for the Advancement of Science, 1515 Massachusetts Avenue, N.W., Washington, D.C. Applications must be made by Jan. 8.

The World at a Glance

By The Associated Press
International

SAIGON, South Viet Nam—Communist Viet Cong gunners shot down three U. S. Army aircraft Wednesday and all the six men aboard one—a helicopter felled in flames—are presumed to have perished. The crewmen of the others survived.

MOSCOW—The government newspaper Izvestia described as a comedy of errors Wednesday the Siberian trip by four Western military attaches accused of spying.

CAIRO—President Kwame Nkrumah of Ghana proposed Wednesday that an African peace force be sent to pacify the Congo, whose premier, Moise Tshombe, has been barred from the conference of nonaligned nations here and is under house arrest in a Cairo suburb.

National

UNITED NATIONS, N. Y.—Three more countries Wednesday ratified U. N. Charter amendments to enlarge the Security Council from 11 to 15 and the Economic and Social Council from 18 to 27 members.

WASHINGTON—The West German government reportedly is pressing the United States to nail down a NATO nuclear fleet agreement by the end

of this year. Germany evidently is prepared to act without participation of other allies.

WASHINGTON—President Johnson signed Wednesday the \$3.25-billion foreign aid appropriation bill to provide money for the program in the 1965 fiscal year.

UNITED NATIONS, N. Y.—Premier Khrushchev and President Johnson may appear at the U. N. General Assembly session that starts Nov. 10—and pull in leaders of other nations, official U. N. sources said Wednesday.

NEW ORLEANS—Hurricane Hilda's rampage through Louisiana's billion-dollar off-shore oil fields was the most costly in the industry's history, a check showed Wednesday.

Texas

EL PASO—Two El Paso men wanted in the seizure of more than \$200,000 in arms near the Mexican border Tuesday failed to show up for their arraignment Wednesday.

AUSTIN—The State Supreme Court opened its 1964-65 term Wednesday with an even 100 decisions, among them one denying a state bar request to seek to prevent Melvin Belli from practicing law in Texas again.
