

A&M Student, Prof To Present Papers In Salt Lake City

An A&M associate professor and a doctoral student will present technical papers in Salt Lake City during the National Conference on Micrometeorology of the American Meteorological Society.

The papers by Dr. Aylmer H. Thompson and James J. O'Brien will be presented during a session devoted to wind and wind profiles.

Thompson's paper entitled "Some Remarks on the Generation of Mountain Breezes" stems from his earlier residence in the Salt Lake City area. In his paper he compares behavior of the wind during the afternoon and night near the mouth of Red Butte Canyon in Utah with similar observations from the European Alps.

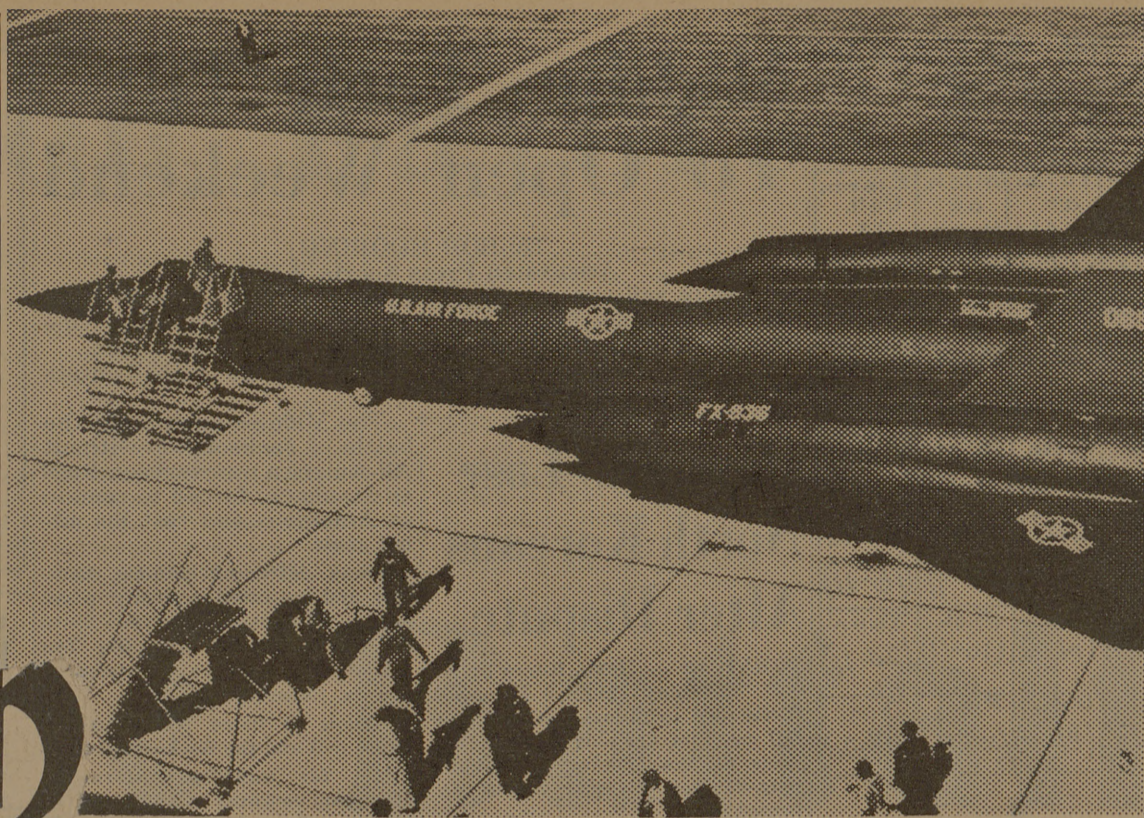

O'Brien's paper is based upon research for his master's thesis. He received the degree from A&M last May and has begun doctoral studies in meteorology as a National Aeronautics and Space Administration trainee.

Grad Lecture Hosts UT Prof

An A&M Graduate Lecture concerning the new literatures in English as they have emerged in New Zealand, Australia, Canada and South Africa will be heard at 8 p.m. Tuesday in the Architecture Building Auditorium. Graduate Dean Wayne C. Hall announced the lecture titled "The Lost Tribes of English" will be given by Dr. Joseph Jones of the University of Texas English faculty.

Jones first became aware of significant literary developments in New Zealand while there in 1953 as a Fulbright Lecturer. He has since spent several months in Australia and in 1960 was Smith-Mundt Lecturer at the University of Cape Town in South Africa.

Secret Interceptor top secret YF12A interceptor, capable of flying three times the speed of sound (2000 m.p.h.), stands on a ramp at Edwards Air Force Base, Calif., in its first public appearance.

Rayweed is at its worst in the so-called dog days, when the "dog star" Sirius rises with the sun.

Sports Viewing Scheduled For Weekend On MSC TV

Sports-minded Aggies will have well-filled free menu Saturday at the Memorial Student Center.

The World Series will start on television at 10:45 a.m., spotlighting the New York Yankees and the St. Louis Cardinals at Yankee Stadium.

Kickoff time for the Texas-Oklahoma football game is 2 p.m. Barring technical difficulties the Olympic Games will be on TV, starting at 5 p.m.

Highlight of the evening will be the radio broadcast of the Aggie football game with the University of Southern California in Los Angeles, starting at 8:45 p.m., local time.

The color television set will be set up in the Social Room. Seating there, as in all rooms, will be on a first come, first served basis.

Other TV sets and seats will be available in the Assembly Room, Ballroom, Fountain Room, and Bowling and Billiards Room. Altogether, approximately 400 people can be seated.

Terry Oddson, president of the sponsoring MSC Directorate commented, "We are glad to have the opportunity to provide facilities to watch and listen to these sports activities."

Wife Volunteer Assist State Fair

A&M will participate in staging the Wildlife and Recreation Show at the 1964 State Fair of Texas, Oct. 10-25 in the Agriculture Building.

A&M personnel worked with the Texas Parks and Wildlife Department and State Fair officials in planning the show which features hunting, fishing and camping, as well as live game and predatory mammals, fish, birds and snakes in native habitat cages.

The free Wildlife and Recreation Show will consist of six sections—a large central exhibit of wild animals, four corner booths devoted to hunting, fishing, camping and A&M services, and a stage display of major crops of Texas farms and ranches.

Featured in the wildlife exhibit will be mammals and marsupials, such as puma, badger, ringtail, skunk, fox, javelina, porcupine,

deer, antelope, bobcat, nutria, skunk, mink, ferret, raccoon, armadillo and opossum.

Fish in the exhibit will include bass, crappie, panfish, catfish, carp, buffalo, gar and other species.

Among the living birds on display will be hawks, owls, doves, ducks, geese, quail, chachalca, roadrunners, wild turkey and eagles.

The central exhibit will be supervised by Harley H. Berg, Texas game warden, who has been in charge of the Department's wildlife, conservation and educational exhibits since 1935.

Hunting, fishing and camping booths will provide sportsmen with information on where game species and camp sites may be found within the state and along the coast. They will stress the urgency of conservation in assuring game and recreational resources for future generations.

WATCH FOR THE SIGNS

Mike was lucky! He lost his way completely along the thickly-wooded roads during his vacation last summer until suddenly he came upon a small service station. The friendly attendant told him he was only a short distance from the lake. "Just watch for the signs," the man said.

It's easy to get lost . . . it could happen to anyone. At times, our lives get so confused that we don't know which way to turn, and we feel that nobody cares. When that happens, just watch for the signs.

What signs? Well, there's the fragrant beauty of a rose, the laugh of a child, the glory of sunrise, the sound of great music . . . signs all around that point to the constant presence of God who loves us.

The Christian Church is the most important sign of all . . . created solely to reveal a new and meaningful way of life to all who seek it.

THE CHURCH FOR ALL - ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and read your Bible daily.
