

AMONG THE PROFS

Biometeorologist Author Will Speak To Graduates

Dr. S. W. Tromp, outstanding biometeorologist from the Netherlands will present a Graduate Lecture at 3 p.m. Monday in Room 321 of the Physics Building.

Tromp has spent many years in biometeorological research. He is

author of the recently published "Medical Biometeorology," founded the International Society of Biometeorology in 1956 and since then has been secretary-general of the society. He is also a secretary of the World Academy of Art and Science.

The Dutch scientist is visiting this country on a lecture tour and meeting with fellow workers in biometeorology.

Dr. Earl H. Knebel of the Department of Agriculture Education will present a program for

Group pictures of the Staffs will be taken according to the schedule listed below. Staffs will assemble in front of the M.S.C. on appropriate day by 1715 hours.

The uniform will be Class A Winter with G.H. Hats. Style of uniform will be left to the discretion of the individual Staffs. However, uniformity must prevail.

Tues. Oct. 20 2nd Wing, 3rd & 4th Group
Wed. Oct. 21, Corps Staff, Band Staff

20-21 2nd Brigade, 3rd & 4th Bn. staffs
21-22 3rd Brigade, 5th & 6th Bn. staffs
22-23 1st Wing, 1st & 2nd Group staffs
26-27 2nd Wing, 3rd & 4th Group staffs, Comb. Band Staff

PICTURE SCHEDULE AGGIELAND '65

Outfit pictures for the AGGIELAND will be made according to the schedule below.

Uniform will be class A Winter. Outfit C.O.'s will wear sabers; seniors will wear boots. Like jackets may be worn if all seniors in the outfit can obtain them. Guidons and award flags will be carried. All personnel in the outfit will wear the billed service cap issued by the college. The type of cap worn by underclassmen to and from the picture taking area is left to the discretion of the outfit C.O.

Outfits should be in front of the Administration Building by 1230 hrs. on the appointed day. Arrangements should be made by first sergeants with the Mess Hall supervisors to allow the outfit to be admitted to the Mess Hall early.

October	20 - Sqd 11, Sqd 12
	21 - Sqd 13, Sqd 14
	22 - Sqd 15, Sqd 16
	23 - Sqd 17, Sqd 18
	26 - M-Band, W-Band

Prof To End A&M Career Of 50 Years

Charles W. Crawford, professor of mechanical engineering here could well be described as a man who came for breakfast and stayed around for a midnight snack.

A native of Brazos County, Crawford joined the A&M faculty in 1919 as an instructor in mechanical engineering. He intended to stay only a couple of years to help his family living in Bryan.

Crawford had worked for several months as a surveyor for the City of Port Arthur when E. J. Fermier offered him \$112.50 a month at A&M. He took it with the aim of returning to industry shortly.

Now, 45 years later, Crawford is in the midst of his 46th year here. He became head of the mechanical engineering department in 1929, the same year he earned a Masters degree. He held that post for 28 years before coming associate dean of engineering. In 1962 he returned to the mechanical engineering department as professor.

Counting four years as a student, Crawford will wind up half-a-century with A&M next June. He plans to retire at that time. Travel, civic and church work and "a little fishing" are on his agenda for the future. He is immediate past president of the Bryan Rotary Club.

Crawford was a member of the A&M Athletic Council for 10 years in the late 30s and early 40s. He was chairman of the council for two years.

His sister, now Mrs. L. B. Locke, is the only woman who has ever received a bachelor of science degree from A&M. She earned the degree in liberal arts in 1925, having been allowed to enroll because her brother was a faculty member.

His special interest in students helped him win the \$1,000 Con-vair Award last year for outstanding contributions to teaching engineering.

"Students have never hesitated to come to me when they needed help," he said. "I think it's good for morale when an instructor can help a man with a problem. It saves the student a lot of valuable time and makes him feel somebody cares."

Crawford favors large classes to conserve finances and aid students.

"In the early days, we had sections with 14 students," he pointed out. "The workload has increased through the years. Last year, for instance, I had 85 students in one section."

Crawford estimates that he has taught from 12,000 to 15,000 students. He has watched A&M grow from 1,200 students in 1915 to 8,200 at present.

Hammack High Point Man In Wool Judging Contest

Steve Hammack, junior at A&M, placed as the high individual in wool judging in the American Royal Livestock Show in Kansas City.

Hammack led the A&M wool judging team to a second place, only one point behind Kansas State. Hammack and Franklin Reagor of A&M tied for first place in judging 15 fleeces. H. N. (Rusty) Jones of A&M placed third in the contest.

The A&M team won the trophy for the most improved team in the wool contest.

The A&M livestock team placed sixth over all in the livestock contest.

The A&M livestock team tied for second place in judging Quarter horses; placed sixth in sheep; tenth in beef cattle; and tenth in swine.

Dolph Briscoe Jr., Uvalde Rancher and banker, will serve on a panel which will discuss "The Future of Beef" during the 13th annual Texas Farm and Ranch Credit School Nov. 11-13 at A&M.

The discussion will be moderated by Dr. John G. McNeely of the Department of Agricultural Economics and Sociology at A&M.

Other panel members are Dr. O. D. Butler, head of the A&M Department of Animal Husbandry; J. D. Sartwell of Houston's Port City Stockyards; and Virgil Reynolds, director of Merchandising for Weingarten's in Houston.

Briscoe was graduated from the University of Texas and served eight years in the State Legislature. In 1958 he was named one of five outstanding young Texans by the Texas Junior Chamber of Commerce.

He is a past president of the Texas and Southwestern Cattle Raisers Association and is a member of many professional associations.

The Class of '44 will hold their 20th anniversary reunion during the weekend of the A&M-Arkansas football game, announced Freddie Wolters of Bryan, a vice president.

Approximately 250 class members and their wives are expected to attend the reunion. Lt. Col. George O. Bolen of Chicopee, Mass. will be traveling the longest distance for the reunion.

Registration will be held from 1 p.m.-9 p.m. Oct. 30, in the Ballroom Lobby of the Ramada Inn and from 8:30 a.m. through the day Oct. 31.

A reception will be held in the Ramada Ballroom, following the football game.

Sixteen illustrations of Air Force activities around the world will be on public display Monday at the Memorial Student Center. The exhibition will be open from 7 a.m. to 11 p.m. daily until Nov. 7, a spokesman for the sponsoring Air Force Reserve Officer Training Corps announced.

The paintings done by well known professional illustrators, are from the Air Force Documentary Art Collection. The collection started in 1950 now totals 2,500 works tracing the development of the Air Force from its earliest days.

J. L. Murad, a graduate student studying biology at A&M, has recently been invited to present a paper and discussion before a colloquium to be held Nov. 5-7 at the University of Florida.

The colloquium is primarily concerned with the "Taxonomy of the Genus Diplogaster and Ecology of Nematodes in Waste Treatment and Surface Waters."

Nematodes are small cylindrical parasites of animals and plants. They are found freely in both air and water.

Murad's paper will be a preliminary report of his seven-month study of nematode population in the sludge beds at the sewage plant at A&M. It deals with the relationship of the nematode population to the temperature, moisture and biological oxygen demand.

Murad explains that his area of research is relatively new in the field of nematode study. He said that recent evidence shows that nematodes are carriers of human pathogenic bacteria. It has also been proven that nematodes are destroyed by chlorination processes.
