

Natural History Museum Features Guided Tours

The Junior Museum of Natural History on the third floor of the Brazos County Courthouse is now open to the general public on Saturdays.

Mrs. C. W. Simmons, vice chairman said, "The museum will remain open each Saturday from 10 to 11:30 a. m., with guided tours being conducted for the general public." Last Saturday was the first such

open date. The museum first opened May 26, 1962. For the past two years, tours of the exhibits have been conducted by appointment only. Most of the appointments have been made by high school and grade school classes, primarily science classes. Plans to keep the museum open on one of the weekdays are being given great consideration. CAMPUS BRIEFS

'Pinkie' Downs Announces Fruit For Veterans Project

Additional information about A&M's annual "Fruit Project" by Pinkie Downs for 1,200 patients at the Veterans Administration Hospital in Temple has been announced.

Aggies traditionally give apples and oranges from their campus Christmas dinner to the veterans. Approximately 4,000 apples and oranges are given in this manner. In addition, students from A&M Consolidated and Lincoln High Schools in College Station will contribute apples and oranges. Faculty - staff members at A&M and residents of College Station also are invited to add to the fruit collection.

Downs said after the Aggies' dinner Dec. 15, the fruit will be transferred to the Memorial Student Center Dec. 16, where all interested persons may add fruit throughout the day. The collection area will be east of the MSC Gift Shop.

A technical paper by two members of the Department of Oceanography and Meteorology will be presented Friday in San Diego, Calif. The authors are Roy D. Gaul and Al Kirst.

Kirst, a research engineer, will present the paper to a symposium on automated data handling in oceanography. Sponsoring the symposium are the Office of Naval Research and the Navy Security Industrial Association.

The Pan American Club will hold its traditional Christmas banquet at 7:30 p. m. Saturday in Clayton's Restaurant, said Jorge Inchausta, president.

Dr. M. T. Harrington, chancellor of the A&M System, will be presented an honorary member certificate and Dr. G. M. Watkins, director of agricultural instruction, will receive an honorary adviser certificate, he said.

Approximately 10 members of the Mexican delegation to SCONA will also be present at the banquet, Inchausta said.

Rodeo Club members are now ready to accept contributions to the Warm Springs Rehabilitation Center at Gonzales.

Sponsor, Bill Jackson said, "We have had the tickets for some time now but have been unable to get the tickets to the boys. Now we are ready to go

to work accepting contributions."

Dr. Melvin Eisner of the Department of Physics announced Monday the arrival of a new 500 megawatt giant-pulse ruby LASER.

Purchased from the Korad Corporation at a cost of \$20,000, the LASER is the largest of three now being used here. Its original cost was \$30,000, but members of the department built many of the components necessary for its operation, thus cutting the cost considerably.

JUST CARS?

Chemists Get New Instrument

The National Science Foundation has granted \$37,600 to A&M for purchase of an advanced electronic instrument which will expand significantly the chemistry department's facilities, President Earl Rudder announced.

The new instrument is useful in probing molecules with an uneven number of electrons and produces "fingerprints," peaks of intensity recorded electronically. Formal name of the instrument is an elec-

tron paramagnetic resonance spectrometer.

A nuclear magnetic resonance instrument, also valuable in studying nuclei, has been in use at A&M for three years.

A&M may be the only university in Texas to have both instruments used for spectroscopy, Rudder pointed out. This is the study of the spectra produced by the mole-

TEXAS A&M RING ORDERS
Undergraduate students who have 95 semester hours of credit and two semesters of residence at Texas A&M may purchase the A&M Ring. Hours passed at the time of the preliminary grade report on November 9, 1964, may be used in satisfying the requirements. Those students qualifying under this plan may leave their names with the ring clerk in the Registrar's Office. She will then check their records to determine their eligibility to order the ring. Orders for the rings will be taken November 18 through November 25, and December 7, 1964, through January 6, 1965. These rings will not be delivered before February 16, 1965. The ring clerk is on duty in the Registrar's Office Monday through Friday from 8:00 to 12:00 noon.

Regalia For The January 1965 Commencement Exercise
All students who are candidates for the degree of Doctor of Philosophy are required to order hoods as well as the Doctor's caps and gowns. The hoods are to be left in the Registrar's Office no later than 1:00 p. m. Tuesday, January 12 (this will be accomplished by a representative of the University Exchange Store). The Ph.D. hoods will not be worn in the procession since all such candidates will be hooded on the stage as part of the ceremony. Candidates for the Master's Degree will wear the cap and gown; all civilian students who are candidates for the Bachelor's Degree will wear the cap and gown; ROTC students who are candidates for the Bachelor's Degree will wear the appropriate uniform. All military personnel who are candidates for the degrees, graduate or undergraduate, will wear the uniform only. Rental of caps and gowns may be arranged with the Exchange Store. Orders may be placed between 8:00 a. m. Monday, December 14 and 12:00 noon, Saturday, January 9. The rental is as follows: Doctor's cap and gown \$5.25, Master's cap and gown \$4.75, Bachelor's cap and gown \$3.25. Hood rental is the same as that for the cap and gown. A 2% sales tax is required in addition to these rentals. Payment is required at the time of placing order.
C. E. Fisher, Chairman Conventions Committee 11311f

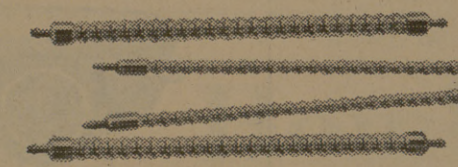

We can show you 5 of the 6 reasons this cordless shaver costs a bit more.

Big shaver head. Riddled with 756 slots. Once a whisker goes through, good-bye. It's through.

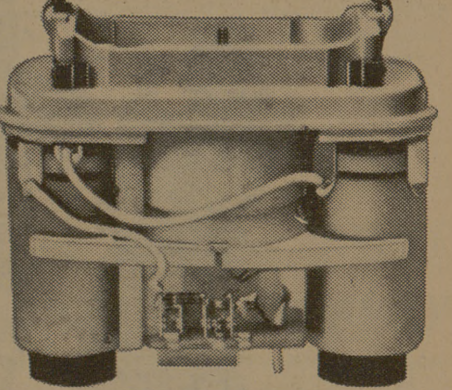

348 cutting edges. Sharp. Stay sharp because they're honed of surgical high-carbon steel.

4 Roller Combs. Adjust to every kind of skin and beard. Gently roll skin down, pop whiskers into the cutter.

Hidden under the head case, a straight cutting edge for clean, even sideburns. Neat.

Most powerful motor in shaving. Never a slowdown on straightways or tricky curves. Fast.

The 6th is invisible.

The **REMINGTON® LECTRONIC II** SHAVER is cordless. Runs on built-in rechargeable energy cells. (Also works with a cord, if you forget to recharge.) Shave upstairs. Downstairs. On the stairs. Freedom is this shaver's middle name.

Freedom alone would make the LECTRONIC II worth a little more. The other 5 parts? Strictly bonus.
