

Among The Profs

Louis Maneely Added To A&M Extension Staff

Louis Maneely, an industrial training leader in the Big Spring school system for 13 years, has joined the teacher training division of the Texas A&M Engineering Extension Service.

Maneely will specialize in industrial cooperative training.

A native of Ohio, Maneely earned a B. A. degree at Texas Western University and a M.Ed. degree from Texas Tech.

Maneely has been coordinator of the ICT program at Big Spring since 1959. Earlier, he taught industrial arts in the system. Other teaching experience includes a two-year stint at Levelland.

The new staff member served ten years in the Army, attaining the rank of staff sergeant as an automobile mechanic. He is a member of the American Vocational Association, Iota Lambda Sigma, Texas State Teachers Association, Texas Classroom Teachers Association, and the National Education Association.

Maneely's wife and daughter, Cynthia Lou, 15, will move to College Station later. They are Methodists.

Furr, Horn Combine For Magazine Article

Texas A&M research dealing with concrete is covered in an article in the current issue of "Consulting Engineer."

Under the title "Preventing Moisture and Weather Damage to Concrete," Dr. Howard L. Furr and Louis J. Horn of the Texas Transportation Institute describe treatments to protect bridge railings and decks from damage in inclement weather. The research was supervised by Furr.

Flinchum, McLean Join Ag Experiment Station

The Texas Agricultural Experiment Station has two new researchers on its staff — Dr. Wayne T. Flinchum of North Carolina and Dr. Gordon W. McLean of Vermont.

Flinchum has joined the Rice-Pasture Research and Extension Center near Beaumont, and McLean has been assigned to the Livestock and Forage Research Center at McGregor.

Earle Writes Book On E. G. Problems

Dr. James H. Earle, associate professor of engineering graphics, is co-author of a new textbook, "Design and Engineering Graphics Problems."

Earle and W. E. Street, professor of engineering drawing at Louisiana State University and former head of the graphics department here, wrote the introduction to engineering problems which can be solved graphically.

The book has been adopted for use at A&M and LSU and several other Texas colleges, Earle noted.

The work is the second publishing venture for Earle and Street. Last spring in conjunction with Samuel Cleland, also an A&M graphics professor, they issued a manual for high school mechanical drawing students.

Knebel To Address Area 7 Ag Teachers

Area 7 high school vocational agriculture teachers will get pointers on conducting occupational surveys Wednesday in San Antonio from Dr. Earl Knebel, head of the Texas A&M University Department of Agricultural Education. Program time is 4 p.m. at Luby's Cafeteria in the McCraless Shopping Center.

CS Girl Scouts Meet Thursday

The College Station Neighborhood Association of the Girl Scouts will meet in St. Thomas Chapel at 9:30 a.m. Thursday.

A slate of officers will be presented.

A job training program will be held for all new leaders in the Girl Scout Little House, 2512 Rountree Drive, Bryan, on Oct. 12, 14 and 19.

Elizabeth Kucera is the daughter of Mr. and Mrs. Peter F. Kucera of 717 E. 28th Street, Bryan.

After graduating from high school, she enrolled for shorthand and typewriting at McKenzie-Baldwin Business College and is now employed as cashier at the Bryan Building & Loan Association.

Claire Luther is the wife of Mr. Joseph E. Luther of Bryan and the daughter of Mrs. C. H. Galloway of this city.

Claire is employed at the Woodson Lumber Company as assistant bookkeeper. She enrolled for the Accounting course at McKenzie-Baldwin Business College.

Charlotte Fuchs, daughter of Mr. and Mrs. Francis J. Fuchs, 3801 Old Hearne Rd., Bryan, is a graduate of Stephen F. Austin High School and also received the Scholarship award from the Bryan and College Station Professional Woman's Club to McKenzie-Baldwin Business College.

Charlotte received her diploma successfully completing the Secretarial Course and is now employed at the Corbusier Chevrolet Company.

Adv.

Dr. Tom Reynolds To Present Papers

Dr. Tom D. Reynolds, assistant professor of civil engineering at Texas A&M will give papers Wednesday in Albuquerque, N. M., and Saturday in Fort Worth.

"Design Parameters for the Completely-Mixed Activated Sludge Process" is the title of his paper for the Rocky Mountain Water Pollution Control Association in Albuquerque.

Reynold's Fort Worth presentation, "A Mathematical Model for the Completely-Mixed Activated Sludge Process," will be to the Texas Section, American Society of Civil Engineers.

Area 6 Teachers To Hear Sorensen

Area 6 high school vocational agriculture teachers will attend three meetings on pregnancy testing of cattle in Naples, Grand Saline and Deport.

Dr. A. M. Sorensen, Head of the Physiology of Reproduction Laboratory in the Texas A&M Department of Animal Science, will speak. Program time for each meeting is 3:30 p.m.

Wortham To Speak At Technical Meets

Dr. A. W. Wortham, head of the Department of Industrial Engineering, will address the annual technical meeting of the American Institute of Chemical Engineers in Houston Oct. 22.

His topic will be "Optimization — Principles, Concepts, and Methods," setting the theme for the session on "Optimization."

Wortham also will address the Fort Worth Chapter of the National Association of Accountants October 21. His topic will be "Statistical Methods for Quality and Cost Control."

His talk will cover the recent developments in statistical quality control and define new techniques for statistical cost control and development of statistical cost models.

Bulletin Board

TUESDAY

Agricultural Education Wives' Club will meet at 7:30 p.m. at 3108 Green St. in Bryan. "Operation Headstart" will be discussed.

Agricultural Economics Club will meet at 5 p.m. in Hensel Park, Area No. 2, for a special picnic honoring freshmen.

English Society will meet at 7:30 p.m. in Room 3-C of the Memorial Student Center.

WEDNESDAY

New Camera Club will meet at 9:30 a.m. in the Social Room in the MSC.

Aerospace Wives' Club will meet from 8 a.m. until noon in front of the Exchange Store. A "bake sale" will be held.

Aggie Wives' Bridge Club will meet at 7:30 p.m. in the MSC.

Knight of Columbus Council 3205 of College Station will meet at 8:15 p.m. in St. Mary's Catholic Student Center. The regular monthly business meeting.

THURSDAY

Houston Hometown Club will meet after yell practice in Room 202 Francis Hall. Corps party after Rice game will be discussed.

Bay Area Hometown Club will meet after yell practice in Room 106 of Academic Building.

M. D. SHELBY

Highway Official Joins A&M Staff In Transportation

M. D. Shelby, research engineer of the Texas Highway Department, will join the staff of Texas A&M Dec. 1.

Shelby, retiring from the Highway Department after 34 years, will assume responsibilities as a research engineer with the Texas Transportation Institute.

He will work in all phases of highway research, involving planning, design, maintenance, construction and operations, TTI Executive Officer Charles J. Keese said.

The addition of Shelby "will be extremely valuable to the TTI research programs," Keese said, "not only in planning and executing research but in translating the results for more immediate application in the field."

Shelby is an engineering graduate of the University of Texas. His Highway Department career includes 17 years experience in location, design and construction work in Austin, San Antonio, Pharr and Brownwood districts in jobs ranging from roadman to senior resident engineer.

In 1947, he was assigned to the Bridge Division and served eight years as senior design engineer and senior soils engineer overseeing structure foundation work throughout the state.

He has been research engineer and executive secretary of the Research and Development Committee of the Department and was responsible for development of highway base and pavement design techniques.

Campus Briefs

Temple VA Hospital Patients To Be Honored Oct. 23

Thirty-five patients from the Veterans Administration Center at Temple will be guests of Texas A&M for the Oct. 23 football clash between the Aggies and Baylor.

P. L. (Pinkie) Downs Jr., official greeter for A&M, said this will mark the 20th year A&M has hosted the veterans for a football game.

The guests will sit in reserved seats along cinder path on the west side of Kyle Field. They will also be guests of the university for noon and evening meals in Duncan dining hall.

Harley D. Mitchell, chief of recreation for the VA Center, said Mrs. Margaret Wade will be trip supervisor.

President Earl Rudder will welcome the visitors during the game.

First Year Vets Elect New Officers

The first year class officers for the first trimester of the Veterinary Medicine College were elected recently.

John Tyler was elected president, and Ken Love vice president. Secretary - treasurer is Kirby Warren and the new reporter is Slim Dunavant. Gary Gosney is the new Sergeant-at-arms, and Joe Joyce was voted parliamentarian.

A.V.M.A. council members are Doug Matthews and Joe Wright.

Aggie Wives Club Elects Officers

In a recent meeting, the Aggie Wives club elected officers for the coming year. The Presidential spot will be filled by Litha Baston, with Martha Bryd assisting her as vice-president. Cissy Linder was chosen secretary, while Sandra Lewis manages the club finances as treasurer.

Reporting duties will be handled by Linda Prijean, with Suzanne McPherson representing the Aggie wives Council.

Experiment Station Gets Research Grants

Three research grants totaling \$2,700 have been made available to the Texas Agricultural

Experiment Station, Dr. R. E. Paterson, station director, has announced.

Largest of the three grants is \$1,200 from the East Texas Poultry Industry for studies at the East Texas Poultry Disease Investigations Laboratory at Center. Dr. R. L. Clifford is supervisor.

Grant contributors are Herdier Farms, Ralston Purina Company, Rite Care Corporation and Southern Feed Company, all of Center, and Arbor Acres Farm of Texas at Tenaha.

The Rob and Bessie Welder Wildlife Foundation near Sinton has provided \$1,000 for a partial scholarship to support a doctoral student working on grasses at the foundation. Dr. F. W. Gould of the Texas A&M Range Science Department is project supervisor.

A grant of \$500 is from the Chipman Chemical Company of Pasadena for studies on control of bindweed in Texas. Dr. A. F. Wiese of the Southwestern Great Plains Research Center at Bushland is directing the research.

News Briefs

Pope Returns Home From American Trip

ROME — Pope Paul VI came home today from the papacy's first transatlantic pilgrimage, a day-long mission of world peace and brotherhood.

With a "God bless you all!" Pope Paul VI left New York Monday for his "spiritual city" at the end of his history-making bid for peace in the "terrestrial city" of men and their governments.

Viet Cong Surprise American Army Unit

SAIGON — A Viet Cong force ambushed a small U.S. Army unit 15 miles northeast of Saigon today and killed or wounded every American, a U.S. military spokesman announced.

Another U.S. Army patrol heard the shooting and rushed to the scene but the Viet Cong had fled. Two guerrillas were reported killed.

The patrol unit that was ambushed from the 1st Infantry Division, was made up of less than 12 men, the spokesman said, but the exact number was not given.

Three other Americans were killed in air missions inside South Viet Nam, the spokesman said.

Police Arrest Rioting Negroes

NATCHEZ, Miss. — Police ar-

rested 106 marching, shouting young Negroes Monday night, then brought back their leader to help control other Negroes who pushed toward some 150 heckling whites.

Negroes filled the street when officers loaded a bus with arrested demonstrators. They shook their fists and yelled to police: "Get those klansmen out of there."

Among the whites who had gathered a half block from a Negro church, where the march started, was E. L. McDaniel of Natchez, Mississippi, grand dragon of the United Klans of America.

Army Private Faces Courtmartial Today

SAN ANTONIO — Pfc. Winston Belton, 26, accused of refusing to eat so he would not be healthy enough for duty in Viet Nam, faced a general courtmartial today at Ft. Sam Houston.

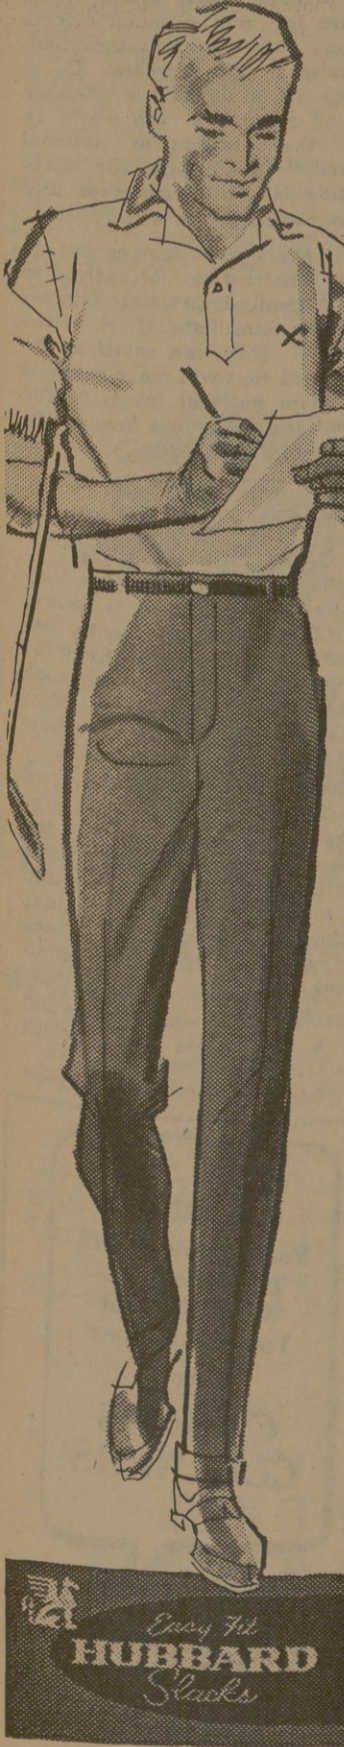

The Milwaukee, Wis., Negro is charged with malingering and disobeying an order to eat. Conviction could mean 12 years at hard labor and dishonorable discharge.

The Army charges that Belton protested his assignment to Viet Nam shortly after he arrived Aug. 11 at Ft. Benning, Ga., from Ft. Hood, Tex., by going on a hunger strike and eating nothing for six days.

The most walked about slacks on Campus are HUBBARD slacks with "DACRON"

Great Hubbard styling with the lasting neatness and care-free comfort of "Dacron", in these slacks of 55% Dacron* polyester, 45% worsted wool. Styled in traditional Classic and Gay Blade plain front models, in all the favorite colors, at better stores everywhere. Also available in blends of 70% Orlon* acrylic, 30% worsted wool, or "Dacron" with "Orlon".

Looking for a good-fitting job?

Ready to debut as a practicing engineer? See how LTV can help find the field you're cut out for. Your whole career benefits when you start with the right job.

Want Recognition?

LTV recognizes the young engineer from the start. Besides the satisfaction of working on top-priority projects, you'll be given the opportunity to work toward advanced degrees through company-sponsored programs.

la-de-da snooty affairs

Like to ask us some questions?

We're ready to talk, engineers — about any question you ask. Training programs. Research facilities. Company sales. Current projects and plans for the future. And you.

If you're looking for a career of exciting growth and accomplishment, you're also looking for a company with the same qualities. Here at LTV Aerospace Corporation, young engineers and the company are growing in the fields of aircraft, missiles, space, surface vehicles and range services. Assignments are diversified, too. They include such areas as: aerodynamics • avionics and instrumentation • dynamics • systems design • propulsion • stress analysis • communications design • technical administration... and others.

For complete information about a career with LTV, consult your Placement Office, then schedule an appointment with our representative. Or write College Relations Office, LTV Aerospace Corporation, P. O. Box 5907, Dallas, Texas 75222. LTV Aerospace Corporation is an equal opportunity employer.
