**UNITED CHEST DRIVE BEGINS**  
 Members of Alpha Phi Omega service fraternity erect the first sign for the College Station United Chest drive that opened Monday. Workers from left are Roland Dunkerly, Louis Dowd, Eugene Pollard, Bill Bammel, Tom Richmond, Louis Sabayrac and Bill Faulkner.

**United Fund Drive Begins Campaign**

United Chest workers fanned out over College Station Monday in quest of \$20,000, the goal for the annual campaign.  
 "The organization is set and the tools are ready for the 10-day drive," Campaign Director Clark Munroe assured. "Community interest is high and campaign leaders appear confident the goal will be reached in record time."  
 The volunteers will complete their lists of prospective contributors as soon as possible, Munroe said.  
 "And we ask for an immediate response in meeting the needs of 17 agencies," Munroe continued.

**CAMPUS INTERVIEWS ENGINEERS**

**All Majors - BS & MS Level**  
 With the ever expanding career opportunities in industry today we seek to maintain an effective organization by offering an engineering program that covers a broad area of engineering with emphasis on training for supervisory and management positions.  
 Our training program is designed to provide challenging opportunity for the graduate engineer to develop to his utmost capabilities.

 Headquarters - Ponca City, Okla.  
 A Subsidiary of Continental Oil Co.  
 An Equal Opportunity Employer

**Enrollment Jumps In A&M Schools**

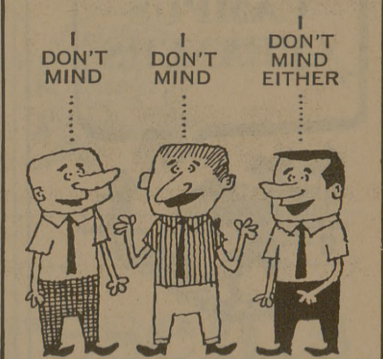

Enrollment in the A&M Independent School District stands at 2,096, an increase of 112 over last year, according to Supt. Schools W. T. Riedel.  
 The figures include enrollment at College Hills Elementary, the A&M Consolidated Schools and the Lincoln Schools.  
 Enrollment totals at A&M Consolidated, including the elementary, junior and senior high schools, currently totals 1,549, an increase of 222 over last year's marks.

**Lomax Folklore Society Plans Record Cutting, Fall Concert**

The Lomax Folklore Society, which holds its first meeting Tuesday night, has scheduled an ambitious year of projects.  
 Among them are the cutting of two records of folksong collections, an indexing of present archive holdings of songs and instruments and a fall concert.  
 Plans for these projects will be discussed at the group's initial meeting, scheduled for 7:30 p.m. in Room 306 of the Academic Building.  
 The public is invited to the meeting.  
 In addition, a formal program, the election of all officers except president, and an informal singing are on tap.  
 Bill Kook, president of the organization, will discuss the summer he recently spent collecting folk material in the Brazos Bottoms on a University of Texas fellowship.  
 "Folksongs of Texas" and "Folksongs of Many Lands" are the titles of the records which are slated for production later in the year.  
 Another activity of the group will be the presentation of programs at various times for other campus groups.  
 Nationally known folk singer Mance Lipscomb, a native of Navasota, was brought to A&M last year by the society.  
 Faculty adviser for the organization is Dr. John Q. Anderson, head of the A&M English Department. Anderson, a noted folklore authority, initiated the folklore class which the English department presently offers.  
 The group is named after John Avery Lomax, an early 20th-century folklore collector who began his career as an A&M faculty member.

**Juco Press Meet Slated Oct. 18-19**

The 13th annual Texas Junior College Press Association Conference, scheduled for Oct. 18-19 in the Memorial Student Center, with 18 schools to attend, will be the largest such conference ever held here.  
 Ted Rozumalski, national prize-winning photographer from the Houston Chronicle, and Mickey Herskowitz, sports editor from the Houston Post, will be among the speakers for the conference.  
 Rozumalski will lecture Monday on "How to Take Better Pictures." Miss Peggy Simpson, from the Dallas Associated Press, will speak on "Where to Find Feature Ideas."  
 That afternoon, Herskowitz will discuss "How to Put Together a Good Sports Page." Miss Larina Gregory, TJCPA president, will speak on "Editorials: What Do We Write About and What Do We Say?"  
 Dr. David R. Bowers, TJCPA director and journalism faculty member, will present awards at concluding ceremonies Oct. 19. The conference will adjourn that afternoon.  
 Junior colleges that will attend the conference are South Texas, Paris, Texarkana, San Antonio, Southwest Texas, Wharton Lee, Del Mar, San Jacinto, Allen Academy, Tyler, Grayson, Howard, Victoria, Cisco, Navarro and Odessa.

**Engineers and Scientists: Let's talk about a career at Boeing... 50-year leader in aerospace technology**  
**Campus Interviews Monday and Tuesday, October 25 and 26**

The most effective way to evaluate a company in terms of its potential for dynamic career growth is to examine its past record, its current status, and its prospects and planning for the future, together with the professional climate it offers for the development of your individual capabilities.  
 Boeing, which in 1966 celebrates 50 years of unmatched aircraft innovation and production, offers you career opportunities as diverse as its extensive and varied backlog. Whether your interests lie in the field of commercial jet airliners of the future or in space-flight technology, you can find at Boeing an opening which combines professional challenge and long-range stability.  
 The men of Boeing are today pioneering evolutionary advances in both civilian and military aircraft, as well as in space programs of such historic importance as America's first moon landing. Missiles, space vehicles, gas turbine engines, transport helicopters, marine vehicles and basic research are other areas of Boeing activity.  
 There's a spot where your talents can mature and grow at Boeing, in research, design, test, manufacturing or administration. The company's position as world leader in jet transportation provides a measure of the calibre of people with whom you would work. In addition, Boeing people work in small groups, where initiative and ability get maximum exposure. Boeing encourages participation in the company-paid Graduate Study Program at leading colleges and universities near company installations.  
 We're looking forward to meeting engineering, mathematics and science seniors and graduate students during our visit to your campus. Make an appointment now at your placement office. Boeing is an equal opportunity employer.  
 (1) Boeing's new short-range 737 jetliner. (2) Variable-sweep wing design for the nation's first supersonic commercial jet transport. (3) NASA's Saturn V launch vehicle will power orbital and deep-space flights. (4) Model of Lunar Orbiter Boeing is building for NASA. (5) Boeing-Vertol 107 transport helicopter shown with Boeing 707 jetliner.
