

Top Scientist Slates Speech For January

Texas A&M has completed arrangements for Dr. Milton Kerker, a distinguished scientist, to give an address at the university in January, 1966.

Kerker is dean of the School of Science and professor of chemistry at Clarkson College of Technology, Potsdam, New York. He is also editor-in-chief of the Journal of Colloid Science.

"Light Scattering by Colloidal Spheres and Cylinders" is the subject of his Jan. 10 address sponsored by the Robert A. Welch Foundation.

The speaker earned Ph.D., M.S. and A.B. degrees in chemistry at Cornell University on a Ford Foundation Fellowship.

Kerker is chairman of the American Chemical Society's Division of Colloid and Surface Chemistry, and former chairman of the Northern New York Section of ACS.

Dr. A. D. Suttle Jr., A&M vice president for research, arranged Dr. Kerker's visit through Dr. W. O. Milligan, director of research for the Welch Foundation.

Texas Motorists Drive Faster

Special to The Battalion
AUSTIN — Texas motorists are driving a bit faster than they did last year, the Texas Highway Department's 1965 Speed Survey indicates.

The survey, conducted by the Department's Planning Survey Division to determine traffic needs, was recently made public.

In Texas, the speed limit for passenger vehicles, pickup trucks and buses is 70 miles an hour during the day and 65 at night. For larger trucks the daytime limit is 60 miles an hour and 55 at night.

An effort was made to camouflage the survey operation at each of the 31 location where the checks were made. For this reason, it is believed that the speeds are indicative of the normal driving habits of Texas motorists.

More than 34,000 vehicles, including passenger cars, trucks and buses, were checked for the survey.

The survey found 10.2 per cent of the passenger cars exceeding 70 miles an hour, compared to 5.1 per cent a year ago.

For buses, there was a decided drop in the per cent exceeding 70 miles an hour. The 1965 survey found only 0.6 per cent of the buses exceeding 70, compared to 5.7 per cent in 1964.

There was an increase, however, for trucks with 1.1 per cent exceeding 70, compared to 0.4 per cent last year.

The average speed for all vehicles was 58.6 miles an hour. This compares to 56.6 miles an hour in 1964. The average speed for passenger cars was 61.2 miles an hour, compared to 58.8 miles an hour last year.

The average speed for trucks was 53.1 miles an hour, compared to 51.8 in 1964. For buses, the average speed was 63.3 miles an hour, compared to 62.4 in 1965.

For the day and night report, more than 7,800 vehicles were surveyed — 5,381 during the

day and 2,454 at night at five locations.

Although the average day speed was 59.8 miles an hour, compared to a slight drop to 58.2 at night, 16.5 per cent of the night drivers were exceeding the posted speed limit, 65 miles an hour.
