

**Friedheim To Lecture
On Campus Nov. 5**

Dr. Peter M. Friedheim, manager of the Farmers Association of West Berlin, will discuss "The Role of Agriculture in Communism" at 3:30 p.m. Nov. 5. The lecture will be given in the Biological Sciences Lecture Room and will be followed by a discussion period.

Friedheim is considered an expert on agricultural economy behind the Iron Curtain and the Soviet-occupied zone of Germany.

ry Clinton Kennemer, Larry Byron Kirk, Robert Allison Kunz, Simeon Timothy Lake, Robert Kent Long, Frank Lopez, Thomas Mason Lunsford, Roy Louis May, Homer Gene McCall and Sidney Frank Medford. Front row, Weldon Lloyd Merritt, Thomas Frank Murrah, Michael Eugene Overton, Albert Charles Petrusek, Lloyd Davis Ptak, Jack Borin Ramsey Jr., Michael Brooks Rasbury, Gary Neil Reeves, John Michael Seago, John Edward Sloan, Benny Ray Smith, Roland Dean Smith, William Richard Ward, Mitchell Griffin Wilcox and Robert Hugh Williams.

Hairdressers To Meet For Annual Pageant

Bryan-College Station hairdressers will meet in the Triangle Ballroom at 8 p.m. Monday for their annual Hair Fashion Show and Beauty Pageant.

The winner of the beauty contest will be queen for a year and will compete in the "All Texas Beauty Show" in Dallas. The public is invited.

The "Aggie War Hymn" was written by J. V. (Pinky) Wilson immediately after World War I.

'Aggie War Hymn' Tops Record List

The No. 1 tune at Texas A&M? An unofficial tabulation by the Texas Aggie Band shows it might be the "Aggie War Hymn."

Lt. Col. E. V. Adams, band director for the last 20 years, said by an unofficial count last year the "War Hymn" was played 153 times by the band.

The number includes renditions of the A&M Fight Song at football, basketball, and baseball games, yell practice, parades and reviews.

electrical engineering, industrial engineering, mechanical engineering.

Texas Instruments Incorporated — chemical engineering, chemistry, electrical engineering, mathematics, industrial engineering, mechanical engineering, physics.

Bulletin Board

Fish and Game Club will meet at 7:30 p.m. in Room 200 of Scoates Hall.

Agricultural Economics Club will meet at 7:30 p.m. in Room 112 of the Plant and Sciences Building.

Library Gets Book Collection In Memory Of Fred Ossanna

A collection of 1,006 books, valued at almost \$4,000 has been donated to Texas A&M Cushing Memorial Library in memory of Fred S. Ossanna Jr. of Lake Jackson.

Presentation of the private collection of contemporary books was made by Mrs. Elizabeth Beutel Ossanna, daughter of A&M Board of Directors' member A. P. Beutel, also of Lake Jackson.

Ossanna was killed in the crash of a light plane in 1964. Mrs. Ossanna and their youngest son, Cris, narrowly escaped death. Two older sons, Mike and Dick,

are enrolled at A&M. Both are freshman and graduates of Culver Military Academy. Mike majors in petroleum engineering and Dick is an aerospace engineering student.

Acting Librarian Rupert Woodward said the collection "reflects a discriminating, keen mind."

"We are very pleased to receive these volumes — they are an excellent addition to our library," he noted.

A&M President Earl Rudder added his thanks to Mrs. Ossanna, calling the gift "a lasting memorial to Mr. Ossanna."

Oliver Takes Over CSC's Top Post

James Oliver was named president of the Civilian Student Council after the group heard a letter of resignation from Terry Norman Thursday night.

Oliver had been serving as CSC vice president.

The letter to the council from Norman said:

"I would like to inform you that, due to personal reasons which would not allow me to perform my duties as president in the most capable manner, I

submit my resignation as CSC president. It is with regret that I do so but I feel that, in all fairness to the council, this will be the best recourse. Good luck to the council in all activities this year. You'll have my support all the way."

Oliver is the brother of Paul Oliver, last year's CSC President.

In other business, the council began a search for a band to play for the Civilian Ball March 26.

Ford Motor Company is:

challenge

Dale Anderson
B.A., Wittenberg University

At many companies the opportunity to work on challenging projects comes after many years of apprenticeship and a few grey hairs. Not so at Ford Motor Company where your twenties can be a stimulating period. There are opportunities to prove your worth early in your career. Dale Anderson's experience is a case in point.

After receiving his B.A. in Physics in June, 1962, Dale joined our College Graduate Program and was assigned to our Research Laboratories. Recently he was given the responsibility for correcting cab vibration occurring on a particular type of truck. His studies showed that tire eccentricity was the cause of the trouble. Since little change could be effected in tire compliance, his solution lay in redesigning the suspension system. Tests of this experimental system show the problem to be reduced to an insignificant level.

That's typical of the kind of meaningful assignments given to employees while still in the College Graduate Program—regardless of their career interest. No "make work" superficial jobs. And, besides offering the opportunity to work on important problems demanding fresh solutions, we offer good salaries, a highly professional atmosphere and the proximity to leading universities.

Discover the rewarding opportunity Ford Motor Company may have for you. How? Simply schedule an interview with our representative when he visits your campus. Let your twenties be a challenging and rewarding time.
