

Texas Water Conference To Discuss Planning Creativity Here Monday

More than 150 persons are expected at Texas A&M Monday for the 10th annual Water for Texas Conference.

They will hear discussions centering on the theme "Creative

Thinking and Practical Planning."

Dr. E. T. Smerdon, director of the A&M Water Research Institute which sponsors the conference, said some of the material covered in discussions will concern Texas Water Commission activities in developing a state water plan through the year 2020.

Smerdon also is chairman of the Water for Texas Committee. Leading speakers include:

Dr. Monroe E. Freeman of the

Smithsonian Institute, Washington, D. C. "Water Resources Research and Information Retrieval" is his topic at 11:10 a.m. Monday.

Joe Kilgore of Austin, former U. S. congressman and now an attorney and chairman of the Texas Water Development Board Advisory Panel. He will talk on "Developing a Comprehensive Water Plan" at a Monday evening banquet.

Joe Moore of Austin, executive director of the Texas Water Development Board. His talk on "Progression on the Comprehensive Texas Water Plan" is at 11:30 a.m. Tuesday.

Col. Jack W. Fickessen of Fort Worth, district engineer for the U. S. Army Corps of Engineers. His discussion is titled "Corps of Engineers Projects in Texas" and will be heard at 9:10 a.m. Tuesday.

State Rep. Menton J. Murray of Harlingen, chairman of the Texas House Conservation and Reclamation Committee. Murray

will explain "Functions of the Texas Water Rights Commission and Texas Water Development Board" at 11 a.m. Tuesday.

Smerdon said an early registration for the conference will be held Sunday evening. All sessions are in the Memorial Student Center.

Ocean Diver To Address Area Scouts

Lt. Cmdr. Don Walsh, co-holder of the world record for deepest ocean dive, will address the Arrowmoor District Scouters Appreciation Dinner Dec. 10 in Bryan.

An estimated 200 adult Scout leaders are anticipated for the 7 p.m. banquet for the Anson Jones Junior High School Cafeteria.

Cmdr. Walsh and Jacques Piccard of Switzerland smashed the existing world record in 1960 when they descended seven miles in the bathyscap Trieste to the ocean floor of the Marianas Trench, 200 miles southwest of Guam.

Walsh received the Legion of Merit and numerous additional awards for his achievement. He was named one of the 10 outstanding young men in the United States in 1960 by the Junior Chamber of Commerce.

The U. S. Naval Academy graduate is working toward a masters degree in oceanography at Texas A&M while on full time duty with the Navy.

Walsh's exploits in the "Trieste" have been publicized by Life magazine, Reader's Digest, the National Geographic Monthly, and other publications. He has made hundreds of speeches about his dive and the future of oceanography.

The speaker has a background in scouting. He was a member of Squadron Eight of the Air Scouts at Alameda, Calif., in 1946-47.

Dean W. J. Graff, attendance chairman for the banquet, said tickets are available from unit leaders.

Arrowmoor has 927 Scouts in Brazos and Robertson Counties.

Officials Discuss Food Problems

Dean of Students James P. Hannigan and Col. D. L. Baker, commandant of the Corps, discussed Thursday with Food Service officials past and present problems of meal service.

Presently, the loss in waste is 8 1/2 cents a day per individual or nearly \$425 for the entire operation.

Hannigan said there has already been a significant reduction in waste and that money saved could now be used toward better quality food.

Plans discussed included frequent meetings with student representatives to continue the progress that is being made to reduce waste.

One facet of the drive to curtail wastage distribution of meal evaluation forms to headwaiters and individual tables, has already been put into effect.

The mess halls will try to serve larger first helpings of meat to avoid returning to the kitchen

for more food than is really necessary.

Col. Fred W. Dollar, director of Food Service, believes the large quantities of unconsumed food left on plates constitute the bulk of the problem.

Hannigan expected more changes with increases in enrollment. If next fall's forecast for 11,000 students materializes, then classes may be scheduled through the noon hour and there would be cafeteria-style servings for the student body from 10:45 a.m. until 2:15 p.m.

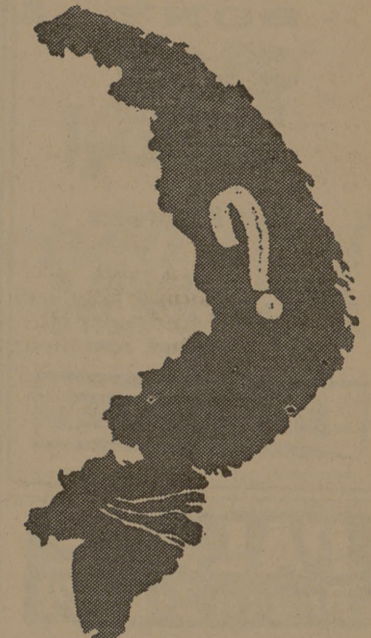

Dollar recently promised steak dinners when the loss incurred in wastage was significantly reduced.

The main emphasis of the plan to economize is the reduction of the quantity of food left on plates that is unsuitable for represervation or preservation.

Food Service presently serves approximately 15,000 meals a day in the two dining halls and at its other divisions.

Few apples are exported from the United States.

What Really Goes on Here?

You will be better able to follow and understand the war news from Viet Nam if you have our new king-size (22 x 29 inch) four-color map showing where the action is, where U.S. troops are, where the Viet Cong dominates, and the complete background of the conflict. Seven maps in all, plus generous text. It's based on exclusive reports from AP war correspondents. Nothing else like it is available anywhere.

Send just \$1 for each copy desired.

Moving your body around is highly inefficient.

If communications were perfect, you would never have to. Of course, you would still have to get exercise. But that's your problem.

We want to make it easier for you to contact people, learn, get information, attend lectures, and hold meetings.

We developed Picturephone* service so you can see as well as talk when you call. And be seen, too. We introduced Tele-Lecture service (two-way amplified phone calls) to let you hear lecturers in distant locations. And so you could ask them questions no matter how far away they were.

Right now, many students can dial from their dormitories to a language lab. Soon a student will be able to dial into a computer thousands of miles away to get information for his courses.

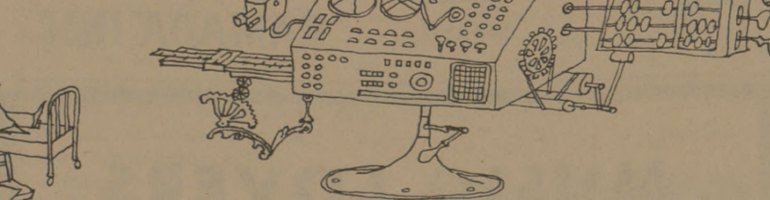

Depending on the nature of the information, he might get his answer back audibly, printed on a teletypewriter, as a video image, or a facsimile print.

Some of these services are available now. Others are being tested.

For the next week or so, better get a move on.
