Why more motorists switch to the Tiger when it gets cold. Many cars that ran just fine all summer get into trouble when ear-muff time rolls around — stalling at stoplights and coughing and chugging halfway into town. That's when a lot of people switch to the Tiger. Winter-formula Enco Extra gasoline is blended to match the weather conditions in your area — including a special additive to help guard against icing. Result: easier starting, faster warm-up and a lot less worry about stalling. You'll like the way new Enco Extra behaves on the open road, too. It's the High-energy gasoline with the: (1) cleaning power; (2) firing power; (3) octane power to help preserve the performance of new cars and restore lost power and mileage to many older cars. Switch to the Tiger and get that nice warm feeling. Happy Motoring! HUMBLE EXTRA Gasoline Put a Tiger in Your Tank! ENCO EXTRA Gasoline
