Bangkok Minister Returns To Preach

Former Thailand missionary Harold P. Reeves will preach at Sunday services of the First Baptist Church here.

The first Southern Baptist missionary appointed directly to Thailand will speak at the 10:45 a.m. and 7:00 p.m. services and to various Sunday School and Training Union groups.

The Louisiana State, Baylor and Southwestern Seminary educated missionary organized the first Baptist church in Bangkok, directed youth activity four years and produced the first Christian radio program used on a Thai government station.

Reeves is now Asian representative on the Radio and Television Commission of the Southern Baptist Convention.

John Anderson To Speak At YMCA Lecture Series

Dr. John Anderson, head of the Department of English, will speak at "The Educated Man Series" program 6 p.m. Dec. 6 in the YMCA.

Anderson received his B.A. from Oklahoma State University and, after serving in World War II, returned to graduate school at Louisiana State University, where he received his M.A. in American literature. He taught part time and studied at the University of Texas before going to the University of North Carolina, where he obtained his Ph.D. in American literature.

Before joining the faculty at A&M in 1953, Anderson taught in Louisiana. In 1961 he was awarded the Faculty Distinguished Achievement Award for Teaching by the Former Students Association of A&M and was appointed head of the Department of English in 1962.

Anderson has been president of the Texas Folklore Society and the American Studies Association of Texas. He is now representative from the South on the national council of the American Studies Association and is a member of the advisory committee of the American Folklore Society and of the National Asso-

ciation on Standard Medical Vocabulary. He is listed in the "Directory of American Scholars," "Who's Who in the South and Southwest" and "Contemporary Authors."

He has published more than 50 articles in literature, folklore and history journals. Also, Anderson has published these books: "Brookburn: The Journal of Kate Stone, 1861-1868" (1955), "A Texas Surgeon in the C.S.A." (1957) and "Louisiana Swamp Doctor: The Life and Writings of Henry Clay Lewis" (1962). Two other books are scheduled

for publication—"Tales of Early Texas" in 1966 and "American Humor from the Colonial Period to 1865" in 1967. In addition, he has recorded folk songs for the archives of the Texas Folklore Society, Indiana University and the Library of Congress.

A&M Consolidated Future Farmers To Enter Contest

A&M Consolidated Future Farmers of America chapter has two teams entered in the Area III FFA leadership contest to be held at Blinn Junior College in Brenham Saturday.

The two teams which placed first or second in the district contest, are the junior chapter conducting team and the farm radio team.

Members of the junior chapter conducting team who are freshmen at A&M Consolidated are; Jimbo Butler, president; Bob Franke vice-president; David Huff, treasurer; Steve Brown, reporter; Charles Holland, secretary; and Doyle Sebesta, sentinel.

The farm radio broadcasting team is comprised of Stanley Krenek, Robert Linton and Randy Robertson.

Ag Talent Show Set For Tonight

The Aggie Talent Show will open at 8 p.m. Friday in Guion Hall. Admission is 50 cents.

Acts for this year's show range from a magic act to a one-man band, comedy routines and selections of country and western music. Along with the acts presented by Aggies, the Talent Committee will present its special attraction, the "ATS Mystery A Go-Go Girl."

The best three acts will receive cash prizes of \$25, \$15, and \$10 respectively and the first place winner will represent Texas A&M in the Intercollegiate Talent Show next spring.

We set out to ruin some ball bearings and failed successfully

The Bell System has many small, automatic telephone offices around the country. The equipment in them could operate unattended for ten years or so, but for a problem.

The many electric motors in those offices needed lubrication at least once a year. Heat from the motors dried up the bearing oils, thus entailing costly annual maintenance.

To stamp out this problem, many tests were conducted at Bell Telephone Laboratories. Lubricant engineer George H. Kitchen decided to do a basic experiment that would provide a motor with the worst possible conditions. He deliberately set

out to ruin some ball bearings by smearing them with an icky gunk called molybdenum disulfide (MoS₂).

Swock! This solid lubricant, used a certain way, actually increased the life expectancy of the ball bearings by a factor of ten! Now the motors can run for at least a decade without lubrication.

We've learned from our "failures." Our aim: investigate everything.

The only experiment that can really be said to "fail" is the one that is never tried.
