When you can't afford to be dull, sharpen your wits with NoDoz™

NoDoz Keep Alert Tablets fight off the hazy, lazy feelings of mental sluggishness. NoDoz helps restore your natural mental vitality... helps quicken physical reactions. You become more naturally alert to people and conditions around you. Yet NoDoz is as safe as coffee. Anytime... when you can't afford to be dull, sharpen your wits with NoDoz.

CAVE-IN IN ACTION

Gary Liebenberg, 21, cries out in agony as a drainage ditch caves in on him while he attempted to dig out fellow worker, Jack Ward, 28, buried several feet in foreground. Another worker, Lloyd Taylor, was hauf-

buried. Men were digging at Roaring Camp, a tourist narrow-gauge railroad, in Fenton, Calif. The man was rescued and suffered only minor injuries. (AP Wirephoto)

Army OCS Program Seeks More Officer Candidates

AUSTIN—The Department of the Army through the Officers Candidate School program is seeking to produce an additional 4,700 male junior officers during the current fiscal year, VIII U.S. Army Corps Headquarters has announced.

Examining boards have been established at Army posts throughout the Fourth Army area to expedite processing, and facilities conducting physical examinations are giving priority to OCS applicants. Completion of applications, interviews and medical examinations can now be accomplished in three weeks.

Army officer candidate schools are the U. S. Army Artillery School, Fort Sill, Okla.; U. S. Army Infantry School, Fort Benning, Ga.; U. S. Army Engineer School, Fort Belvoir, Va.; U. S. Army Signal School, Fort Gordon, Ga., and U. S. Army Armor School, Fort Knox, Ky.

Fort Knox will receive candidates for Quartermaster, Transportation, Ordnance and Armor branches. Candidates will receive 13 weeks of training at Fort

Knox. During the following nine weeks Armor candidates will remain at Fort Knox and the others will attend appropriate branch schools.

Officer candidates in Military Police, Intelligence, Chemical, Medical Service Corps and Finance branches will attend Infantry OCS at Fort Benning. Following commissioning, the new lieutenants will attend appropriate branch officer courses as required.

Graduates of officer candidate schools, which run approximately 23 weeks, become commissioned second lieutenants in the U. S.

Army Reserve. Outstanding soldiers in the upper tenth of their class may be designated Distinguished Military Graduates and may apply for Regular Army commissions.

Male college graduates between the ages of 18½ and 28 years may enlist in the Army for the purpose of attending officer candidate school after completion of basic combat training. However, they must meet the same prerequisites as enlisted men or warrant officers already in the service. Interested civilians may inquire at their local recruiting stations.

New Mexico Math Prof Slates Talks This Week

Three lectures by Dr. L. H. Koopmans of New Mexico University's Mathematics and Statistics Department are scheduled Thursday and Friday.

Koopmans will discuss "Some Applications of Time Series Analysis" at 8 p.m. in chemistry lecture room 231.

Dr. H. O. Hartley, head of A&M's Institute of Statistics, said the talk will primarily concern problems arising in geology and geophysics.

Koopmans' second lecture, "A Convergence Rate Theorem in Probability Theory with a Time Series Application," is set for 11 a.m. Friday in biological science lecture room 113. This lecture requires knowledge of basic probability theory, Hartley noted.

At 3 p.m. Friday in Chemistry Building room 229 Koopmans will discuss "Tolerance Limits for Distributions With Increasing Hazard Rates." Hartley indi-

cated a basic knowledge of distribution and reliability theories are needed for the lecture.

An informal coffee hour at 2 p.m. Friday will honor Koopmans. Faculty and graduate students are invited.

Koopmans' visit is sponsored by the National Science Foundation.

TEES To Begin Teachers Course

Texas A&M Engineering Extension Service instructors will begin 45 hours of instruction for teacher certification Dec. 13 at the Memorial Student Center.

"Methods of Teaching Vocational-Industrial Subjects" and "Class Organization and Management" will be taught by teacher trainers B. M. Hackney, Dewey Cowling Jr. and Louis R. Manely.

The courses will end Dec. 21.

Bulletin Board

TUESDAY
 Marshall Hometown Club will meet at 7:30 p.m. in the main lobby of the Memorial Student Center.

Pre-Vet Society will meet at 7:30 p.m. in the Veterinary Hospital amphitheater.

Spring Branch-Memorial Hometown Club will meet at 7:30 p.m. in room 2D of the MSC.
 Agricultural Economics Club

will meet at 7:30 p.m. in room 112 of the Plant Sciences Building.

WEDNESDAY
 Aerospace Wives Club will meet at 8 p.m. in the South Solarium of the YMCA.

Local AAUP Unit To Meet Friday

Resolutions for the state conference meeting at Waco and student academic freedom at Texas A&M are principle items of business for the American Association of University Professors meeting Friday.

The group will meet at 7:30 p.m. Friday in Room 146 of the Physics Building, Professor John J. Treacy has announced.

The associate professor of economics is to introduce discussion of resolutions to be offered at the Saturday meeting at Baylor University.

I WAS TOO SATISFIED TO NEED A SAVIOR

THERE are really fewer people than you would realize who are actually satisfied with their lives. When you probe down into most hearts you can find very little happiness, peace or satisfaction. Yet there are some who have a satisfaction born of moral uprightness and integrity, a happy home and a fair degree of the blessings of material prosperity. I was very much like one of these, very content and very satisfied with my lot in life until I realized that there was down inside of me a longing that had never been satisfied. I could not escape from the consciousness that life was made for something more than social contacts and material security.

Down inside, a sense of being right with God was lacking and although superficially content with my lot my soul was not satisfied until one day I learned that God had sent His son in the person of Jesus Christ to die upon the cross of Calvary that I might be reconciled to Him. When I took Jesus Christ as my own personal Savior from sin, I learned the experience of what it really means to be satisfied. Now I am not only happy with my lot in life, but I am satisfied with the confidence that all is right between me and God because Jesus Christ is my Savior.

3 Generations of Military Tailoring

Save 2 years,

because now you can complete Air Force ROTC in just half the time!

Are you interested in starting a military career while in college—but afraid it will cut too deeply into your schedule?

Well, here's good news for you. Air Force ROTC now offers a 2-year program. You can start it any time you have 2 years of higher education remaining—whether on the undergraduate or graduate level.

Here's another good thing about this program: you get a chance to "sample" Air Force life before you sign up. During a special summer orientation session, you get to make up your mind about the Air Force, and the Air Force gets to make up its mind about you. Only

when both are satisfied are you finally enrolled in the program.

You'll learn a lot in Air Force ROTC. The curriculum has been completely revamped. The accent is on aerospace research and development. But of course the classes are only the beginning. The important thing is that you'll be taking the first big step toward a profession of great responsibility, as a leader on America's Aerospace Team.

Find out more about the new Air Force ROTC program. See the Professor of Aerospace Studies today!
