

NSF Awards \$32,285 For Summer Programs

Three National Science Foundation grants totaling \$32,285 have been announced for summer science training programs at Texas A&M.

Programs in engineering, science, geology and mathematics will be through the grants, said C. M. Loyd, NSF coordinator.

Dr. J. George H. Thompson was awarded \$10,370 for engineering science, Fred E. Smith \$12,000 for geology and Dr. William S. Culley \$9,915 for mathematics. The summer programs offer ability high school students theory and lab work beyond level offered in high school.

Thirty students will study problems under Thompson, professor of mechanical engineering. The 7094 computer in Data Processing Center will be employed. The program starts on June 6 and runs through July 15. The training program in geology instructed by Smith, a geol-

ogist professor, is for 36 students while 32 will work under McCulley, associate professor of mathematics. His program will stress modern math and computer programming.

Geology and mathematics programs will be in session July 18-August 26.

A&M Dominican Head To Speak Thursday

Dr. G. M. Watkins, program director of Texas A&M's Dominican Republic programs, will report on conditions in that country at 3 p.m. Thursday in the Architecture Auditorium.

Dr. M. T. Harrington, coordinator of A&M's international programs, said the report "should be of extreme interest to faculty and staff interested in international programs."

Fireman School Adds 2 Training Courses

Two training courses for February and March have been an-

nounced by the Firemen's Training School.

A heavy duty rescue course is scheduled Feb. 2-March 5. Rescue tools and equipment are used in training key personnel of cities, counties, district and industry. Graduates will later train additional rescue workers locally so adequate rescue service can be provided for emergencies.

Trainees will work with rescue trucks and equipment on Disaster Street, which features buildings in various stages of destruction.

"Emergency Care and Transportation of the Sick and Injured" is slated March 22-24 for funeral home personnel, ambulance service companies, emergency crews of fire, police and sheriff departments, and individuals actively engaged in emergency care.

Instructors will be from the medical profession, medical colleges and hospitals, Red Cross, the University staff and other sources.

They're wasting hi fi music on goats at Texas A&M.

A controlled environment chamber of the radiation biology laboratory is ideal for customizing for stereophonic listening.

The air conditioned, sound proof, vault-like room is the key feature of a radiation effects research project by A&M scientists. Audiophiles would find it ideal for stereo.

The 20-by-20 foot room is located about 600 yards from the runways of Easterwood Airport. But a jet plane's engines cannot be heard when the cell is properly sealed.

The only inhabitant of the specially designed chamber is a Spanish goat.

Dr. Albert Casey, psychologist and radiation biologist, is testing the hearing of goats in the cham-

ber. It's part of a study to determine effects of radiation on senses of animals the approximate size of humans.

The Division of Neurological Diseases and Blindness of the National Institute of Health sponsors the research.

Concurrent investigation in the radiation biology lab tests skin sensitivity and conditioned responses of the goats, as affected by radiation.

Trained Spanish goats are given hearing tests in the \$5,000 chamber designed by a British acoustical engineer.

Sand-filled concrete walls containing dead air spaces and lined with acoustical tile assure test readings are not influenced by background noise.

Research began under a year-

ly grant of \$36,418 in May 1965, and will continue day and night until spring.

Goats are trained to lift their leg upon hearing a tone. Then a dose of radiation is administered.

More tests and radiation follow, to compare with preradiation recordings. A level of radiation that impairs the sense is thus established.

Training each goat to respond to tones by lifting only the right leg, actuating instruments on a control panel in another room, requires most of the time spent with each animal.

Only male Spanish goats are used. Casey said the goat is relatively smart, has an aural range similar to man's, has good muscular coordination, is easy to maintain and, most important,

has a body mass equivalent to man.

In the chamber, the goat is positioned before a speaker that reproduces a range of tones selected by a scientist outside the room. A stanchion holds the animal in place with its right leg over a panel switch. Sensors are attached alongside the heart.

Tests are run on 45-70 animals a month. Tones of varying degrees of loudness up to 35,000 cycles per second are piped into the chamber. The goat can hear tones up to 28,000 cps, 9,000 above human range.

How are more lethal levels of radiation affect hearing, eyes, skin nerve endings and reproductive organs are unknowns.

But the blanks are being filled in at Texas A&M.

Offbeat Excuses Ordinary To Student Loan Officials

"But how am I going to pay my maid?"

Such replies and requests are on-of-the-mill at the Student Aid office.

A student service which does \$48,000 business a year receives plenty of oddball requests, and even more unusual replies when it's time to pay up.

But Robert M. Logan, director of Student Aid, is proud of the students his office serves and the way they meet their commitments.

"Our delinquency rate is well below the national average," Logan said.

The office furnishes four types of loans to be used for educational expenses. Small loans run from \$5 to \$20 for 30 days, at 5 cents per loan.

Former student and student aid funds fill requests of \$25 to \$400 and two national agency-backed loans satisfy requests up to \$400 and two national agency-backed loans satisfy requests up to \$4,000 or \$5,000. United Student Aid Fund, Inc., loans are interest up to four and a half at simple six per cent interest up to four and a half years after graduation.

National Defense Education Act sums increase on the unpaid balance at three per cent and may be repaid up to 12 years after graduation.

Except for small loans, all funds must be used to pay University expenses and clear need must be shown. Applicants must be in a degree-producing course, have proper grades and clear disciplinary records.

The lineup at the Student Aid window between 9:30 a.m. and 3:30 p.m. produces the extraordinary.

A formally-attired young man dashed breathlessly to the window one afternoon.

"I need \$10," he exclaimed. "I'm going on my honeymoon."

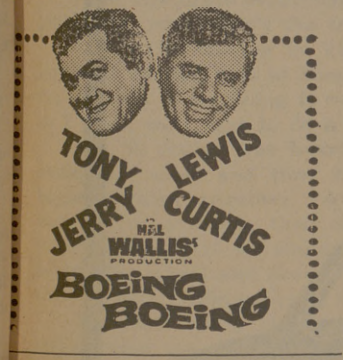

He'd just gotten married and his bride was waiting in the car outside.

A big, blond-haired senior bristled at being called in to repay a loan.

"How am I going to pay my maid?" he complained.

Maritime Academy Seeking Summer Cruise Candidates

The Maritime Academy is seeking 100 May high school graduates interested in making a summer cruise to Europe.

Academy Superintendent Bennett Dodson, Captain USN (ret), described the program as a floating summer school which offers courses for college credit, the adventure of shipping on a ocean-going vessel and visits to foreign lands.

The cruise is aboard the academy's vessel, "Texas Clipper," which leaves Galveston June 6 and returns Aug. 16. Ports of call include Dublin, Ireland; Bordeaux, France; Malaga, Spain; Las Palmas, Canary Islands, and

la-de-da snooty affairs

our specialty!

Ladies love meeting at Ramada Inn! Fancy banquets, Club get-togethers and luncheons are just more fun! Hold your next femme fast at Ramada... whether lawfully formal or quaintly unrestrained. At Ramada it's no secret: we love ladies!

Try our fast, friendly breakfast and luncheon service.

"Luxury for Less" RAMADA INN

Bryan - College Station 846-8811

Nassau, the Bahamas. A total of 12,000 miles will be covered during 44 days at sea and 23 days touring foreign countries.

While at sea, students earn six semester hours of college credit in a choice of subjects: history, algebra, calculus, or English.

Fulltime faculty from Texas A&M conduct the courses. Credit may be transferred to A&M or any other college or university, Dodson pointed out.

"Goal of the program is to interest high school graduates in Texas A&M and the Texas Maritime Academy," the captain noted. "But men taking the cruise are under no obligation to enroll."

Fee for the summer cruise is \$450, he said, which includes tuition for summer school, room and board, cruise fee, medical services and uniforms.

Full details and application forms are available from the Texas Maritime Academy, Texas A&M, College Station.

CITY ORDINANCE

ORDINANCE NO. 446
AN ORDINANCE PROVIDING FOR A PUBLIC HEARING ON THE QUESTION OF REZONING A TRACT OF 13.92 ACRES OF LAND IN THE MORGAN RECTOR AND RICHARD CARTER LEAGUES IN BRAZOS COUNTY, TEXAS PRESENTLY ZONED AS DISTRICT NO. 1, FIRST DWELLING HOUSE DISTRICT, TO DISTRICT NO. 4, FIRST BUSINESS DISTRICT.

BE IT ORDAINED by the City Council of the City of College Station, Texas: WHEREAS, the City Planning and Zoning Commission has recommended that that land described herein be rezoned as District No. 4, First Business District;

It is hereby ordered that a public hearing shall be held in the City Hall at 7:00 p. m. on January 24, 1966, on rezoning certain areas within the city limits, more particularly described as follows: A tract of 13.92 acres of land in the Morgan Rector and Richard Carter Leagues in Brazos County, Texas, said tract being more particularly described by metes and bounds as follows:

Beginning at a concrete monument at the intersection of the northeast right-of-way line of State Highway No. 6 and the southeast right-of-way line of Farm Road No. 30.

Thence N 45° 36' E along the southeast right-of-way line of F. M. 30 a distance of 1820.9 feet to an iron pipe for corner.

Thence S 45° 21' E along a fence line a distance of 373.3 feet to the center of a creek.

Thence up the center of said creek as follows:

N 89° 12' W 58.8 feet
S 74° 48' W 191.3
S 40° 06' E 152.8
S 12° 06' E 54.7
S 78° 55' E 23.0
S 64° 12' D 190.8
N 89° 06' W 376.1
N 88° 17' W 170.7
S 5° 08' W 41.8
S 37° 24' E 109.2
S 24° 40' W 243.7
S 83° 25' E 88.2
S 29° 02' W 41.8
S 18° 52' W 69.6
S 12° 55' W 28.4
S 10° 19' E 69.8
N 9° 13' W 166.5
N 63° 00' W 158.7
N 16° 31' W 110.0
S 16° 07' W 93.7
S 5° 18' W 43.2
S 69° 25' E 88.2
S 77° 59' W 145.7
S 42° 11' W 43.3
S 49° 04' W 88.2
S 38° 24' W 123.4
S 52° 24' W 44.6
N 72° 06' W 88.5
S 79° 34' W a distance of 160.5 feet to a fence line. Thence N 46° 32' W along said fence line a distance of 128.5 feet to a fence corner.

Thence S 43° 41' W a distance of 192.0 feet to a fence post in the northeast right-of-way line of Highway 6.

Thence N 1° 20' E a distance of 54.9 feet to the point of beginning and containing 13.92 acres of land more or less.

Notice of said hearing shall be published in a newspaper of general circulation in the city of College Station at least fifteen days prior to date of hearing.

PASSED AND APPROVED this 16th day of December, 1965.
