Graduate Council Elects New Officers

Graduate students have elected seven department representatives to the Graduate Student Council. Wallace Johnston, council president, said new representatives are Joe B. Harris, Agriculture; Larry Claypool, statistics; Mitty Plummer, Engineering; James F. Harrison, Sciences; William K. Read, Veterinary Medicine; Charles E. Knowles, Geosciences; and J. Lanasa, Liberal Arts. Johnston added that after next year's officers are elected, plans will be completed for the group's Graduate Spring Dance on April 30. He said tickets will be on sale immediately after Easter holidays and may be purchased from any council member. Additional information can be obtained from the Graduate College.

Extension Officials To Attend Conference

Two officials of the Engineering Extension Service are participating in a regional conference on vocational and technical education programs this week in Dallas. They are Harold D. Bearden, director, and B. M. Hackney, chief teacher training instructor. Region 7 educators are discussing social and economic issues and implications concerning vocational and technical education programs. The conference is directed by the Bureau of Adult and Vocational Education, U. S. Department of Health, Education and Welfare.

Air Force Major Goes To Charleston

Air Force Maj. Donald N. Williamson has been reassigned to Charleston AFB, S. C. The aerospace studies instructor joins the 3rd Military Airlift Squadron Friday. Williamson will train at Tinker AFB, Okla., for eight weeks before reporting to Charleston.

At A&M since 1962, the major instructed freshman and sophomore AFROTC classes, served as military adviser to the first Cadet Wing of the Corps and advisor for the Space Fiesta.

Williamson was a Strategic Air Command aircraft commander before coming to A&M.

Educational Prof Attends Conference

Science teacher programs were scoured in New York City this week by a member of the Department of Education and Psychology attending an annual National Science Teachers Conference.

Dr. Grady Parker, chairman of science and math education committee and programs at the graduate level, attended. Meeting in conjunction with the national science teachers were the National Association for Research in Science Teaching and the Association for Education of Teachers in Science.

Parker was studying and collecting information to be used for proposing a science-math teaching center at A&M.

A&M was first to offer a science education degree in Texas and one of the first in the nation, Parker noted.

Physics Scholarships Open To Freshmen

The Department of Physics now has scholarships open to

freshmen who desire to major in physics at A&M.

One scholarship for \$1,000 per school year, is a gift of Mrs. Minette McFarland of Houston. Another, worth \$800 per school year, is a gift of an A&M alumnus. The donors hope to renew the scholarships for several years of help to worthy physics students. Additional scholarships are available to freshmen as Valedictory Scholarships and Opportunity Award Scholarships.

Anyone wishing to qualify for a scholarship should contact Dr. J. G. Potter, head of the Department of Physics. First considerations should be received by the middle of April.

Students To Attend Ad League Tour

Three A&M students will attend the Dallas Ad League Tour April 17-19.

Mike Odom, David Risinger and Earl Eddelman will participate. John Hotard was chosen alternate.

The tour, sponsored and financed by the Dallas Ad League, will provide seniors and graduate advertising students from southwestern universities an opportunity to talk to and work with retail, agency and industrial advertising managers.

Accompanying the students will be advertising instructor Jack Boggan.

5 Students Receive Academic Grants

Five dairy manufacturing majors have received scholarships totaling \$500 in recognition of academic achievement, leadership and student activities.

Dr. A. V. Moore, dairy science professor in the Department of Animal Science, said Lilly Ice Cream Company of Bryan provided \$100 awards each to four of the students.

Recipients are Ken T. Allison of West Lafayette, La.; Bill C. Armstrong of Midlothian; R. B. Langhoff of Yoakum, and A. L. Roland of Garland.

The fifth winner was Eugene C. Supak of Fayetteville, who received \$100 from the Dallas-Fort Worth Dairy Technology Society.

Drawing Winners To Be Announced

All-State winners in high school drawing competition sponsored by the Engineering Graphics Department will be announced within two weeks.

Preliminary contests ended this week in 200 Texas high schools. Contest Chairman James H. Earle, associate professor of engineering graphics, said more than 11,000 students competed in first and second year working drawing, pictorial and architectural drawing.

Earle said high school teachers are submitting top entries by mail for the 23rd annual contest.

SOMEONE LIKED WINE

BRINDISI, Italy (AP) — Workmen digging a cellar have uncovered a dozen well preserved, design-decorated wine amphorae believed to be the work of the famous Roman era artist Eubulus. The earthen vessels bore the sign with which he marked his work: "N. Eub."
