

12 To Receive Certificates For Apprentice Training

Twelve participants in a 20-week specialty contractors supervisory training school at Texas A&M will receive certificates Friday.

R. L. Patrick, coordinator for the Engineering Extension Service, said graduates will be qualified for upgrading in their jobs after 600 hours of instruction.

Most of the men, Patrick explained, have completed apprentice training in mechanical construction jobs. They studied mathematics, business and job management, engineering graphics and counseling at Aggieland. In addition, they heard lectures by representatives of Texas in-

dustry.

Another school begins Aug. 29 at A&M. It ends Jan. 27. A second school is slated Feb. 13 through June 30.

Graduates, by cities, and sponsoring business firms, include: SAN ANTONIO — Hugh R. Asher, 230 Cherry Ridge, pipefitter; Wallace E. Butler, 301 Linares, sheet metal worker.

DALLAS — Claude Earl Litton, 555 Alcorn, airconditioning engineer; Billy Ed Kurtz, 1243 Brighton, plumber; John A. Horn, 9650 Starlight Road, engineer.

AUSTIN—Edward Mack Barrett, 3002 Leaning Oak, plumber.

LUBBOCK — Phillip Ewing Stidger, 1907 48th Street, sheet metal worker.

ARLINGTON — Charles R. Dickinson, 2906 Buena Vista, take-off and pricing.

HOUSTON — Robert Glen Irwin, 9219 Richland, plumber; Thomas C. Leppard, 2311 Brenard, purchasing.

MADILL, OKLA. — E. J. Tate, 604 W. Lilly, pipefitter.

VON ORMY — Roger L. Ackermann, Route 11, plumber.

The high-energy particles from solar flares travel in well-defined streams that twist around one another.

CHECKING REACTOR

Dr. Robert G. Cochran, standing, Texas A&M Department of Nuclear Engineering head, and Dr. Robert S. Wick, a new faculty member formerly employed by Westinghouse Inc., check out the AGN-201 reactor in an A&M laboratory. A&M has a small accelerator, a radio isotopes lab, the Nuclear Science Center and Cyclotron Institute available to students.

Nuclear Engineering

A&M Adds Another Course Of Study

Texas A&M will add another first to its curriculum Sept. 1.

That's the date the university will be authorized to offer undergraduate studies in nuclear engineering. A&M will become the first school in Texas and most of the Southwest to offer a bachelor's degree in nuclear engineering.

The University of Mississippi and Kansas State University are nearest competitors to A&M for attracting undergraduates for nuclear engineering studies.

A&M has offered masters and doctoral studies in nuclear engineering since 1959, and is adding the BS to meet the expanding demand for nuclear engineers.

"Many bachelor's degree winners will go into reactor physics and management of power reactors," commented Dr. Robert G. Cochran, A&M Department of Nuclear Engineering head. "Eleven power reactors generating many megawatts of electricity are already in use in the United States, 20 more are under construction, and others are approved for construction."

"The nuclear power industry is growing rapidly," Cochran continued. "It is an exciting engineering field of the future. Opportunities will become greater as more power reactors are used to generate electric power."

Cochran spoke of nuclear power as a future competitor for gas power and other fossil fuels.

"Nuclear power has at least one big advantage over fossil fuel," he explained. "There is no release of by-products to pollute the air or water."

Cochran believes salaries for nuclear engineers with BS degrees will be "quite competitive with other fields."

"One of our master's students received \$12,000 annually in his first job," he pointed out. "All of them make at least \$900 a month."

Students working toward the bachelor's in nuclear engineering will be required to complete 137 hours, slightly less than for most engineering programs.

A&M's facilities are among the best in the nation. Students have access to the AGN-201 Laboratory, the Nuclear Science Center, a small accelerator which produces neutrons, and a radio isotopes development laboratory. With completion of the Cyclotron Institute, students will have an-

other sophisticated research facility at their disposal.

The nuclear engineering faculty includes Cochran, formerly a nuclear physicist and group leader at Oak Ridge National Laboratory; Dr. Robert S. Wick from Westinghouse; Dr. C. G. Chezem of the Los Alamos, N. M., Scientific Laboratory; Drs. Donald E. Emon, Daniel M. Gibson Jr., Walter H. Kohler and Richard D. Neff; and John E. Simek.

HEADS UP MOUSER

If it's making friends that count, Sandy, the cat, certainly qualifies as a dandy mouser. But when it comes to laws of nature she's certainly in violation. Sandy and her friend Gippy, a mouse, are pets of the Lester Pratt family of Middletown, R. I. (AP Wirephoto)

AND NOW WE PROUDLY ANNOUNCE THE ADDITION OF A NEW FACE

an Outstanding Aggie with an outstanding achievement record:

- lettered freshman football
- starting fullback past two seasons
- member of the T-Association

This expansion of our staff is POSSIBLE because of our continuing success in leadership in service to the College Man — —
— NECESSARY, because of our responsibility to offer the most complete coverage to every Aggie senior.

Low Prices Plus "MAGIC DIME" at SAFEWAY!

Safeway Quality! **Lettuce** 19¢ Each **FREE** 96,000,000 GOLD BOND STAMPS!

Crisp, green heads for cool, refreshing salads. Fresh, firm and well trimmed.

Russet Potatoes 10 lb. 59¢
The most versatile of all vegetables. Serve many, many different ways.

Lemons Sunlit. Lots of juice for lemonade—Each 6 for 35¢
Fresh Plums Elephant Heart. Ideal for munching—Lb. 25¢

When you play Magic Dime at Safeway you can win up to 10 FREE Gold Bond Stamp Savers Books. Everyone wins every time.

10-BOOK WINNERS
Frank Valence, 4654 McKinney, Dallas
Mrs. Opal Fowler, 3332 Albany, Mesquite
Annie Jean Ross, Route 1, Wylie
Mrs. Claud H. Davis, 3130 Lariat Dr., Garland
H. E. Bostick, 1125 North Ollie, Stephenville
Vaudie Gandy, Route 2, Hillsboro

5-BOOK WINNERS
Mrs. H. T. Slagle, 3518 Glover Lane, Garland
Mr. Luke Collett, 4308 Live Oak, Mesquite
Mrs. Richard S. Buck, 900 Westway, Denton
John Luksa, 601 E. Crockett, Ennis
Mrs. E. P. Harbin, 101 Broadway, Waxahatchie
J. C. Pough, Route 1, Rio Vista

and many, many other winners listed in each store!

Snow Star Ice Cream All Time Favorite. Assorted Flavors. 1/2-Gal. Ctn. 49¢	Cragmont Beverages ★ Diet ★ Mixers ★ Assorted flavors. (Plus Deposit) Quart Bottle 10¢	Breast-O-Chicken Chunk Tuna Light meat. Salad delight. 6 1/2-oz. Can 29¢	Maryland Club Coffee Limit 1 With \$2.50 Purchase 1-Lb.
