Smokler To Head Milk Quality Group

The Texas Milk Quality Council, a new organization to help dairymen further improve their product, has elected Dr. David Smokler of Dallas as its first chairman.

His election came at a recent meeting of TMQC's temporary executive committee at Texas A&M. Smokler is a veterinarian and dairyman.

Other officers named were David Gault of Austin, vice chairman, and Dr. R. E. Leighton of College Station, secretary-treasurer.

Gault is a dairyman and official in the Mid-Tex Producers Association. Leighton is a professor in the Dairy Section of the Department of Animal Science.

Leighton said first steps in forming the organization were taken last June at an A&M meeting of 33 persons directly and indirectly associated with the dairy industry.

He said the broad purpose of the TMQC is to seek uniformity in recommendations to dairymen for milk quality improvement. Special emphasis will be on udder health.

Specific Council objectives are: —Collect, screen, develop and dispense uniform information and guidelines for improving milk quality.

—Coordinate related efforts of all dairy groups.

—Encourage needed research. —Develop methods for evaluating results of quality improvement programs.

—Establish quality control standards as needed.

Leighton said the Council's annual meeting will be held during the Dairyman's Short Course Nov. 17 at Texas A&M. The next meeting of the executive committee is in October.

Placement Department Moved Under New Man

Placement and Student Aid departments at Texas A&M will be the responsibility of the director of development, beginning Sept. 1.

A&M President Earl Rudder announced the transfer of Placement and Student Aid from the office of Dean of Students James P. Hannigan to Development Director Dorsey E. McCrory.

"The transfer is to reduce excessive administrative duties of the dean of students and to consolidate within a single office those university functions of a developmental nature," President Rudder explained.

"A majority of funds required for operating student aid programs are obtained to a large extent through the director of development," Rudder continued. "Many firms, agencies and organizations with which we work in placement services are active in A&M's development program. This consolidation should broaden and strengthen total development, placement and student aid effort."

Police School Expects 20

Twenty police officers are expected to participate in the Rio Grande Valley Police School Sept. 5-30 at the Texas A&M Experiment Station two miles east of Weslaco.

Taught by Texas A&M's Police Training Division and guest instructors, the course stresses constitutional provisions of arrest, public relations, search and seizure, evidence, Texas Code of Criminal Procedures, narcotics, defensive driving, criminal and juvenile law, accident records and traffic law.

Guest speakers include L. M. Benavides, special agent in charge, U. S. Secret Service, San Antonio; N. K. Woerner, Sgt. M. S. Morrison and Joel Tisdale, Texas Department of Public Safety, Austin; Lewis Berry, executive secretary, Texas Sheriff's Association; T. L. Ball, chief inspector, Border Patrol, McAllen; C. C. Benson, manager, National Auto Theft Bureau, Dallas; Gus Krause, chief, and Rueben Garcia, Brownsville Police Department; Lynnwood Elliot, chief legal examiner, Texas Liquor Control Board; Lt. Manuel Charrez, Harlingen Police Department; District Attorney Oscar McInnis and Assistant Criminal District Attorney Roberto Ornelos, Hidalgo County, Edinburg.

Wallace Beasley, Police Training Division chief at Texas A&M, directs the school. His aides are

Bill Caffee, Ira Scott and Steve Clark.

Mexico Meeting Hosts A&M Profs

Texas A&M scientists will have a prominent role in a hemispheric physics meeting at the University of Mexico this month.

The American Physical Society, Sociedad Mexicana De Fisica and the Canadian Association of Physicists hold a joint meeting Aug. 29-31.

Prof. J. L. Gammel will preside as session chairman of Invited Papers in Particle and Nuclear Physics. Gammel is also an invited speaker in the Faculted de Ciencias Auditorio Aug. 30. His paper on nuclear physics is about spin polarization, elastic scattering, and reactions.

Associate Dean C. F. Squire will give an invited lecture before the session on fluid dynamics Aug. 31. His talk is about the experimental discovery of intrinsic volume viscosity in simple liquids. The TAMU scientists working on this project are Dr. D. Naugle, Dr. J. Lunsford, and J. Singer.

Prof. J. B. Coon and S. B. Trickey will give a 10 minute contributed paper on the spectroscopy of ammonium molecules.

Associate Prof. N. M. Duller, together with W. G. Cantrell and E. Lee Walker, will present a 10-minute paper on cosmic ray studies.

Prof. J. S. Ham and G. M. Samson will present a paper on electrical conduction through poly-ethylene.

Dr. S. A. Kudchadken will present a paper which she developed together with Dr. El-Sabbah and Prof. B. Zwolinski of the Department of Chemistry. Her talk is about the molecules formaldehyde.

Hirsch Authors Magazine Article

A Texas A&M structural researcher is the author of an article which appears in the August issue of the Journal of the Prestressed Concrete Institute. He is Dr. T. J. Hirsch, head of the Structural Research Department of the Texas Transportation Institute and associate professor of Civil Engineering.

Under the title "Recommended Practices for Driving Prestressed Concrete Piling" he tells how to eliminate costly breakage and replacement of piles in construction of bridges and causeways.

The article is serving also as a report of the PCI committee on prestressed concrete piling for buildings.

Wallace To Give Graduate Lecture

Dr. T. D. Wallace of North Carolina State University will give a graduate lecture in economics Friday at Texas A&M.

"Multicollinearity and the Mean Square Error Criterion" is the topic for the economics professor's 1:30 p.m. talk in the School of Architecture Auditorium.

The speaker earned B.S. and M.S. degrees from Oklahoma State University and the Ph.D. from the University of Chicago. He taught at OSU and was a Graduate Fellow at Chicago. His special interests are economic theory, econometrics and experimental statistics.

Wallace is a member of the American Economics Association, American Farm Economics Association and American Statistical Association.

Publications of the Oklahoma native include articles in the Journal of American Statistical Association, Operations Research, and the Journal of Farm Economics.

Barron To Speak Here On Sunday

District Judge John M. Barron of Bryan will speak at the Police-Community Relations Institute Sunday through Aug. 25 at Texas A&M.

Institute Director Wallace Beasley said Judge Barron will replace District Judge John Union of San Antonio, who withdrew for business reasons.

"The New Criminal Code in Texas and Police-Community Relations" is the topic of Barron's talk.

Sixty persons from Texas, Louisiana, Arkansas and Oklahoma will participate in the A&M Engineering Extension Service sponsored seminar.

PIGGLY WIGGLY'S Exciting 66¢ SALE

WE GIVE 5¢ RED STAMPS DOUBLE EVERY TUES. WITH \$2.50 PURCHASE OR MORE. QUANTITY RIGHTS RESERVED. PRICES EFFECTIVE: THUR-FRI-SAT = AUG 18-19-20-1966

BONNIE BAKER
FLOUR
10 LB. BAG **66¢**

KRAFT **MAYONNAISE** QTY. JAR **66¢**
SEALD SWEET FROZEN **LEMONADE** 7 COOL. CANS **66¢**
GERBER'S STRAINED **BABY FOODS** 8 4 1/4 OZ. JARS **66¢**
