## It can't be the cost

An extra extension phone costs less a day than a postage stamp.

So why deny your family the convenience and comfort of extension phones located where they work and play? Extension phones save steps, bring privacy and eliminate distraction. There's a type of phone and choice of colors

to blend beautifully with every room.

And every important room in your home deserves its own phone. That's why many new homes are prewired, with phone outlets in several key spots.

Wouldn't you like more phones in your home? Then call our Business Office and start phoning it up!
