FCA PRESIDENT KEN LAMKIN Invites all A&M athletes to meeting.

## Aggie FCA Huddle To Meet Tonight

The Texas A&M Huddle of the Fellowship of Christian Athletes will host a special meeting tonight in the A&M All-Faiths Chapel at 8:30 p.m.

A&M Huddle President Ken Lamkin said that the meeting is open to all area high school athletes, coaches and anybody else interested in the fellowship.

Aggie Huddle members are all urged to attend the meeting — this includes members of all sports. The meeting is being sponsored by the Aggie Huddle with hopes of helping area high schools start their own huddles.

Mike Mistovich of Bryan Radio Station KORA will be the speaker for the meeting. Aggie Football Coach Gene Stallings and Barney Welch will also give short talks.

"The FCA helps us to be better Christians," Lamkin explained. Lamkin added the FCA helps "strengthen our athletic life."

A&M's Huddle has been active since its origin last January, with as many as 72 members present for one meeting. The huddle now meets once a week and is open to members and participants of all sports. Jack Pyburn and Jerry Campbell are the vice-presidents, Dan Westfield is secretary and Joe Weiss is treasurer.

 Housley drives through TCU defenders for more Aggie yardage Saturday.

## Wrestling Club To Organize Wednesday In G. Rollie White

Texas A&M's intercollegiate wrestling team will hold its first meeting of the year Wednesday afternoon at 5 p.m. in the wrestling room on the second floor of G. Rollie White Coliseum.

The meeting will be primarily for organizing the club for this year. Work-out schedules and plans for future matches will also be discussed.

Last year the club was undefeated in four matches.

Club president Tommy Ward said that if enough interested persons are present for the meeting, this season's schedule will be expanded to more schools, including Southwest Conference teams and tournaments.

Team membership is voluntary, but members receive no University assistance, since wrestling is not a varsity sport. The team is organized as a club and is part of the Memorial Student Center Club program.

Texas A&M University is the largest of the nation's seven military colleges and produces more reserve officers for the Army and Air Force than any other institution.

**MACBETH BABY... IT'S EASIER WITH CLIFF'S NOTES!**

**SHAKESPEARE IS EASIER...**  
 ...when you let Cliff's Notes be your guide. Cliff's Notes explain all the frequently assigned Shakespearean plays and over 125 other major novels and classics. For each work you get an expert scene-by-scene or chapter-by-chapter summary and character analysis. In minutes your understanding will increase. Use Cliff's Notes to earn better grades in all your literature courses.

**HERE'S EXAM HELP!**  
 Cliff's Notes "How To Take An Essay Examination" will prepare you for coming college examinations.

This is Russ Kennedy of Balboa Island, California, on an in-port field trip as a student aboard Chapman College's floating campus.

The note he paused to make as fellow students went ahead to inspect Hatshepsut's Tomb in the Valley of the Kings near Luxor, he used to complete an assignment for his Comparative World Cultures professor.

Russ transferred the 12 units earned during the study-travel semester at sea to his record at the University of California at Irvine where he continues studies toward a teaching career in life sciences.

As you read this, 450 other students have begun the fall semester voyage of discovery with Chapman aboard the s.s. RYNDAM, for which Holland-America Line acts as General Passenger Agents.

In February still another 450 will embark from Los Angeles for the spring 1967 semester, this time bound for the Panama Canal, Venezuela, Brazil, Argentina, Nigeria, Senegal, Morocco, Spain, Portugal, The Netherlands, Denmark, Great Britain and New York.

For a catalog describing how you can include a semester at sea in your educational plans, fill in the information below and mail.

Are you discontented enough to work for G.E.?

Does water pollution bug you? Or smog? Does it concern you that some places in the country never have enough teachers? Or nurses? And when you read about the growing pains of a developing nation, do you wish you could do something?

You can. Thousands of General Electric people are helping to solve the problems of a growing, changing world.

Generating more (and cheaper) electricity with nuclear reactors. Controlling smog in our cities and pollution in our streams. Using electronics to bring the teaching skills of an expert into many classrooms at once, the trained eyes of a nurse into many hospital rooms at once.

If you're not content with the world as it is... and if you have the brains, imagination and drive to help build a better one, we'd like to talk to you.

See the man from G.E. during his next campus visit. Come to General Electric, where the young men are important men.

Progress Is Our Most Important Product
