

Aggies Drive By Baylor Bears, 17-13

(Continued from page 1)
 a 28-yard field goal by Lindsey five minutes deep into the second quarter. The three-pointer came at the end of a 77-yard drive.

Defensive halfback Lawson Howard intercepted his fourth pass of the year to set up the last Aggie score. Howard picked off a Terry Southall pass on the A&M 37. The Aggies marched to the goal and Hargett carried the ball over from the one. Lindsey kicked the point-after and A&M had a 17-0 lead at intermission.

In the second half the Aggies turned to a defensive game. Baylor scored twice, capitalizing on a pass interception and an Aggie fumble on the A&M 30. Baylor threatened midway through the final stanza, but hit a stone wall when it reached the Aggie four-yard line.

The Bears tried the line on a fourth-and-one situation. The Aggies stopped Baylor cold and forced a Bear fumble to-boot. A&M halfback Dan Westerfield recovered the fumble to go with his collection of two pass interceptions for the day.

With 1:56 left in the contest, Baylor threatened again. Bear halfback George Cheshire caught a Southall pass and broke loose from Aggie defenders. Tackle Harvey Aschenbeck displayed the spirit of the entire Aggie squad on this play.

Aschenbeck was one of the men who missed Cheshire near the line if scrimmage. He hid his red face and started downfield after the Baylor sprinter. Aschenbeck, a 210-pound tackle, was the last man with a chance at Cheshire when he caught the back from behind on the Aggie 35.

The Aggies' Moorman ended the Baylor drive with 36 seconds left on the clock. Normally an offensive player, Moorman had been on defense only two plays during this Bear march. Moorman burst through the Baylor line on fourth-and-nine and threw Southall for a nine-yard loss and the Aggies won.

ROLF KRUEGER FOILS SOUTHWALL PASS
 Aggie tackle Rolf Krueger, 74, leaps high to foil Baylor's Terry Southall, 16, to throw a wild and incomplete. (Battalion photo by Scott Hervey)

HOUSLEY BULLS FOR MORE YARDS
 Ball carrier Wendell Housley drives Baylor tackler back as he picks up more of his 127 yards against Baylor Saturday. End Tommy Maxwell, 81, moves in to aid Housley. (Battalion Photo by Scott Hervey)

FREE!...

for the man who takes his pipe seriously.

We've just perfected a completely new pipe mixture, called Luxembourg. It's for the man who has graduated from the syrupy-sweet tobaccos. Blended from choice U.S., European, Middle Eastern, African and Asian leaf... and subtly enriched with one of the rarest honeys in the world.

We'd like you to try a pack on us. How come? We figure one pack is just about what it'll take to convince you that it's the finest pipe mixture around. After that, who knows... you might make it your regular smoke.

The Imported luxury pipe mixture

Hall Of Fame Speaker Soon To Be Announced

An internationally known Texas A&M graduate is expected to be announced soon as speaker for Saturday's Texas A&M Hall of Fame Luncheon.

Hershel Maltz ('50), Aggie Club president, also noted that luncheon tickets, at \$5 each, are on sale at the A&M Athletic Director's Office and at the Association of Former Students Office in the Memorial Student Center.

The spotlight will be on four A&M greats to be inducted into the Hall of Fame. Two football players, a football coach and a track olympian are the honorees. They include Aggie grid greats Joe M. Boyd and Dick Todd; football coach Dana X Bible, whose 1917 and 1919 teams were unbeaten, untied and unscored on; and Olympic ace Arthur H. (Art) Harnden.

Luncheon guests also will see films of A&M's 1939 national championship football team.

The 1966 Aggies clash Saturday night at Kyle Field with the Arkansas Razorbacks in an important Southwest Conference football game.

be a Hero...

or "How to practice your one-upmanship on industry". We do it all the time at LTV Aerospace Corporation - dreaming up big shiny things like a plane's plane or a missile's muscle. In fact, our Hero engineers have come up with some of the nation's superest Super Stars. The word is out that there are some great star gazer spots open now (some earthy ones, too). So whether you're a circles, waves or angles engineer, you, too, can be a Hero in such areas as aerodynamics avionics and instrumentation airframes design systems analysis reliability dynamics systems design propulsion stress analysis industrial engineering technical administration... and others.

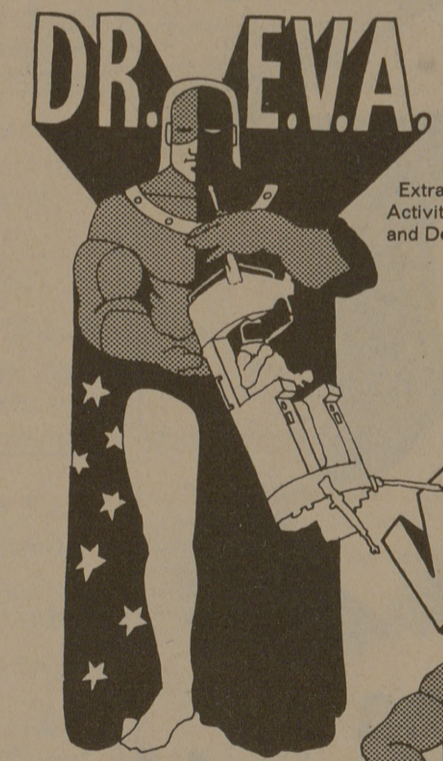

Get the whole story. Ask your Placement Office, then see our representative when he visits your campus (he'll swell with pride if you ask, "how's your LTV bird"). Or write College Relations Office, LTV Aerospace Corporation, P.O. Box 5907, Dallas, Texas 75222. LTV is an equal opportunity employer.
