

A&M Talent Show Set For Tonight

Seven top college artists will be competing in the annual Aggie Talent Show at 8 p.m. tonight in Guion Hall.

Listed on the billing as hopefuls to represent A&M in the Intercollegiate Talent Show booked for Military Weekend are Mark Satterwhite, pianist; Bob Robin-

son and Larry Ludewing, better known as the Bob and Larry Duo; Miss Donna Files, vocalist; Leo Bernandez, interpretive prosist; Charles Collins, vocalist; Charles Terry, pop pianist, and Larry Lehmann, on the 12-string guitar.

Other featured entertainment will be Miss Teri Teague of Fort Worth's Casa Manana Productions and A&M's own Singing Cadets.

The staff of judges for the competition, all highly talented in their own right, will be Fern Hamman, hostess for KBTX-TV's daily feature "Town Talk"; Joanna Smerdon, fashions and photographers model seen recently in McCall Magazine; Walter L. Keith, who is preparing the Dec. 13 presentation of Handel's "Messiah" in Bryan Civic Auditorium; and Bill Schulman, local theater chain manager.

Tickets for the Talent Show are 75¢ and may be purchased at the MSC, the First National Bank and City National Bank in Bryan, the Varsity Shop in Townshire Shopping Center and Aggie-land Recreation Center in Redmond Terrace.

To top off the evening, a yell practice will be held at 10:30 p.m., announced head yell leader Tommy Stone.

Maverick Speaks To Apollo Club

Maury Maverick Jr., San Antonio attorney, will address the Apollo Club tonight at Texas A&M University.

Tom Bell, Apollo Club chairman, said Maverick, counsel for the South Texas branch of the American Civil Liberties Union, will discuss "The Value of Dissent to Constituted Authority".

The talk is scheduled for 6:30 p.m. in the YMCA.

Maverick and Mrs. Maverick will be guests of honor at a 4 to 5 p.m. Thursday reception in the YMCA South Solarium.

An ex-Marine, Maverick served three terms in the Texas House of Representatives, where he was floor leader for the liberals. He earned B.A. and LL.B. degrees from the University of Texas.

The speaker is a former government professor at St. Mary's University in San Antonio. He is the author of magazine articles on Texas History.

No Malignancy Found In Johnson Surgery

President Smiles After Operations

By DOUGLAS B. CORNELL WASHINGTON (AP)—President Johnson came through tandem operations on his throat and abdomen in cheerful, satisfactory shape Wednesday.

The doctors reported no signs of cancer. And this helped to lift a curtain of concern the President said a few days ago had been hanging over him.

Thirty-three minutes after one operation removed a polyp on a vocal chord and a second closed an old incision from a gall bladder operation, Johnson was out from under an anesthetic and scribbling notes to his doctor.

And a little before noon, four hours out of surgery, he was smiling, touching thumb and fingertip in an "okay" sign, and actually talking a little in a 17-minute meeting with a group of reporters. It was in a hoarse whisper.

Johnson's color was good and he looked less worn and pale than he did after a kidney stone and gall bladder operation 13 months ago in the same hospital.

The President was back in his old third-floor suite with its white walls and gold draperies—and three paintings Mrs. Johnson had installed—one of the LBJ Ranch in Texas, one of the President's boyhood home, and another of the reconstructed birthplace.

Mrs. Johnson had spent the night at the hospital and was up with her husband at 5:00 a.m. When newsmen were ushered into the suite in late morning, she still was wearing a long gold robe that fitted the decor of the suite.

Mrs. Johnson was asked if she had ever seen the President speechless before.

"No," she smiled. "And we're going to make the most of it."

The Johnsons will observe their 32nd wedding anniversary Thursday, even if they can't celebrate it.

The President still has some physical problems. The doctors ordered him "to make no formal speeches for a period of four to five weeks and to keep the use of his voice at a minimum," White House press secretary Bill D. Moyers reported.

Moyers said the President will have three or four weeks of pain and discomfort as a result of the throat operation. He also has bursitis in his right shoulder which Moyers said will require some heat treatment and physical therapy. The bursitis was diagnosed after some examinations Tuesday.

Johnson has been complaining

about soreness in the shoulder for two or three weeks.

Vice President Hubert H. Humphrey, who would have taken over if Johnson had been unable to perform his duties in an emergency, was notified immediately when the operation was over. A member of the White House staff called him on a direct line at his home.

Moyers said nothing had happened to require any action or decision by Humphrey while Johnson was under anesthetic for almost an hour and 30 minutes.

Not much was being said about the new operation to repair an incision from an old one. But a half-inch hole in the abdomen required a two-inch incision and then a stitching that pulled the edges of the stomach muscle and its sheath together.

The hole resulted from improper healing of a spot where drainage tubes came out of the original incision. Tissue about the size of a golf ball or a little larger had protruded and this hernia had to be taken care of.

The doctors expect to keep him in the hospital several days and then let him go back to the LBJ Ranch to recuperate as he did a year ago.

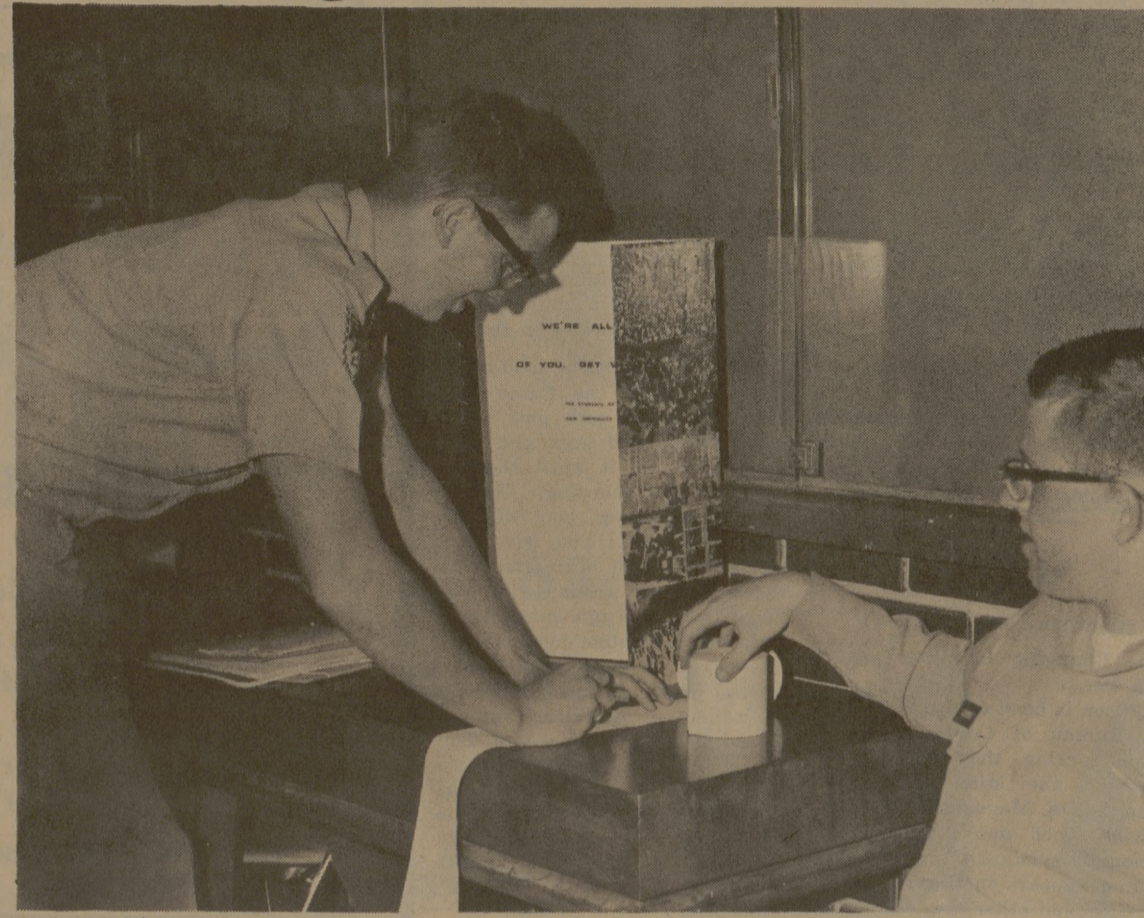

Parking Area Is Completed; New Rules

The new parking area south of G. Rollie White Coliseum has been completed and present parking procedures are being revised.

According to Bennie Zinn, student affairs director, dormitory students with green parking permits who are now parking in the unpaved temporary lot west of Kyle Field and in the overflow parking area north of the cyclotron building must move their cars to this new parking area before 5:00 p.m. Friday.

Zinn also said that day students now parking in the construction area east of Houston, west of Throckmorton and south of Joe Rott, must also move their cars to the new area or to any other day student parking area.

Day students parking in the grassy area east of Spence St. across from the cyclotron must move to the overflow area or other day student areas, Zinn said.

CARD FOR LBJ

Dave Schlueter (L) signs a giant "get-well" card prepared for President Johnson who underwent surgery Wedne sday. The project is sponsored by the Political Forum of the MSC. Students may still sign the card before 5 p. m. today. Looking on is Steven Goldberg.

SCONA Seeks Keynoter; Other Speakers Announced

The twelfth annual Student Conference on National Affairs will probably have a keynote speaker lined up sometime this week, according to program committee chairman Pete Garza.

"President Earl Rudder and Congressman Olin Teague are both in Washington right now, trying to obtain a well-known expert on the topic to deliver our keynote address," Garza told the SCONA executive committee Wednesday. He said word should come by Friday on the effort.

The committee also heard a report from R. M. Schneider, associate professor of architecture, on the possibility of setting up a long-distance hookup to Cambridge, Mass., with Walter Gropius, 82-year-old architect-sociologist who fled Nazi Germany after denouncing Hitler.

GROPIUS, A FORMER senior professor of architecture at Harvard University and chairman of the Department of Architecture there, is presently Dean Emeritus in Harvard's Graduate School of Design.

Schneider said Gropius would be able to present an interesting

address to the delegates because "his 82 years span so much of European and American history, and he is, after all, a sociologist in addition to being an expert in planning."

"Since Gropius has been able to detach himself from the political complications, he is in a good position to comment on the problems of American-European rela-

tions from an objective viewpoint," Schneider added.

THE HOOKUP would be accomplished through the use of a long-distance telephone line between College Station and Cambridge. Schneider suggested that a series of slides or a film be shown before or during the presentation, to be followed by a series of questions addressed to Gropius, whose voice would be carried over loudspeakers in the meeting room.

The cost of the arrangement would be about \$200, Schneider estimated.

SCONA Chairman Bob Heaton referred the idea to the program committee for further study and for correspondence with Gropius. Schneider said he already had preliminary information that Gropius would be available for such a project during SCONA XII, Dec. 7-10.

Garza announced the addition to the conference's agenda of two speakers, Richard Wilson and John E. Horner, who will talk on

Second Program For Faculty-Staff At MSC Tonight

The second Texas A&M University faculty-staff dinner-dance of the year will be held in the Assembly Room of the Memorial Student Center tonight at 7:30.

According to Don Young of the Texas Forest Service, faculty-staff dinner club committee chairman, music will be furnished by Dick Baldauf's Aggieband Combo, and members of the faculty and staff of A&M are invited to attend and bring guests. Dress is informal.

Vandalism Policy Is Reaffirmed

Texas A&M University and the University of Texas reaffirmed a mutual policy to suspend immediately any student committing an act of vandalism on the campus of the rival school.

A&M President Earl Rudder and Dr. Harry Ransom, chancellor of the University of Texas, issued the joint statement as a prelude to the traditional Thanksgiving Day football game between the two universities in Austin Nov. 24.

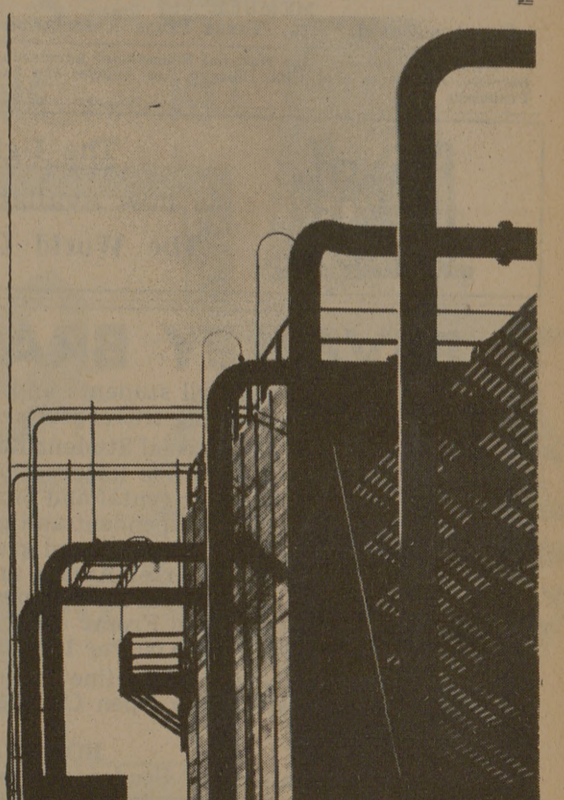

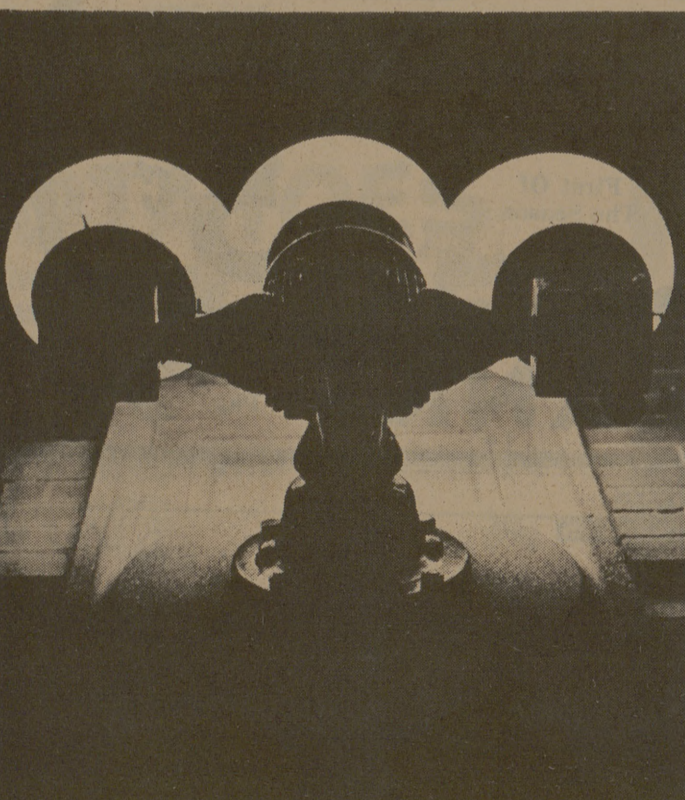

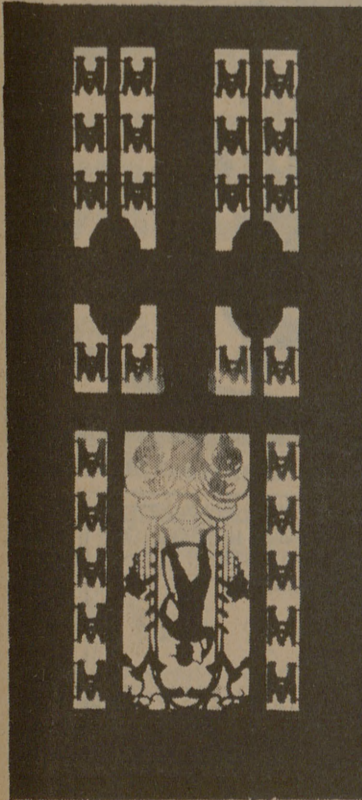

Any student who paints or

otherwise defaces statues or buildings, or commits any other act of vandalism on the rival campus, will be suspended for at least one semester, the two officials said.

This policy was adopted originally in 1959 by the A&M Board of Directors and the University of Texas Board of Regents.

Ransom and Rudder urged students to concentrate their energy and enthusiasm on local preparations for the game and support of their respective teams.
