COLLEGE STATION, TEXAS TUESDAY, MARCH 7, 1967

Number 412

Time Magazine Assistant To Talk Here Wednesday

Exhibits Being Prepared Here For High School Career Day

Texas A&M rolls out the red carpet for prospective new students on Career Day March 11. Academic Fair exhibits in G. Rollie White Coliseum and tours of university facilities for agriculture, business administration, engineering, architecture, geosciences, liberal arts, science, veterinary medicine and the Texas Maritime Academy are sponsored by the Student Inter-Council.

John Beckham of College Station, Inter-Council chairman, said registration begins at 7:30 a.m. in the coliseum with the day's activity concluding at 4 p.m.

President Earl Rudder will welcome visitors at a 10:30 a.m. general assembly, with tours of academic fields of interest scheduled at 11:10 a.m. Visiting high school and junior college students will lunch in A&M dining halls and continue tours Saturday afternoon.

Instructional equipment and information on various colleges and departments offerings will be exhibited in the popular academic fair. The 1966 exhibits included electrocardiogram equipment, wind tunnel, live snakes from wildlife science and an Educational TV videotape replay of the "Texas Special," a unique football play from the 1965 A&M-Texas Thanksgiving game.

A&M Clubs, Mothers Clubs, hometown organizations and individuals arrange for high school and junior college students to attend the Career Day program.

Sponsored by the A&M Memorial Student Center's Great Issues Committee, Scott's 8 p.m. talk in Guion Hall is entitled "Must We Starve?"

The topic is the result of Scott's 1966 visit to Asia, South America and Europe.

Prof Elected To Represent A&M, Baylor

Dr. Bruno J. Zwolinski of Texas A&M has been elected to represent the American Chemical Society's Texas A&M-Baylor Section on the Society's national council.

The council, which meets twice a year, is the deliberative body of the 105,000-member Society. It helps to guide ACS scientific and educational activities and select the Society's national officers.

Born in Buffalo, N. Y., Dr. Zwolinski received the B.S. degree in 1941 from Canisius College (Buffalo), the M.S. in 1943 from Purdue University, and the M.A. in 1944 and the Ph.D. in 1947 from Princeton University.

He was assistant to the director of chemical progress, National Science Foundation, from 1954 to 1957, when he became lecturer and principle research chemist with the Carnegie Institute of Technology. He assumed his present post as professor and director of the chemical thermodynamics research center at Texas A&M in 1961.

A member of the American Chemical Society since 1942, Dr. Zwolinski also is a member of the honorary scientific societies Sigma Xi, Phi Lambda Upsilon, and Sigma Pi Sigma.

Steve Kovich, Great Issues Committee chairman, said the author-lecturer has been making fact-find trips to all parts of the globe each summer for the past 15 years.

"Immediately upon his return from these journeys," Kovich explained, "Scott writes a book-length, behind-the-scenes report to 'Time's' publisher. When the book is published, he makes up to 200 speeches to business, professional and educational groups around the world."

Among Scott's books are "East of Suez," "Asian Journey," "The New Europe—Can Six and Seven Make One?," "The Soviet Economic Offensive," "Crisis in Communist China," "How Much Progress?," and "Democracy is Not Enough."

Scott filed his first dispatches for "Time" from Japan in 1941. A year later he became a contributing editor for the magazine in New York. In 1943 he covered the State Department in Washington before going to London, then on to Stockholm to head the "Time-Life" bureau until 1945.

When World War II ended, Scott reopened "Time's" Central European bureau in Berlin.

Returning to New York three years later, Scott covered a myriad of international events for "Time."

Born in Philadelphia, Scott at-

tended schools in the U. S. and Switzerland. He was graduated from George School in Pennsylvania and spent two years at the University of Wisconsin.

After dropping out of college during depression years Scott gained a welder's certificate and sailed for Russia, where he worked for five years in industrial plants before being outed in the purge of 1937.

Scott stayed on in Moscow for three years as a correspondent for HAVAS, the French news agency, and later for the London News Chronicle.

Gay Cook Named 'Combat Cutie' At Annual Ball

Gay Cook, 17 year-old junior at Paradise High School, Paradise, Texas, is Texas A&M's 1967 Combat Cutie.

The blue-eyed brunette is the daughter of Mr. and Mrs. Bill L. Cook of Paradise. She likes to play basketball and go horseback riding and plans to go to business school and become a secretary.

Other finalists for the honor at Friday's Combat Ball, were Susan Peters, sophomore, Wichita Falls High School; Bruni Alaniz, TWU sophomore from Beeville; Margie Allen, Jefferson High School senior, San Antonio; Jackie Smith, junior at Stephen F. Austin College from Houston; and Jan Earle of Fort Worth, a sophomore at Texas.

Weather

WEDNESDAY—Partly cloudy to cloudy, winds northerly 15 to 20 m.p.h. High 49. Low 34. THURSDAY—Cloudy, occasional light rain, winds easterly 10 to 15 m.p.h. High 54. Low 43.

Ag Bowling Team To Vie Saturday

The next Texas Intercollegiate Bowling Congress tournament for the Aggie bowling team will be Saturday at Southwest Texas State College in San Marcos.

The first round of the tournament will be a position round which will be posted upon arrival of the teams. Southwest Texas State will provide the competition for the Aggies in the second round and the University of Houston will be the Aggies' opponents in the final round.

Other teams in the tournament will be Rice, University of Texas, Trinity, Texas Christian University and Arlington State College.

Members of the Aggie team making the trip are Perry Kinder, Fred White, Jim Becht, Jimmie Guy and Tony Stehling.

Senator Raps Secret Meetings In Talk For Political Forum

By BILL ALDRICH Battalion Staff Writer

Texas State Senator A. R. "Babe" Schwartz addressed an informal luncheon of the Political Forum Friday afternoon in the MSC Assembly Room.

The Galveston lawyer spoke to a crowd of about 150 on his views of secrecy in the State Legislature. He then went on to state his views on a number of controversial topics in a question-answer period.

Senator Schwartz objects to the secret meetings held by the Nominations Committee to determine candidates for state positions. He argued that the federal government doesn't hold closed-door meetings, and Texas shouldn't either.

He explained that after the

committee had chosen its list of nominees, an executive, or secret, session of the Senate is called to act on the names presented. Schwartz led the opposition to defeat this move by calling for the session to be held 24 hours after the names came out of committee.

The senator then studied the names and told the press how he would vote before entering the session, destroying the secrecy of the session. In the last meeting of the legislature, Schwartz was the chairman of the Nominations Committee, but he has been removed from this term.

The liberal-minded 1947 graduate of Texas A&M was one of the first Jewish legislators in Texas. He explained to his audience how he had been the voice of almost all the minorities in the Senate

3rd YMCA Forum Features Bowman Tonight At 7:30

"Sex in Human Relations — Marital" will be discussed by Dr. Henry Bowman, at the YMCA's Marriage Forum tonight at 7:30.

Bowman, a sociology professor at the University of Texas, will speak on planned parenthood, sexual compatibility in the total marriage relationship, causes of sexual maladjustment and proper adjustment and what religions say about sex.

He is a noted lecturer and teacher in the field of marriage and family relations. He is the author of the book "Marriage for Moderns" and is known for his work with the National Council on Family Relations, of which he was president in 1958-59. This council is an organization of teachers, preachers, physicians, attorneys, social workers and others concerned with marriage and the family.

Bowman is listed in Who's Who in America, Who's Who in American Education, Who's Who in the South and Southwest and in American Men in Science.

He spoke at the marriage forum last week on "Sex in Human Relations—Premarital" and kept those present interested and laughing with his direct and candid remarks.

Heaton Sees 34th Year Here

"THERE WERE 92 people in graduate school when I enrolled in June of 1933," Heaton recalled. "I had taught history in Panola and Sabine county schools since earning a bachelor of science degree at Stephen F. Austin State College in 1929. Then I decided

to get an advanced degree in education."

An advanced degree was a long time coming, because the slender student accepted the job of assistant registrar on March 1, 1934. "I resigned temporarily as a

student in order to learn my duties in the registrar's office," Heaton reminisced. "That fall, I registered for a single course and continued at that pace, one course per term, until I got the master's in 1938."

HEATON WAS one of seven employees in the registrar's office in 1934. Thirty persons now comprise the staff.

When Registrar E. J. Howell was called to active duty with the Army, Heaton was named to take his place on July 1, 1941. Howell later became head of Tarleton State College.

"Growth of the University has been remarkable," Heaton observed. "Enrollment totaled 2,151 in the fall of '33. By last fall, the total had swelled to 10,677."

The registrar comes in contact, directly or indirectly, with people all over the world, largely by correspondence.

"IT'S MY hope that every communication carries the spirit of (See Heaton, Page 3)

Dahlen, McNickle Praise A&M During Weekend's Ceremonies

Cadet Colonel of the Corps Eddie Joe Davis initiated Military Day with a commander's luncheon at the Memorial Student Center Saturday.

Distinguished guests, Corps staff, Brigade, Air Division, Com-

bined Band, Battalion and Wing Commanders attended.

Distinguished guests were Maj. Gen. Melvin F. McNickle from Tinker AFB, Okla., Maj. Gen. and Mrs. Chester A. Dahlen from Fort Sam Houston, San Antonio, Mr. and Mrs. Jack Crichton of Dallas and Mr. and Mrs. J. C. McLaughlin of College Station.

"I am glad to be back on the campus. This will be my last visit this year," said Dahlen, deputy commander of the Fourth Army at Ft. Sam Houston.

Offering congratulations to those graduating and going into the military, he said, "Don't let up during your basic training period. Keep plugging away and stay with it."

Dahlen then commented that often he had to write letters to college president whose graduates had not lived up to standards. He happily reported that President Rudder has not been the recipient of one of those letters.

"I've always had a tremendous admiration for Texas A&M, and my admiration is increasing as I serve with more and more Aggies," Dahlen remarked.

"It is most enjoyable to be here," McNickle said.

"It is very seldom that our school is blessed with the presence of two such gracious and knightly gentlemen," said Cadet Commander Davis, as he presented the Generals with Aggie desk sets.

GIVES WELCOME Corps Commander Eddie Joe Davis expresses the honor of having two distinguished generals visit the campus.

COMMANDER'S LUNCHEON Cadets and dates at the Commanders Luncheon visit with distinguished guests.

'39 Gridder Dies Of Blood Disease

Joe H. Parish, 52, a member of Texas A&M's 1939 national championship football team, died of leukemia at 9:15 a.m. Monday in a Houston hospital.

Funeral services were scheduled for this afternoon at graveside. George H. Lewis Funeral Chapel at 2530 Sage Road at Westheimer, Houston, has charge of arrangements.

Parish, a 1940 mechanical engineering graduate of Texas A&M, was chief engineer for Dow Chemical Company in Houston.

Survivors include his wife, Laverne, and two daughters. The family residence is 15 Sandalwood Drive, Houston.
