

CADET SLOUCH by Jim Earle

"We wanted to design a truly unique T-shirt that would be different from any other outfit! This is what we came up with—solid white!"

— Sound Off —

HOWDY!!

If this is your first year at Texas A&M, you may not know that you have a sister school. Then, again, if you have been an Aggie before, you may already know about "Tessies." We are from the Texas Woman's University in Denton, Texas, and we are probably your greatest fans. We think a lot of you, and we feel that our two universities run along the same lines in spirit and in friendliness.

Each year we sponsor a Pre-Corps Trip Dance on the TWU campus for Aggies. At this function you will meet the young women of our campus and make plans for the big football game the next day in Fort Worth and for the after-game festivities. At this game with TCU, the 1968 Aggie Sweetheart will be presented. She will be one of our students whom you have chosen to represent you.

Usually the Pre-Corps Trip Dance has been the first official meeting of our two universities each year, but to get acquainted, we would like for our schools to get together sooner in the year. As a result, we have planned a picnic and dance, Saturday, September 30, on the TWU campus. The picnic will be in Lowry Woods at 5 p.m. and will honor the Class of '71 of Texas A&M and TWU. Dancing will follow at 8 p.m. in the Student Union Building—honoring all classes of both universities. There will be no charge for these events as you are to be our guests.

Later in the year we will be

having many dances, both formal and informal, to which you are cordially invited.

The TWU campus is located in cities—Dallas and Fort Worth. It is approximately a four-hour drive from College Station to Denton. You will be responsible for making your own over-night accommodations.

We will be looking forward to seeing you on Saturday, September 30, for our picnic and dance. We do promise good food, a great band with lots of dancing, and plenty of friendly girls—A GREAT TIME!

SEE YOU THEN!

Sincerely,
Jo Gresham, President
Student Council of Social Activities
Texas Woman's University

Located 5,000 miles from Cape Kennedy, Ascension Island anchors the space program's Test Range. The 34-square-mile island lies less than 8 degrees south of the Equator about midway between Brazil and Africa.

OAS Convenes To Study Tougher Cuban Sanctions

By ARY MOLEON
WASHINGTON (AP) — The foreign ministers of the United States and 20 Latin American nations convene here Friday to consider proposals for new and tougher restrictions on Communist Cuba.

But American strategists do not expect any dramatic new programs going beyond the lines already set forth in past Organization of American States meeting on the Cuba-Communist threat.

The key proposal, by Venezuela, calls for more stringent economic sanctions, to be imposed by boycotting private firms in Western Europe, Japan and Canada that do business with Fidel Castro's government.

THE FOREIGN ministers also are expected to try to set up new machinery for checking the flow of Cuban agents, propaganda and money to promote and support subversions in other hemisphere nations.

This second meeting in 38 months of the OAS foreign ministers council was called at Venezuela's request after a Cuban-led guerrilla force was captured on Venezuelan soil last May.

Venezuela charged the group's mission was to overthrow the regime of President Raul Leoni. Cuba acknowledged that the force was Cuban-led and declared it would continue such support to Latin American rebels.

THE UNITED STATES hopes the three-day meeting will not only increase international pressure against Castro but will tighten hemisphere solidarity.

The U. S. tactic is to back up the nine-point proposal by Venezuela rather than take the lead.

Cochran Named To AEC Position

Dr. Robert G. Cochran, Nuclear Engineering Department head at Texas A&M University, has been appointed advisor of the U. S. Atomic Energy Commission Fellowship-Traineeship Program at A&M.

The AEC provides graduate fellowships in health physics, nuclear science and engineering. Students seeking information and application forms should contact Dr. Cochran in the Daugherty Building.

U. S. officials have developed a 14-point version of the Venezuelan proposal, but do not intend to present it at the formal meeting.

President Johnson is giving a personal boost to the meeting by inviting the foreign ministers to lunch Friday.

BUSLOADS OF anti-Castro exiles are heading to Washington from Florida to demonstrate for tougher action against Castro.

In calling for new, stricter economic measures, Venezuela said it believes European and other non-Communist world traders might think twice about trading with Cuba if it mean exclusion of their products from most other American countries.

But suggestions for strong economic sanctions against free world nations trading with Cuba found little support in advance diplomatic consultations among the OAS countries.

The informal consensus was that such a step would not have as much effect on the Europeans as individual actions by the Latin American countries in their own commercial dealings with the countries in the countries trading with Cuba.

Robert Wagner Joins TEES As Instructor

Robert W. Wagner of Brownsville has joined the Teacher Training Division of Texas A&M's Engineering Extension Service as an instructor.

A building trades teacher for five years at Brownsville High School, Wagner will teach in vocational-industrial areas for TEES. He was a guest instructor for TEES during the past summer.

Wagner's experience includes ten years in the construction industry in Kansas City, Kans. He worked a year in private business and nine years for Robert M. Armstrong a general contractor.

A native of Junction City, Kans., Wagner earned a bachelor of arts degree in physical education at Kansas Wesleyan University in Salina. He is working toward a master of education degree at Texas A&M.

Wagner is a member of the American Vocational Association, Texas Industrial Vocational Association, Texas Vocational Vocational Association, Iota Lambda Sigma and Beta Tau Omega.

During World War II, Wagner served three years in the U. S. Army as an infantryman in the European Theater.

EES Firemen Aid Hurricane Victims

Seven members of the Firemen's Training Division of Texas A&M's Engineering Extension Service are in the Rio Grande Valley to aid victims of Hurricane Beulah.

Chief Henry D. Smith, John Rauch and Jim Bland were joined by A&M fire marshal Elwood Sevison and Bryan fireman Walter Opersteny. They left College Station Tuesday night.

The A&M crew took a rescue truck and a pumper to assist local Civil Defense leaders.

Joining Smith's group Wednesday in Kingsville were fire school instructors Tom Robinson, W. B. Dorman, Paul Williams and James R. Dobson. They had been conducting training schools in the Abilene area.
