'Superglue' Spray Bandage Helps Medics Save Lives

WASHINGTON, AP—Army scientists have developed a sort of spray-on bandage which is helping wounded soldiers in Vietnam who might otherwise die.
The spray is a "superglue" solution which creates a tissue-like film over ruptured organs to halt massive, internal bleeding. It is used only in emergency, life-or-death situations, but has been reported to be effective where it has been used.
Development of the medical aid was disclosed in this week's issue of Army Times, a publication for Servicemen.
Lt. Col. John J. Kovaric of Walter Reed Army Hospital's research institute described the spray's use this way:
"Let's say that an aid man finds a soldier suffering from multiple wounds. The first thing he would do is to try to ease the pain and control the bleeding until the soldier could be evacuated.
"The soldier is then rushed to the operating room and the surgeon sees that bullets have hit the kidney and also severed the intestines. The surgeon's first priority must be to stop the bleeding in the kidney. By applying the tissue adhesive, a thin film quickly closes the kidney wound and the surgeon then proceeds to repair the intestine."
Medical reports from the war zone show that 15 soldiers with serious abdominal wounds were treated with the spray-on tissue. Each survived the operation, Kovaric reported.

Convict Reveals Extremist Plot

PHILADELPHIA (AP) — A fugitive from a Georgia prison gang has told police of an alleged plot to assassinate Philadelphia's mayor, district attorney, police commissioner, President Johnson and FBI Director J. Edgar Hoover.
Dist. Atty. Arlen Specter said the informant, Robert Earl Bailey, 23, of Anniston, Ala., also said City Hall, the Federal Courthouse and Police Administration Building were to be blown up in a plot allegedly hatched by the Revolutionary Action Movement (RAM).
Just Wednesday, RAM was charged with planning to start a riot in Philadelphia, then poison thousands of policemen and top city officials.
Bailey, awaiting extradition proceedings for his return to Georgia, told police in a long statement Mayor James H. J. Tate, Specter and Police Commissioner Frank Rizzo were to be assassinated, along with the President and Hoover.
SPECTER SAID Thursday he had received a report on Bailey's disclosure "some time ago". He said, however, he did not have enough evidence to support filing charges against anyone.
"At this time," Specter said, "all my office can do is continue the investigation."
Bailey told police he was approached several months ago by a member of RAM, while he was in a Philadelphia prison.
Mayor Tate, he said, was to be killed by a dynamite charge in his car. He said he did not know what the murder plans were for Specter.
According to his statement, Bailey said RAM members had promised to have him freed so he could kill Rizzo. RAM also had plans for inciting riots and "explosions and assassinations" in Richmond, New York, Washington, and Baltimore, he said.
