Weekend Activities Set For Tessies

BY JOHN FULLER
Battalion Managing Editor

Fourteen finalists for the 1967-68 Aggie Sweetheart title were announced Monday by Student Senate Vice-President Bill Carter.

The girls, all students at Texas Woman's University in Denton, will visit the A&M campus this weekend and a winner will be chosen Sunday. She will be officially presented at halftime of the TCU football game in Fort Worth Oct. 21.

Carter said the finalists will arrive Friday afternoon and will eat dinner in Duncan Dining Hall. They will be special guests at the Town Hall's presentation of the Standells Friday evening and will attend Midnight Yell Practice afterward.

SATURDAY'S activities will include a morning tour of the campus, a picnic in Hensel Park and a dinner at 5 p.m. in the Memorial Student Center. Later the finalists will be guests at the Florida State football game and at a dance in the MSC Saturday night.

They are to attend a special Sunday morning service at 8:15 in the All-Faiths Chapel, which will be followed by a buffet breakfast in the MSC.

Carter said a five-student judging committee, to be named later this week, will select the new Sweetheart after caucus meetings Saturday night and Sunday.

The finalists were chosen from a field of 29 semi-finalists named last week, Carter noted.

SWEETHEART finalists include the following:

- Darlene Faye Blumenshine, sophomore music education major from Columbia Pa.
- Phyllis Kaye Drake, junior nursing major from Alice.
- Bennie Jordan, junior nursing major from Baytown.
- Barbara Mulvihill, sophomore clothing and fashions merchandising major from Puducah.
- Lou Ann Carrington, senior biology major from Richardson.
- Karen Burk, sophomore home economics education major from Rochelle.
- Penny Gregory, sophomore textiles and home economics ed-

ucation major from Port Aransas.

•Ana Alicia Esparza, sophomore library science major from Laredo.

•Pam Gillespie, junior fashion merchandising major from Pecos.

•Judith Johnson, senior sociology major from Baytown.

•Pam McAlister, sophomore radio-television major from Wellington, Kan.

•Mary Crook, senior nursing major from San Antonio.

•And Kathy Heldman, sophomore music-voice major from Caldwell.

Segner Names Fish Leaders

Fish Yell Leaders for 1967-68 were named Monday.

They are Mike A. Burch, aerospace engineering major from Hempstead, Squadron 11; Dennis K. Chapman, math major from Haskell, Squadron 9; Albert L. Reese, economics major from Houston, Company B-2; Thomas M. Rideout, math major from Marshall, Company E-2; Barrett J. Smith, business major from Perryland, Squadron 2; Ronald W. Van Orne, aerospace engineering major from Fort Worth, Squadron 7.

"The fish were asked to learn three yells, campusology and the football team," Bob Segner, junior yell leader, said. They were also graded on appearance and spirit, he added.

The fish yell leaders will make their first appearance Thursday night when the Aggie "fish" open against the Polywogs of TCU.

Silver Taps Held For Grad Student

Silver Taps were observed Monday night for Richard Henry Jessup, A&M graduate student killed in an automobile accident here Friday night.

Jessup, 31, an 8th-year meteorology student and father of two, was thrown from his station wagon and killed instantly when his vehicle slammed into a concrete bridge pillar at the intersection of FM 2154 and FM 60 late Friday night.

Jessup is survived by his widow, Mrs. Felipa Jessup; son, Michael, 3, daughter, Theresa Marie, 2; one brother, Jack W. Jessup of Hyde Park, New York, and parents, Mr. and Mrs. J. W. Jessup of Brownsville.

Weather

Wednesday: Cloudy, few light rain showers in afternoon—southeasterly winds 10 to 15—high 88, low 71.

Thursday: Cloudy, intermittent rain showers all day—southeasterly winds 10 to 15—high 86, low 72.

Kyle Field, Oct. 7: 81°, 65%, south-southeasterly winds 10 to 15.

12,029 Enrolled In Fall Classes

A record 12,029 students are enrolled at Texas A&M University this fall, announced Registrar H. L. Heaton.

Heaton said current registration represents an increase of 11 per cent over the previous record of 10,676 established a year ago.

The registrar also noted the university has increased its enrollment by more than 1,000 during each of the past three years.

North Vietnamese Reported Infiltrating Under Barrage

SAIGON (AP) — Battle reports produced evidence Monday the North Vietnamese may have slipped fresh troops with modern weapons into South Vietnam's central highlands during the month-long Communist artillery siege of Con Thien.

The attacks on the U. S. Marine outpost at Con Thien slackened for the fifth straight day, possibly because heavy U. S. air attacks on Communist positions in and above the demilitarized zone have inflicted crippling damage.

The U. S. Command reported high-flying B52 bombers in four days last week touched off 110 secondary explosions, indicating direct hits on ammunition dumps and fuel.

WORD OF THE possible infiltration of fresh North Vietnamese troops into South Vietnam came as the nation's military leaders, President-elect Nguyen Van Thieu and Vice President-elect Nguyen Cao Ky, cleared another political hurdle. The National Assembly in Saigon threw out charges of ballot frauds on Sept. 3 and validated the victory of the Thieu-Ky ticket by a vote of 58-43, with one vote blank and four invalidated.

The action near Thieu and Ky will take over the leadership of a civilian-based government next month. They now head a military government with Ky as premier and Thieu as chief of state.

THE U. S. Command reported a day-long clash Sunday between troops of the U. S. 4th Infantry Division and an enemy force 23 miles southeast of Pleiku, a key Army base about 225 miles below the DMZ.

The battle report said the North Vietnamese were wearing new uniforms and were equipped with late-model automatic rifles and other advanced weapons.

While an official intelligence assessment was lacking, the enemy force seemed to be part of a new unit infiltrated into the country by way of the old Ho Chi Minh trail which winds around the DMZ through neighboring Laos and Cambodia from North Vietnam.

THE NORTH Vietnamese are known to be holding four and possibly five regiments in Laos in territory controlled by the Communist Pathet Lao.

Pleiku is about 40 miles east of the Cambodian border and about 60 miles southeast of the nearest Laotian border point.

In previous fighting in the central highlands the Communists sought to cut South Vietnam across the middle. The Red forces always were driven off by U. S. air cavalrymen.

The Marines at Con Thien, 2 1/2 miles below the DMZ, have been holding out against what could be an invasion force of 35,000 North Vietnamese.

THE 4TH DIVISION infantrymen reported killing 28 North Vietnamese in the action near Pleiku Sunday. Artillery and air strikes supported the ground troops.

U. S. losses were put at one man killed and two wounded.

The highlands action was the only one listed as significant by the U. S. Command, although there were other scattered clashes across the country.

In the air war over North Vietnam, U. S. pilots flew 99 strike missions, a lower number than usual and apparently the result of bad weather.

TARGETS included the MIG airfield and railroad yard at Kep, 38 miles northeast of Hanoi, and military structures and supply facilities ranging south through the panhandle. There were no reports of U. S. plane losses.

ETV Department Offers Video Tapes Of Lectures

Borrowing a technique familiar to TV football fans, Texas A&M will soon be offering its students video tape replays of classroom lectures.

M. L. Chastain, director for the university's Educational Television Department, said the program should begin by the end of this semester.

Thirty learning carrels are currently being installed. Each cubicle contains a study desk, television monitor, touchstone dial system and headset, plus a shelf for reference material.

SOPHISTICATED machinery to store audio and visual materials needed by students includes a Sidac 661, a memory unit which allows students in any carrel access to specific information. The Sidac 661 is harnessed to an Ampex VR 660 which plays the video tapes for projection on TV monitors. In addition, four video tape recorders can be harnessed to the learning center.

Chastain noted that 250 hours of video presentations are already taped in biology, psychology, English, industrial education, engineering graphics and education.

Most of the presentations, Chastain pointed out, employ the single-concept theory for a film six to nine minutes in length. Some run as long as 45 minutes.

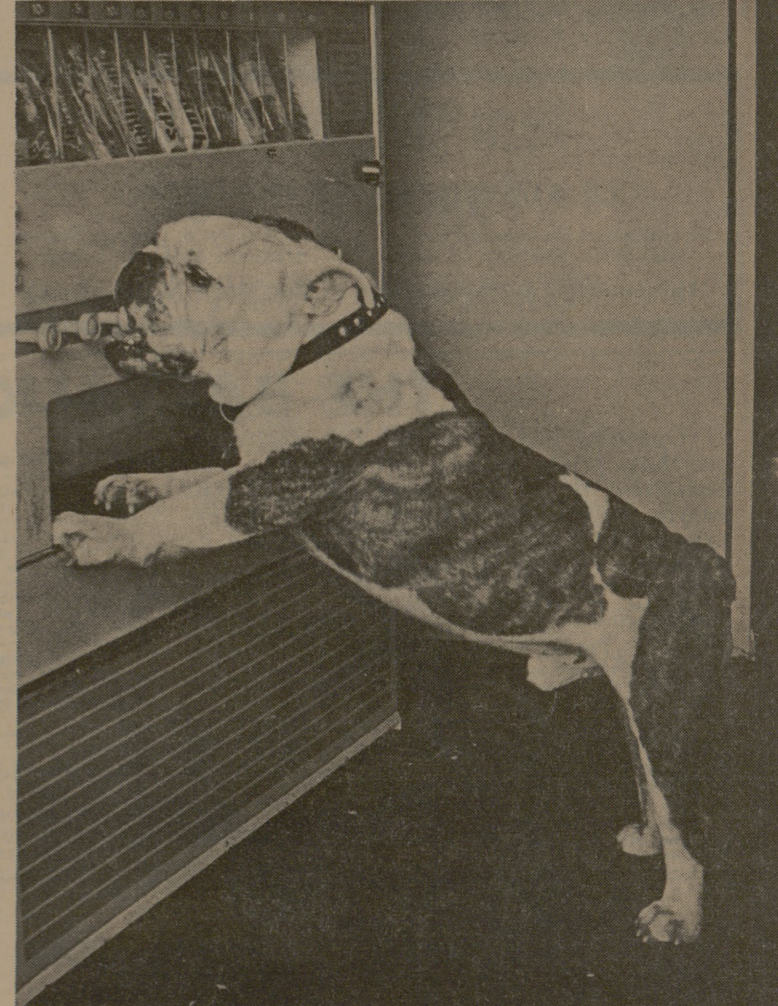

A SCHEDULE in the ETV learning center will show the types of audio and visual materials available. After checking the number of the lecture desired, a student can simply dial the number of that lecture for instant replay.

"If a student doesn't understand a classroom video presenta-

Baptists To Host Foreign Wives

A new program called "Discovery" will be featured at a coffee for the wives of international students at 9:30 a.m. Wednesday in the Fellowship Room of the First Baptist Church of College Station.

NO DOG BISCUITS?

"Every week I check these machines. Every week the same old thing—Baby Ruths, Butterfingers, Hershey Bars . . . BLAH!! What this country needs is a good five-cent dog biscuit—in vending machines. And these knobs aren't the easiest things in the world to pull. Now if they were shaped like the end of a bone, then . . ." — Ranger II
