## The Coaches' Wives

# Aggie At Heart

By VANCY MANNING  
Battalion Staff Writer

"I love football," Mrs. Diane Powell, wife of defensive coach Dee Powell, says.

"I grew up with it," she said. "Dee and I started dating while he was playing football for A&M," she added.

However, "it takes patience to be a coach's wife," Mrs. Powell said. "I start getting butterflies on Friday," she added.

She has found loneliness the only disadvantage. But "a man has to do what he enjoys," she said. "And I know Dee is happy being a coach," she continued. After Coach Powell graduated from A&M, he served in the Air Force for five years. "Although we enjoyed the Air Force, we were very happy to get back to football," Mrs. Powell recalled. "Dee thought of staying in, she added. "But once he was offered a position as a coach, he never thought of doing anything else," she continued.

Coming back to A&M was like coming back home recalled Mrs. Powell. "A&M is the greatest place in the world," she said.

She enjoys sitting in the press box at all home games and attends some out of town games. Her second favorite sport is basketball. "The children are able to attend more basketball games," she noted.

Their son Kavan is an Aggie all the way. He says, "All the good guys come from A&M and all the bad ones from Texas."

He wants to be a football player. "When we got home from the Baylor game, Kavan said, "Daddy

will you play football with me?" Mrs. Powell recalled smiling.

"Both Kavan and Elise love football," she said. "They think that Aggies and football players are the greatest people on earth," she added.

Mrs. Powell always meets the plane when the team plays out of town. "I sometimes take the children and they just love it," she said.

"Kavan has been very impressed by the Aggie Band," Mrs. Powell noted. "And I always get tears in my eyes when they play the 'Spirit of Aggieland,'" she added.

Mrs. Powell really enjoyed the Baylor game. "The team played so well," she recalled.

"It's always nice to win because you learn from winning," she said. "Losing is never good," she added.

After football is over Coach Powell recruits in the Houston area. "He sometimes takes us along," Mrs. Powell said. "The children think it's great fun," she added.

Mrs. Powell, who attended the University of Texas for two years, hopes someday to receive a degree from A&M. "I have always been an Aggie at heart," she said.

She is a member of the Henderson PTA and a Sunday School Supervisor for the A&M Church of Christ.

The New Jersey Americans of the American Baseball Association are coached by Max Zaslowsky, formerly of St. John's and the New York Knickerbockers.

# TRW is success by association

From Los Angeles to Houston to Washington, from Space Systems to Ocean Systems to Information Systems, young people are making things happen at TRW.

Take a look around any TRW location. The young faces outnumber the old by a good margin. The vast majority of scientists and engineers you'll meet are under thirty, or forty at least. Why? Because we depend on young ideas, new ideas, fresh ideas. That's why we need you.

What kind of a place is TRW? Ask around. Talk to your professors and faculty advisors, or your friends who are already working with TRW. Most of our professional employees applied to TRW on the recommendation of friends. Here are some of the disciplines where new graduates may find career opportunities at TRW:

Computer Sciences/Analytical Research / Aeronautics / Information Systems / Digital Systems / Communications Systems/Reliability/Guidance & Control / Sensor Systems / Microelectronics / Electric Power / Space Vehicle Design / Antenna Systems Design and Analysis / Mechanical Engineering / Product Assurance / Integration & Test / Systems Engineering / Circuit Design / Electronic Countermeasures & Electronic Intelligence Systems

If you'll be receiving your degree (Ph.D., MS or BS) in Engineering or Science this year, check with your Placement Director and talk with us

while we're on campus. If you can't make it at that time and would like to be considered for openings in the Los Angeles area, Houston or Washington, send your resume to: W. D. McIvers, College Relations, TRW, One Space Park, Redondo Beach, California 90278.

An Equal Opportunity Employer

TRW (formerly Thompson Ramo Wooldridge) is 60,000 people at 200 operations around the world who are applying advanced technology to space, defense, automotive, aircraft, electronics and industrial markets.
