"When other residents of the

town heard about the settlement

between the parakeets' owner and

the feed firm," Columbetti grim-

aced, "you should have heard the

complaints that poured in. Owners

claimed birds that died more than

a year before although that par-

ticular shipment of feed had ar-

rived at the Port of Houston only

"It was fantastic," Columbetti

chuckled. "People claimed birds

valued at \$5 on up. One man

claimed his parakeet could talk

OUTLANDISH claims regard-

ing the value of animals and

"Chickens which are worth

\$1.25 each suddenly become much

more valuable when they die as

a result of bad feed," remarked

James W. James, administrative

assistant for TFFCS. "Values

soar as high as \$25 per chicken.

And dairymen get paid up to

\$1,000 per cow for animals which

McDonald, president-elect of

"A man called in and wanted

the National Associations of

American Feed and Fertilizer

Control, came up with a corker.

to be paid for his dead goats,' McDonald said. "Another goat-

raiser in his area had received

a settlement for goats killed by

poisoned feed. We checked him

out. He hadn't even bought the same type feed for his goats,

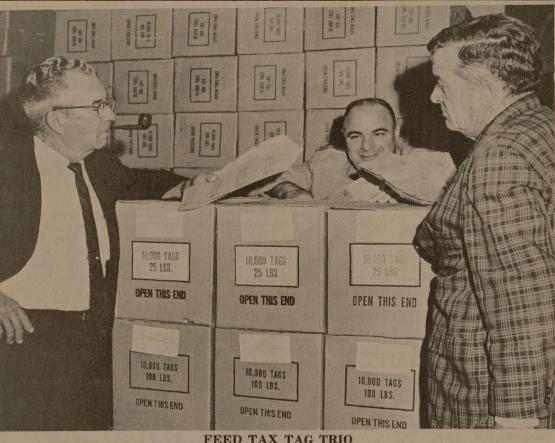

but he wanted to be paid just the

die from contaminated feed."

and was worth at least \$50."

fowls is old hat to inspectors.

a couple of months ago."

FEED TAX TAG TRIO

Reed McDonald (left), Texas Feed and Fertilizer Control Service director, chats with assistant director Nick Columbetti and administrative assistant Jimmy James. The service distributes 50 million tags a year and its inspectors check feed, fertilizer and drug additives in all 254 counties of the state.

## Feed And Fertilizer Service, From Dog Food To Parakeets

and Fertilizer Control Service is the ingredients printed on an ingoing to the dogs.

ing man wanted to register what same invoice. Alerted inspectors turned out to be ordinary dog food as having power to kill fleas on dogs. Texas Feed and Fertilizer Control Service officials ask-

ed him to prove it. He couldn't. One investigator who tried the food on his dog claimed it made

the fleas fatter. Directed by Reed McDonald, since 1956, the service based at Texas A&M covers the state like Johnson grass. Sixteen inspectors check feeds and fertilizers, special ingredients, and drugs in animal feed. In short, they inspect virtually every food sold that is not consumed by humans.

TAKE MOLASSES — a widely used ingredient in animal feed. Agents sometimes stop molasses trucks and check the syrup to see if it has been watered down. Sort of a sticky job, some say. "Texas is the nation's leading

feed state," McDonald observed.

'Ingredients and mixed feed pro-

duced here total 5,700,000 tons annually.' Inspection of dairy feed is a big chore for inspectors. Investigators keep their eyes peeled for

You might say the Texas Feed ers. An inspector recently noted less than one-twenty-fifth part voice did not constitute a good Not literally, but figuratively. formula. He suspected buyers in ally causing death. A short time ago, an enterpris- a distant area might not see the proved his theory correct and the non-nutritive feed was impounded. "In San Antonio, a man tried

> Columbetti, TFFCS assistant director. "You wouldn't think a guy would do that." TFFCS inspectors go from one delicate situation to another trying to apply interpretations of feed laws in a reasonable manner,

to sell 1-1-1 fertilizer to his own

church as 5-10-5," recalled Nick

McDonald said. "THE INDUSTRY has changed tremendously in the last 12 years," McDonald commented. "For instance, in 1957 we had to check only five drugs and additives. That figure now exceeds 100."

Texas lists 2,800 registrants who total 24,103 registrations of feed, fertilizer and added ingredients. Firms in 45 states and five foreign countries ship feeds and fertilizers into Texas. All are checked by the Texas Feed and Fertilizer Control Service. Not long ago, an inspector

spotted some unusual Texas tax fraudulent claims by manufactur- tags on bags of feed shipped from Mexico. Further investigation proved the tags counterfeit. The inspector embargoed the feed until the situation was corrected. Even pet food comes under

scrutiny by the TFFCS. Inspectors often visit super markets and five-and-ten-cent stores for spot checks. parakeets in a small South Texas town recently complained about

College Station, Texas

A COMMERCIAL RAISER of food which killed 400 of his birds. Analysis of the grain showed a residual pesticide, officials said,

INSPECTORS are down-toearth people who make boo-boos like everybody else. The claim is easily demonstrated.

"A couple of our men went into a remote area to check the fertilizer being dispensed by an airplane," McDonald recalled. "Briefly, they got lost in the boondocks. The pilot knew they were coming and began looking for them. He soon spotted them, waggled his wings to attract their attention, then led them back to civilization."

## First Participants Named In Faculty Leave Program

The first four participants in Texas A&M's new faculty development leave program have been announced by President Earl Rudder.

Granted leave with full pay to study for advanced degrees are Weldon H. Newton, Robert H. Kensing, O. B. Clifton and Mrs. Dorothy A. Holland, all of the Agricultural Extension Service.

Rudder noted the Texas Legislature at its last session authorized faculty development leaveoften called sabbatical leave-for as much as six per cent of the faculty, with full pay for six months or half-pay for 12 months.

All four leave recipients will study at Texas A&M.

The A&M board of directors approved the leaves at its last meeting.
