

Junior Radio Ham Leads Local Group

Franklin H. Perry, junior industrial technology major from Bryan, has been selected to lead an organization of Brazos County amateur radio operators prepared to furnish emergency communications in time of disasters, it was announced today by Communications Manager George Hart of the American Radio Relay League, U. S. and Canadian association of radio amateurs.

Perry's assignment, which carries the title of Emergency Coordinator of the Amateur Radio Emergency Corps, is to band together members of the amateur radio service in the community to perfect arrangements for emergency radio communication by hams in the event of natural disasters or other emergencies. In addition to use of fixed radio station equipment working from commercial power, amateur stations use self-powered radio transmitting and receiving equipment as needed and can often deploy portable or mobile units to accommodate a particular emergency requirement.

Perry, as ARRL Emergency Coordinator, will call local meetings of amateurs, establish common operating procedures, and arrange regular drill periods when the hams' personal stations may be mobilized under simulated emergency conditions. His duties also include liaison planning with

relief and public welfare agencies, as suggested in working understandings the ARRL Amateur Radio Emergency Corps has with the Red Cross, Civil Defense, and other agencies. Liaison will be established also with local protective services, such as fire and police departments.

In announcing the appointment, Hart pointed out that radio amateurs have traditionally had the responsibility of being in constant readiness to offer assistance in time of need with ham-acquired skill, emergency-powered transmitters and a wealth of community spirit. "When sleet storms disrupt telephone and telegraph service, or floods isolate whole communities," the League's Communications Manager said, "it is amateur radio that comes to the rescue with operators and self-powered equipment, often as the sole agency able to transmit messages calling on the outside world for aid for the stricken community."

"To be prepared for this function requires not only a highly organized program of preparedness locally," Hart continued, "but hams outside the disaster area must be prepared to act as outlets and relay points for emergency traffic. Planning and organization are necessary in either eventuality and that is the job Franklin Perry is doing for this area."

Texas Veterinarians Hold Annual Conference In MSC

Cattle care will receive special emphasis during the 21st annual Texas Conference for Veterinarians Thursday and Friday in the A&M University Memorial Student Center.

Sessions on cattle ailments are scheduled for Thursday. Topics include thoughts on large animal practice, respiratory diseases in feedlot animals, cancer eye, the spastic paresis syndrome in calves, programmed herd health, and udder surgery.

The overall program also will have subjects that apply to both animals and man.

Dr. Don Sutherland, director of Medical Education, Saint Paul Hospital, Southwestern Medical Center, Dallas, will speak Thursday morning on "Lymphomas in Man and Animals." Lymphoma is a tumor of the lymph gland.

On Friday morning, Dr. Donald L. Piermattei will discuss "Heart Transplant, Past, Present and Future," and Dr. Clyde Caperton will talk on "Skin Diseases of Small Animals and Man."

Dr. Piermattei is a member of the A&M College of Veterinary Medicine on study leave at Colorado State University. Dr. Caperton is a dermatologist in Bryan.

Other topics during the overall program are practical horse ration balancing, parasitic diseases of small animals, common infectious diseases of small animals, thoughts on small animal practice, laboratory animal medicine, measurement of central venous pressure, and preparation of tissues for histopathological interpretation.

The conference also will serve

A&M OFFICERS CITED
Maj. Donald L. Coss, Capt. John L. Conley and 1st Lt. Richard J. Sajdak, Air Force Institute of Technology students at Texas A&M, were decorated last week for outstanding service at previous duty stations. A&M's ranking Air Force officer, Col. Vernon L. Head, made the presentations and administered the oath to two new Regular Air Force officers, Capt. Richard L. Terwilliger and Sajdak.

Officers Receive Air Force Awards

Three Air Force officers were decorated and two were sworn into regular service last Thursday at Texas A&M.

The special A&M students are pursuing graduate degrees through the Air Force Institute of Technology. Awards and the oaths were administered by Air Force Col. Vernon L. Head, professor of aerospace studies.

Maj. Donald L. Coss of Denver, Colo., received the Air Force Commendation medal for work as a system analyst at Offutt AFB, Neb. The space orbital analyst and avionics officer is studying for a master's degree in computer science. He received the bachelor's degree in psychology at Omaha University.

Bronze Star recipient of Merryville, La., Capt. John L. Conley was cited for service in Vietnam. He commanded a weather detach-

ment which provided support for tactical operations of U. S. Army units at Vinh Long. The Air Force meteorologist is studying for a master's in meteorology and studied basic meteorology at A&M in 1963-64.

First Lt. Richard J. Sajdak of Bay City, Mich., distinguished himself as munition maintenance officer at Webb AFB, Texas. He aided research on a low aerial targets weapons system. The mechanical engineering graduate student was also awarded the Commendation Medal.

Capt. Richard L. Terwilliger of Springfield, Ore., and Lieutenant Sajdak were appointed in the Regular Air Force.

The captain, studying computer science for a master's degree, was a weapon controller at Perrin AFB on his last assignment.

TSCRA Directors Slate Meet Here

Veterinary demonstrations and a program on grain sorghum will be special features of the Texas and Southwestern Cattle Raisers Association directors meeting here Friday and Saturday.

The directors will hold business sessions in the Ramada Inn Friday and Saturday mornings. TSCRA President T. L. Roach, Jr. of Amarillo will preside over the general business session at 9 a.m. Saturday.

Dr. W. L. Sippel of the A&M College of Veterinary Medicine is in charge of veterinary demonstrations Saturday afternoon. The directors will see vaccinated calves, surgery, infertility diseases, sorghum cystitis of horses, calf parasites, and poisonous plants.

Later Saturday afternoon, Dr. O. D. Butler, head of the A&M Animal Science Department, will be in charge of a program on "The Grain Sorghum Story."

Sorghum topics will cover processing, nutritive value of different varieties, feedlot results with different varieties and hybrids, and digestibility differences among varieties.

Randall Selected Executive Member

Dr. John D. Randall, director of Texas A&M University's Nuclear Science Center, has been elected a member of the American Nuclear Society's executive committee.

Appointment to a three-year term beginning next month was announced by Lester Kornblith Jr., chairman of the Reactor Operations Division of AMS.

Randall joined Texas A&M in 1958 after receiving B.S. and M.S. degrees in engineering physics and nuclear engineering at the University of California. He earned his Ph.D. in nuclear engineering here in 1965.
