61 Nations Send Students To A&M

Texas A&M is fast becoming a second United Nations if foreign student enrollment is any indication.

Sixty-one foreign nations are represented on campus this semester with 611 international students enrolled in classes, reports Foreign Student Advisor Bob Melcher.

Texas A&M's record enrollment of 12,592 was boosted this fall by the foreign student enrollment led by six countries sending 25 or more students, Melcher added.

The Dominican Republic is again the leader in number of students with 85. During the spring term the Dominican Republic had more students at A&M than any other country as it did in the fall 1967.

Other leaders include China with 53, followed by Pakistan with 51, India with 47 and Mexico with 51. Tunisia has 25.

Countries with 15 or more students registered include Argentina, Canada, Iran, Korea, Panama and Venezuela.

Almost half of the foreign students—275 of them—are studying for graduate degrees. Juniors represent the highest number of undergraduate students with 90, followed by 83 freshmen, 72 seniors and 71 sophomores. There are 20 special students.

Not returning after the spring semester were students from Algeria, Arabia, Holland, Malaysia and Paraguay, all of whom were graduate students. Only one country with an undergraduate, Trinidad, is not represented.

New countries this fall without students here in the spring are Ceylon, Denmark, France,

Cochran Named To ECPD Board

Dr. Robert G. Cochran, head of Texas A&M's Nuclear Engineering Department, has been appointed to the board of directors of the Engineers Council for Professional Development.

Cochran will represent the American Nuclear Society. He is currently chairman of the Educational Division of this 6,000-member professional organization.

The ECPD is responsible for the coordination of the efforts of the various engineering technical societies in the United States and Canada. Committees composed of representatives from the several engineering disciplines are appointed by the board.

Cochran, who has headed the Nuclear Engineering Department since 1959, has been a technical consultant for start-ups of more than a dozen research reactor facilities in the United States.

A graduate of Indiana and Pennsylvania State, Cochran also serves on the sub-committee on research reactors of the National Academy of Sciences.

N. Irish Cops Avoid Clash On Religion

BELFAST (AP) — Police averted a clash between Roman Catholic and Protestant demonstrators in this Northern Irish capital today by persuading the Catholics to change the route of a mass protest march by 1,500 Queen's University students.

The Protestants, led by the Rev. Ian Paisley, had threatened a counterdemonstration in Shaftesbury Square to prevent the Catholic students from entering Belfast's Protestant working class quarter.

The Queen's students marched to protest alleged political discrimination against Roman Catholics and what they called police brutality in Londonderry, where 96 persons were injured in weekend demonstrations.

Roman Catholic nationalists want North Ireland's six counties joined with the Irish Republic to the south. They have scheduled a token strike Friday and another big demonstration in Londonderry Saturday.

William Craig, minister of home affairs, said the Londonderry demonstration will be banned. The authorities permitted the Catholic students to march in Belfast today on condition they changed their route, but banned Paisley's counterdemonstration.

The Protestant minister then led 200 supporters to city hall, where he told 2,000 bystanders Premier Terence O'Neil should be ousted for failing to prosecute Catholic activists.

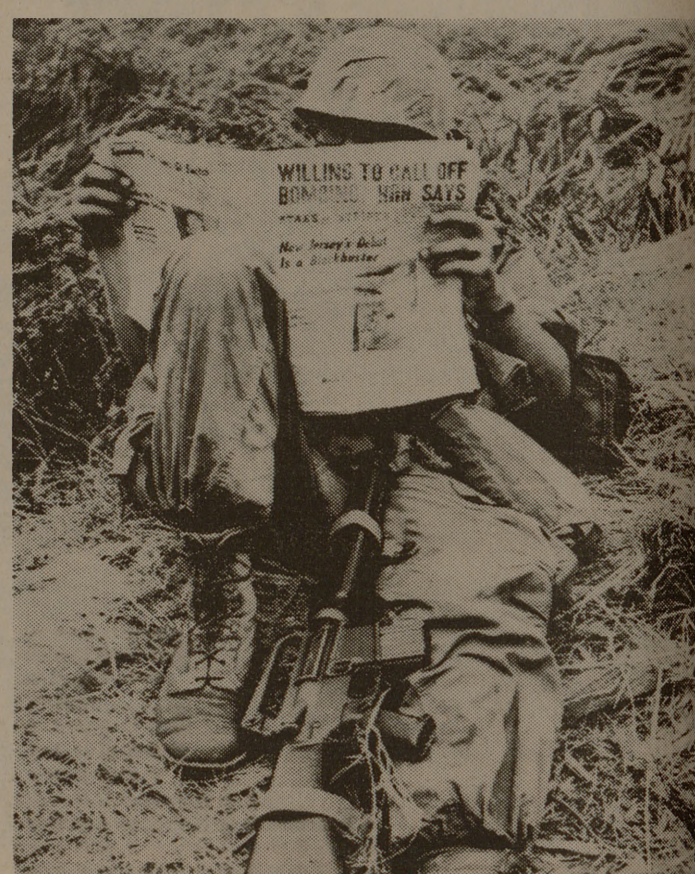

"They must be prosecuted," he said. "O'Neil must pack his bags and go."

Riflemen To Face UH, Prairie View

Texas A&M's rifle team faces defending Southwest Rifle Association champ Houston and Prairie View A&M Oct. 19 in a three-way shoot-out on the Military Science Department range.

The Aggies, winners of the first SWRA match of the 1968-69 season, were association runnerup last year.

A&M defeated Trinity, 1,299 to 1,113, last weekend with team captain Chris West of San Antonio furnishing the top shooting. He scored 270 out of a possible 300 in the three-position match.

HE'S INFORMED Pfc. Gerald House of Los Angeles, Calif., reads the GI newspaper Stars and Stripes which carries the headline "Willing to Call Off Bombing, HHH says." House is a member of the 199th Light Infantry Brigade, which is responsible for protecting Saigon from the enemy. (AP Wirephoto)
