**ORDER NOW!**  
**PRE-PUBLICATION**  
**PRICE JUST**  
**\$4.95**  
**A 20% SAVINGS**  
**OFF REGULAR PRICE**

Here is the 1968 season. The zany, unpredictable Southwest Conference season. Where underdogs become topdogs on any given Saturday. Where comparative scores, home field advantage and other prognostic devices are thrown to the winds. Where on the day of the game it's just us versus them and to hell with what happened last week or last year. Yes, the Southwest Conference has tradition — anyone can win, anyone can pull the big shocker of the season and fate doesn't play favorites.

- A HISTORY OF THE 1968 SEASON
  - HARDBOUND LIBRARY EDITION
  - 7 3/4" X 10 1/2" / 160 PAGES

**A SURE TWO**

Jack Davis of A-2 goes up for a sure two points in an intramural basketball battle with F-2. Defending against Davis are Charlie Straup (left) and Charles Woodrow. (Photo by Mike Wright)

## Intramural Round-Up

The intramural story continues:

In Class A Flag Football, Squadron 11 and 10 fought to a scoreless tie but Sqd. 11 was awarded the victory on penetrations. This gave Sqd. 11 an undefeated record for the regular schedule.

E-2 pulled the upset of the day when they edged by F-2 in another scoreless duel again with penetrations deciding the margin of victory. Both companies finished with 3-1 records, but E-2 will represent the league in the playoffs.

In other football games, Sqd. 2 downed Sqd. 3, 14-6, but Sqd. 3 will go to the playoffs anyway by virtue of their 3-1 record.

Class B Basketball action saw A-2 emerge as the champions as they bombed F-2, 40-28. Picard was the leading scorer for the winners, tossing in 18 points while Stooks and Mitchell contributed 8 and 7 respectively. Sargent and Woodrow both scored 10 points for F-2 in their losing effort. B-1 and Sqd. 4 were the third and fourth place finishers.

In Class C, the only action was in bowling with the Mexico Club defeating the Luthern Student Organization, 464 to 367, to earn a semi-final playoff berth against the Physics Club. Members of the Mexico Club are Carlos Garza, E. Martinez, and G. Currielche.

## Tigers Challenge Tough Brenham At Home Tonight

The A&M Consolidated Tigers put a three-game winning streak on the line tonight as they tangle with the tough Brenham Cubs at 7:30 p.m. at Tiger Stadium.

The Tigers moved their season record to 3-3 and are tied for the first round lead in District 10-AAA North Zone with a 1-0 mark with their one-sided romp over LaGrange, 28-0, last week. The Cubs are tied with the Cats for the lead following their 41-0 run-away against Kemp.

## Dallas, Atlanta Set Battle For Matson

By DEANNE H. FREEMAN  
 Associated Press Sports Writer  
 DALLAS, Tex. (AP)—The Dallas Chaparrals of the American Basketball Association plan a bidding war with the Atlanta Falcons of the National Football League for the services of Olympic shotput king Randy Matson.

"We are planning to really go after him," said Max Williams of the Dallas club. "He would be a tremendous draw."

"Matson has got a lot of talent and is a tremendous jumper. Of course, he would be too heavy to play right away."

Matson was an excellent basketball and football player at Pampa, Tex., High School. He played basketball his junior year at Texas A&M and was impressive until he twisted his knee.

The Chaparrals wouldn't say how high they were willing to bid, but said they would offer Matson a bonus and a multi-year contract.

Williams said Matson wants to make his home in Dallas because he eventually wants to go into banking.

"He plans to come and see our operation soon," Williams said.

Frank Wall, general manager of Atlanta told The Associated Press that the Falcons had been in touch with the medal winner and figure Matson "will talk with us before he signs with anybody."

Wall said Matson was a "great prospect."

"He has tremendous speed for his size and would make a tight end, offensive tackle or a great defensive end," said Wall.

Commenting on the Chaparral threat to bid high for Matson's services, Wall said, "I guess it just depends on whether Matson wants to play football or basketball. We certainly don't plan to get into a bidding war. We've been through that before."

Wall said Matson visited the Falcon training camp before the Olympics got underway.

## AGGIES

(Continued From Page 1)

back while another sophomore from Houston, Dave Elmendorf, is expected to take Long's spot at wingback.

Filling out the Aggie backfield will be quarterback Edd Hargett and fullback Wendell Housley. Hargett had his greatest game of the season last week in leading the Aggies past TCU 27-7 while Housley continued to set up the running game with tremendous blocks.

At the ends will be Barney Harris and Tommy Maxwell while Tom Buckman and Mike Stinson will be the tackles, Jim Parker and Rusty Stallings are expected to be at the guards and Jack Kovar will be the center.

ON DEFENSE THE AGGIES are expected to start Mike DeNiro and Jim Piper at the ends, Rolf Krueger and Harvey Aschenbeck at the tackles and Lynn Odom at middle guard. Bill Hobbs and Buster Adams will be at the linebacking spots while Ivan

Jones, Curley Hallman, Ross Brubacher and Tom Sooy are expected to be in the defensive backfield.

Stallings said that Hobbs, who has had a bad back all season, was in better shape this week than he was last week at this time.

Baylor Coach John Bridgers scouted the Aggies in their game with TCU and came away impressed.

A crowd in excess of 40,000 is expected for the game. A&M leads the overall series between the two teams 37-20-7.

# if you think Collins

# Radio Company makes radios...

## you're right. But not home radios for music, news, weather and sports. Collins does...

- Supply communication/navigation equipment for more than 75% of the world's commercial airliners.
- Provide voice communication systems for all U. S. space flights.
- Rank as the largest independent producer of microwave systems.
- Design and manufacture computer systems for airlines, railroads and many other military and industrial organizations around the world.
- Serve as prime contractor on NASA's worldwide Apollo tracking network.
- Design and install complete earth stations for satellite communications.
- Rank as one of the world's leading manufacturers of commercial broadcast equipment.

What does this mean to you? It means that college graduates are finding assignments that challenge their ingenuity in activities ranging from microminiaturization to airborne computers.

At each of Collins' four major facilities, opportunities exist in electrical, mechanical, and industrial engineering, and in computer science.

- CAREER OPPORTUNITIES:** • Product Design and Development • Field Support Engineering • Electronics Research • Data Operations • Programming and Systems Analysis • Purchasing • Accounting • Systems Design Engineering • Manufacturing • Technical Writing • Process Engineering • Integrated Circuitry Design • Microelectronic Thin Film Design • Reliability Engineering • Quality Engineering
- MARKETS AND PRODUCT AREAS:** • Aviation Systems • Broadcast • Specialized Military Systems • Telecommunication • Microwave • Space Communication • Computer Systems • Amateur Radio

Collins representatives will visit more than 100 campuses this year. Contact your College Placement Bureau for details. Or you may send your resume, in confidence, to: Manager of Professional Employment, Collins Radio Company, Dallas, Texas 75207; Cedar Rapids, Iowa 52401; Newport Beach, California 92660; or Toronto, Ontario.
