Naval Research Laboratory

WASHINGTON, D.C.
 An Equal Opportunity Employer

The Navy's Corporate Laboratory—NRL is engaged in research embracing practically all branches of physical and engineering science and covering the entire range from basic investigation of fundamental problems to applied and developmental research.

The Laboratory has a continuing need for physicists, chemists, metallurgists, mathematicians, oceanographers, and engineers (electronic, electrical, and mechanical). Appointees, who must be U.S. citizens, receive the full benefits of the career Civil Service.

Candidates for bachelor's, master's, and doctor's degrees in any of the above fields are invited to schedule interviews with the NRL representative who will be in the

TEXAS A&M UNIVERSITY

placement office on
WEDNESDAY, NOVEMBER 20

Those who for any reason are unable to schedule interviews may write to The Personnel Office (Code 1818-1), Naval Research Laboratory, Washington, D. C. 20390.

HARD LANDING
 Barney Harris took a lot of lumps on this attempted runback of an SMU field goal try but the referee ruled that he was down before he fumbled the ball. (Photo by Mike Wright)

Rice Still Packs Punch

By JOHN PLATZER

In the Rice Owls Saturday afternoon at Kyle Field, the Aggies will be facing an exciting team with more ability than they have shown thus far this season, according to A&M head coach Gene Stallings.

"Rice has a lot better football team than their record (0-6-1) indicates," Stallings said at yesterday's press conference in the Letterman's Lounge.

"They got 25 first downs

against Arkansas and they get a lot of mileage out of Tony Conley while Robby Shelton is an exciting type of player."

The Aggies will enter the game with a 2-6 season and 1-4 Southwest Conference record.

Commenting on the Aggies 36-23 loss to Southern Methodist last week, the Aggie athletic director said that he felt that his team's overall pass defense "wasn't bad."

SMU entered the game against

A&M as the number one passing team in the nation but it was the running of Mike Richardson that did the Aggies in. Richardson rushed for 244 yards in the game to break a Mustang record set by Kyle Rote.

Stallings said that Richardson ran real well and that the Aggies tackled poorly.

Once again quarterback Edd Hargett received special praise from Stallings for his performance against the Ponies.

"I think Edd Hargett is playing awfully well. He is just an awfully good quarterback," Stallings said of his senior signal caller.

Other Aggie offensive players cited for their play against the Methodists were Jimmy Adams, Barney Harris and Bob Long. Ivan Jones, Lynn Odom, Rolf Krueger and Buster Adami were the top A&M defensive performers in the game, according to Stallings.

Bill Hobbs and Tommy Maxwell missed the game with SMU but both are expected to be ready for Rice this weekend.

Dave Elmendorf, the Aggies' versatile sophomore, took over Hobbs spot in the lineup against SMU and will move to the defensive secondary in practice this week.

The Aggies enter Saturday's match against Rice with the number four offense and number five defense in the conference. The Aggies are averaging 360.5 yards per game while the defense has allowed 372.5 yards per contest.

Hargett, who has thrown 130 straight passes without an interception, has completed 126 of 262 thus far this season for 1,772 yards and 12 touchdowns.

Lombardi Will Stay As Green Bay GM

GREEN BAY, Wis. (AP)—Vince Lombardi will remain in Green Bay as general manager of the Packers, until an angel alights on his desk and asks him to sign on the dotted line to handle the team from Utopia.

That, at least, was the terminology invoked by Lombardi Tuesday as he again tried in the strongest possible way to stem the rumors suggesting he might be leaving Green Bay.

"No one's contacted me and I haven't contacted anyone," Lombardi said without the trace of a smile. "I have no offers and right now no intentions of seeking any. As far as being a general manager I'd just as soon stay in Green Bay."

"But I don't know of anyone perfectly happy, and this is not a Utopia. Nothing is. If the opportunity presented itself—for me to get some equity — then

that would be a different proposition entirely. But I haven't heard of any angels ready to give me something away.

"Besides," he continued, "there would be a better chance of finding me away from here if I were winning; if everything were successful here. It would be in those circumstances—if I had any inclination about leaving."

The Packers, of course, have been winning. They now have lost two in a row and dropped into a tie for last place in the Central Division of the National Football League with a 3-5-1 record. But while that undoubtedly disturbs Lombardi, he admits that not coaching does

"I made a decision to give coaching and I'm sticking to it," Lombardi said firmly. "It hasn't been easy. As a matter of fact, it's been quite difficult."

THE MEASURE OF A MAN

is important to the Halliburton family of companies... and to your future!

Halliburton Services
 Otis Engineering Corp.
 Brown & Root, Inc.
 Welex Division

A&M students—undergraduates, soon-to-graduate and those pursuing advanced degrees—are invited to take a look at the career opportunities in the Halliburton family of companies. Maybe we'll measure up to your requirements and you'll measure up to ours.

Our representatives will be on campus on Friday, Nov. 15 to tell you how the diversified, world-wide Halliburton companies can be important to your future. The placement office knows where we'll be and the welcome mat will be out.
