The Battalion Award (which, lest we forget, is awarded more or less monthly to "some person in the public eye" who has displayed "those qualities . . . which distinguish invested which electrony should be a solution of the inspired public-relations work from mere shoddy drumbeating") goes, more in pity than in censure, to Jack Gallagher, sports columnist with the Houston Post.

To all Texas Aggies:

Joe's parents, brothers and sisters and our daughter Robin and and its creed. I wish to express thanks and appreciation to all of you who helped and offered to help in the period preceding and following Joe's funeral on Feb. 19.

The presence of so many of you at the service was a comfort to us and also a great honor. Joe spent nine of the ten months of his tour in Laos and wrote many times of the war-torn land and of the people living there. His job was important to him and he won the respect and friendship of the Lao. He loved his freedoms and country so much that he tried to help the Lao escape the strangling hands of the

Communists. Our daughter Robin won't be an Aggie like her father, but I hope she dates or marries one because that's got to be the next best thing!

Observers Say Nixon Has Confidence Of DeGaulle

By ANDREW TORCHIA

Associated Press Writer LONDON (AP) — The most remarkable achievement of President Nixon's European tour was his winning the confidence of President Charles de Gaule, some West European newspapers said today.

But some said months must pass before it becomes clear whether Nixon's personal triumph in five European capitals can be transformed into practical measures to improve contacts between Western Europe and the United States.

WHILE WESTERN commentators judged the eight-day trip a success, Communist reactions were guarded. The East German news agency ADN reported in a one-paragraph story, "during the trip there were powerful anti-American demonstrations, espe-cially in Rome and Paris."

Pravda, the only newspaper published in Moscow this morning, ran two brief accounts by the Soviet news agency Tass. Soviet newspapers have avoided criticism of Nixon's tour, apparently because the government does not want to endanger negotiations shaping up between the Soviet Union and the United States.

IN GENEVA, the independent La Suisse said: "The two days that Nixon spent in Paris show undisputedly that confidence has taken the place of suspicion, intransigence or systematic misunderstanding."

West Germany's Frankfurt Abendpost said Nixon's trip has improved "the climate of unity between two continents and the special climate between the U.S.A. and France.

Le Figaro, which usually reflects the views of the French government, Nixon and De Gaulle had started examining the world situation together "in a new spirit without reference to what Mr. Nixon called 'old slogans' and 'old quarrels.' "

BUT OTHER Paris newspapers said the atmosphere between

Paris and Washington may be lationism has been removed and improved but problems persist. The conservative L'Aurore commented: "Beneath the excellent words of courtesy, it escapes no one that the divergences subsist: NATO, European politics, Near East, the proposal was a monetary conference. But finally, between Paris and Washington, there is — let's admit it — a sort of thaw."

The London Times said: "Nixon seems to have brought off a coup that was beyond both of his predecessors." After nearly a decade of Franco-American discord, President Nixon has found in General de Gaulle a man he can listen to with interest, whose ideas about Europe are by no means to be brushed aside and whose presence in Europe can be

given due weight." AUSTRIA'S DIE Presse praised Nixon's "sober, positive and friendly approach."

In Brussels, Belgian Senate speaker Paul Struye wrote in Libre Belgique: "We must rejoice at the results achieved so far. The over-all atmosphere of international relations has much improved. From a human point of view, Mr. Nixon raised sympathy by his direct, human, open attitudes, gestures, statements."

Struye concluded that the danger of a return to American iso-
