

Expanded Forestry Education Asked

Texas A&M has petitioned the Coordinating Board, Texas

College and University System, to allow the university to expand its role in forestry education.

In making the request, A&M has asked for authority to grant the bachelor and master of science degrees in forestry and to establish a Department of Forest Science.

Dean of Agriculture Dr. H. O. Kunkel said the Department of Forest Science would be the fourth department in the School of Natural Biosciences within the College of Agriculture. The departments already in the school are Range Science, Recreation and Parks and Wildlife Science.

A&M has a "long history in forestry education in addition to the significant contributions made in forestry research and Extension," the dean pointed out. Currently, the PhD degree is offered in seven distinct areas of forestry science, and the research effort has been enlarged in support of the graduate program.

HE EMPHASIZED that A&M has one major objective in making the proposal, and that is to strengthen forestry education in Texas by consolidating the vast resources of a university and to provide a superior forestry educational system.

The dean said A&M has the capability for operating the ex-

panded forestry education program. The present forestry faculty consists of nine members with 20 additional faculty in the related natural resource fields of range and wildlife sciences, outdoor recreation and natural resource development.

Sixteen other faculty members are in supporting departments, such as Civil Engineering, Statistics, Plant Sciences, Soil and Crop Sciences and Agricultural Economics. This gives a total of 45 faculty, most of whom hold doctoral degrees, who will contribute to the proposed forestry program, the dean said.

THURSDAY

Computer Science Wives Club will hold its PHT banquet at 7 p.m. at the home of Capt. and Mrs. Jimmy Hicks, 803 Glade. The affair will be a Western Roundup; dress will be casual.

Mid County Hometown Club will meet at 7:30 p.m. in the lobby of the MSC. Officers will be elected and end-of-school party will be discussed.

AVMA Student Chapter will meet at 4:30 p.m. in the Veterinary College Auditorium. Dr. Mike Abel '64 will speak on "The Future of Large Animal Practice."

Williamson County Hometown Club will meet at 7:30 p.m. in room 3-A of the MSC. Year-end party will be discussed.

FRIDAY

Chees Committee will meet at 7:30 p.m. in room 3-B of the MSC.

SUNDAY

Alpha Phi Omega will meet at 8:30 p.m. in room 3-C of the MSC. Elections will be held for next semester. Pledges are meeting at 6 p.m. in the same place.

At Supervisors' Meet

Female Labor Chief Will Speak Here

One of the nation's most outstanding women, Mrs. Elizabeth D. Koontz, will be keynote speaker of the annual School Supervisors Conference here June 9-11.

The Women's Bureau Director of the U. S. Department of Labor and former National Education Association president will set the theme of the conference, discussing "The Challenge and the Change" in the first general assembly.

An assemblage of 700 county superintendents, school administrators and instructional supervisors is expected for the three-day conference sponsored by the school supervisors' associations and the Education Department here.

Values, commitment and change thrust upon educators by the current challenge will be examined by speakers, panels and discussion groups, according to Dr. Paul R. Hensarling, education professor and conference chairman.

MRS. KOONTZ, a native of Salisbury, N. C., came from a family of educators and has contributed to America's educational leadership since 1965, when her rise through the ranks of the National association led to the presidency of the Association of Classroom Teachers.

She was appointed that year by President Johnson to the National Advisory Council on the Education of Disadvantaged Children. Mrs. Koontz' activities included membership on NEA's Council for Exceptional Children, the National Association for Retarded Children and the National Urban League education committee.

OBSERVER of the Berlin Wall as guest of the German Teachers Association in West Berlin, she also attended conferences of the World Confederation of Organizations of the Teaching Profession in Korea, Canada and Ireland. Mrs. Koontz was one of 16 Americans requested by "Saturday Review" in 1964 to visit the Soviet Union for improved relations discussions.

President Nixon appointed her to head the Labor Department bureau in January.

Mrs. Koontz studied at Livingstone College in Salisbury, took

her master's degree in elementary education at Atlanta University and has done graduate work at Columbia and Indiana universities and North Carolina College at Durham, specializing in special education for slow learners and disadvantaged children.

MRS. KOONTZ

1957 Grad Logs New Flight Mark

Air Force Maj. Nelson J. Sprague, 1957 Texas A&M graduate of Manchester, Conn., recently piloted a KC-135 command and control aircraft on a six-day, around-the-world flight that established a first and logged a record.

Purpose of the flight was to airlift command officials to observe U. S. Strike command (USSTRICOM) forces training in Korea and record the first official visit of a top-level U. S. military officer to the Republic of Uganda.

Dignitaries piloted by Sprague included Lt. Gen. Benjamin O. Davis Jr., USSTRICOM deputy commander, and Ambassador John O. Bell, USSTRICOM diplomatic advisor.

Major Sprague, who was in Squadron 12 and studied industrial technology here, is stationed at MacDill AFB, Fla., and is an instructor pilot at headquarters of USSTRICOM, the unified command responsible for U. S. defense activities in countries of the Middle East, Africa south of the Sahara and Southern Asia.

TEXAS AVE. & POSTOFFICE ST. — BRYAN, TEXAS

Bill says advertising only benefits big companies.

But who started aerosol shave cream?

A small outfit, who backed a good idea with advertising.

Back in the '50's, a modest-sized company named Carter Products came up with something new: an aerosol push-button lather called RISE.

They didn't have much money for advertising—barely one-tenth of what the leading brushless shave cream was spending.

But that was enough. RISE was a hit.

Naturally, the big companies came back with their own aerosol brands. But the hotter competition got, the more people tried RISE. Today, RISE sells over 15 times what it did in its first year—thanks largely to all this advertising.

Maybe you, like Bill, think advertising favors big companies, raises prices, keeps unwanted products on the market. But ac-

tual cases prove just the opposite. Advertising helps lower prices (look at color TV). Promotes new ideas (like RISE). Gives us a choice. Helps imaginative smaller companies compete (Volkswagen, for instance).

Interested? Write us. We'll gladly send you more facts about advertising. You'll find they speak for themselves.

In the meantime, keep an open mind.
