Edwin H. Cooper, director of civilian student activities and Rules and Regulations Committee chairman, said most changes were proposed by the Student Senate and had earlier been approved by the Rules and Regulations Committee and A&M's Executive Committee.

The Academic Council is composed of administrative officers, deans and department heads.

All the new and revised regulations, plus items approved earlier, editorial changes and conversion to the four point grade system, will be published and available by the start of the fall term, Cooper said.

One of the major changes is in final examination schedules.

It reads: "The final examination shall be designated to cover a period of two hours (from three hours) except for courses carrying one hour of theory, which shall have one hour examinations given during the last class period. In those instances where a student is scheduled for three final

two), the student may request of his academic dean a rescheduling of one of the examinations.

"The dean, department head and faculty member will make every effort to accommodate the student when such a request is

Cooper explained that one reason for the change was the fall semester ending prior to Christmas in 1970. It requires a shorter semester.

Methods for conducting elections were completely revised, Cooper noted. Also, a new section was added to clarify filing procedures and eligibility to hold student offices.

The changes include:

-Grade point ratios will be figured to the third decimal place in determining the academic eligibility of students for elected office. If a candidate's grade point ratio is anything less than that required as minimum for the office, he is ineligible to complete

-The term "over-all grade point ratio" is synonymous with the term "grade point ratio." Only the record made in course work for which the student was registered at Texas A&M shall be used in determining his grade point ratio.

—The Election Commission will be responsible at filing time for each student election for obtaining signed certification from the registrar indicating the candidate's official GPR, scholastic probation and official academic classification. This certification

can be made only by the registrar. -The Election Commission will hold secret ballot elections in centrally located polling places.

-The Election Commission membership is reduced. A new representation pattern was approved and the Polls Committee has new and outlined duties.

-The maximum campaign expenditures is raised from \$25 to

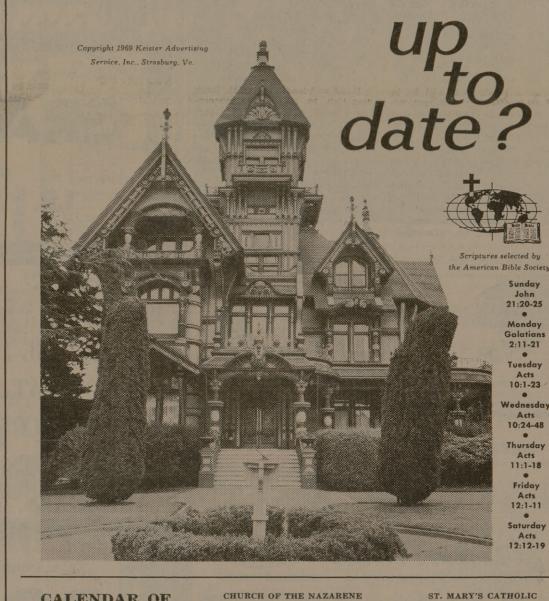

Membership on the Civilian Student Council was increased by two-including a woman member -under the revised regulations. A second vice president and a representative of the University Women's Association will be added.

Cooper noted that the The Aggie Code of Honor, which was a separate published booklet, will be included in the University Regulations. Corrective measures under the code were revised.

The Church.. For a Fuller Life.. For You..

Would you like to live in a house like this? It might be fun for awhile, but chances are that the novelty would soon wear off. When it comes to daily living, Americans are comfort-lovers. We want the latest car, deep freeze, stove or vacuum cleaner.

Because we pride ourselves on being modern, sometimes we are apt to think of going to church every Sunday as old-fashioned and out of gear with the present-day world. But the Church, in case you haven't noticed, is keeping up with the times far better than a lot of us. And isn't it true that certain basic truths, traditions and ideals cannot be gauged as modern or old-fashioned? The Church is ready to face tomorrow. Why not go next Sunday and see for your-
