# Aggie Win A 'Must' In Ft. Worth Saturday

By Richard Campbell  
Battalion Sports Editor

It will be a battle for survival Saturday afternoon in Amon Carter Stadium in Fort Worth when the Texas Aggies and Texas Christian Horned Frogs collide at 2 p.m.

Both teams need a victory to keep their conference hopes alive after suffering close defeats last week. The Horned Frogs fell to SMU, 19-17, while the Aggies

dropped a heartbreaker to Texas Tech, 13-9. TCU is now 0-2 in conference play and A&M is 0-1.

Two sophomore quarterbacks will provide the fireworks and both are highly capable of breaking open the game. Steve Judy will guide the fortunes for the Frogs and Rocky Self will lead the Aggies, who will be playing their fifth straight on the road.

JUDY, a 6-0 180-pounder who took Texas' James Street's place at quarterback while a high school player at Longview, goes into the contest trailing only SMU's Chuck Hixson in passing and total offense. Last week against the Mustangs Judy had the most productive afternoon in the conference, rolling up 225 yards through the air.

Self will be starting his third game for the Aggies after taking over for Jimmy Sheffield in the Nebraska game. He is third behind Hixson and Judy in both passing and total offense and has completed 39 of 85 for 434 yards

and two touchdowns and also has gained 132 yards rushing.

The big question mark for the Frogs will be whether their prize running Norm Bulaich (6-1, 217) will be ready for Saturday's encounter. He pulled a thigh muscle on the first play from scrimmage against Ohio State three weeks ago and has not played since. Marty Whelan, a senior running back from Jefferson has taken up the slack for the Frog ground attack since Bulaich's injury and will probably see a lot of action.

Other standouts for the Frogs are split end Jerry Miller and flanker Linzy Cole, who will catch most of the aerials Judy puts aloft. James Ray, a 6-3, 230-pounder, will provide pass protection from his offensive guard slot and John Ruthstrom (230) will handle the centering chores.

ON DEFENSE the Frogs have suffered through four straight losses and given up an average of nearly 37 points per outing. Standouts on the defensive unit

are co-captains Terry Shackelford, a stalwart defensive tackle, and James Vanderslice, a 6-1, 205-pound linebacker.

The Aggies enter the game with a 1-3 season mark and hold a three-year jinx over the Frogs. Their last victory was in 1965, Aggie Coach Gene Stallings' first at the Cadet helm. Last year the Aggies won in Kyle Field, 27-7.

Larry Stegent, senior tailback from Houston, will lead the Aggies coming off of one of the best games of his career. Against Tech he carried 29 times for 127 yards. Joining Stegent and Self in the backfield will be fullback

Marc Black and wingback Barney Harris.

The offensive line will look the same with Ross Brubacher at tight end, Andy Phillely at strong tackle, Leonard Forey at strong guard, Jack Kovar at center, Jim Parker at weak guard, Mike Fields at weak tackle and Jimmy Adams at split end.

STALLINGS said that he was disappointed that A&M lost the Tech game but that after viewing the films that many of the players graded well enough to win. The offensive is finally starting to block and open some holes for

Stegent and Black is blocking well.

"It was the second game we have rushed for 200 or more yards," Stallings said.

Defensively, the Aggies are to have jelled as a team. In last three games they have put up an average of just one touchdown per contest and are in the conference behind Texas and Arkansas in rushing defense. There will be no changes in starting eleven although more Steve Luebbehussen probably see more action in a fine game against the Raiders.

### Talent Show

A \$25 1st. Prize will be awarded to any one person or group with the best Skit, Singing Act, or any other type of talent, Thurs. Oct. 23. No Age Limit.

### PIGSKIN LOOSE IN THE END ZONE

Bruce Best dives to recover a blocked punt in the Baylor end zone. Baylor's Harlam Deem (25) punt was blocked by Robert Merski. Grady Hoermann (32) rushes in to assist Best. (Photo by Mike Wright)

## Aggie Fish Stay Unbeaten With 16-6 Win Over Baylor

By Richard Campbell

The Texas Aggie Fish used a bruising defense and a slick running game last night to grind out a 16-6 win over the Baylor Cubs before 10,500 Shriner Benefit fans in Kyle Field.

The Cub offense had little to cheer about as the Fish defense shut them down with 163 total yards and only eight first downs. Baylor's six points came in the third period when Tommy Stewart returned a Brad Dusek punt 43 yards to score.

Vance Kerbow put new life into the Fish running attack as he reeled off 95 yards in 16 carries and even provided the first six points on a 24-yard scamper in the first quarter. Buster Callaway kicked the extra point and the Fish led 7-0. Later in the first stanza, Robert Murski blocked a Cub punt in the Baylor end zone and Bruce Best fell on the loose football for another Fish touchdown. Callaway's kick sailed wide to the right and the Fish were on top, 13-0.

Kerbow went to work in the second quarter piling up a lot of his yardage as the Fish marched to the Cub 17. There, Baylor toughened and Callaway booted a 33-yard field goal and the A&M scoring was over for the night as they took a 16-0 advantage.

Stewart's return made the score 16-6 but A&M's Todd

Christopher broke up the pass try for the conversion. The third quarter ended the same way with the scoring over but not the action.

Fish quarterback Lex James traded interceptions with Cub signal-callers Randy Cavender and Chuck Gossett through most of the fourth quarter but Dusek provided the game's most unusual play. After completing his only pass of the night to Glenn McNatt for 19 yards, Dusek rolled to his right and threw another pass two plays later. But the ball slipped from his grasp in the act of throwing and fell behind him into the waiting arms of Baylor's Ed Taylor who started upfield with the interception. But Dusek tackled Taylor six yards later and took the ball away from him to give the Fish a first down 13 yards from the original line of scrimmage.

The closest Baylor could get to scoring was the Fish five in the third quarter where a fourth

down pass fell incomplete and snuff out their only real

### ENGINEERS—SCIENTISTS

## Program Diversification

important foundation for your career in aerospace

At Convair, we have always recognized the need to develop tomorrow's leaders today. Among the college graduates who join us now are the individuals who will spearhead our unusually diverse engineering and scientific activities, 5, 10 and 15 years in the future. Convair's unique degree of product-line diversification is your assurance of many open avenues toward personal progress.

Typical of the broad spectrum of activity at Convair are these continuing programs . . .

- Space Launch Vehicles
  - Reusable Space Shuttles
  - Experimental Satellites
  - Oceanographic Monitoring Systems
  - Range Measurement Systems
  - Large Erectable Space Structures
  - Military and Commercial Aircraft
- . . . and, at the moment, 105 other studies and programs.

For its continuing work in virtually every phase

of aerospace, Convair is seeking individuals with degrees in Aeronautical, Civil, Electrical and Mechanical Engineering and in Engineering and Computer Sciences.

Outstanding fringe benefits . . . tuition assistance programs for advanced studies at the area's four institutions of higher learning . . . and the unique cultural/recreational climate of San Diego are bonus add-ons to the opportunities provided by Convair's unusual diversification.

Our representative will be on campus soon. Contact your Placement Officer to arrange an interview, or write to:

Mr. J. J. Tannone, Supervisor, Professional Placement and Personnel, 5437 Kearny Villa Road, San Diego, California 92112.
